PART I - BUSINESS AND GENERAL INFORMATION

Item 1. Business

GMA Network, Inc. is the Philippines' leading broadcasting company, which produces the most innovative, most trusted, and top-rating TV programs.

Also known as the Kapuso Network, GMA brings superior entertainment and responsible, unbiased, and timely delivery of comprehensive and accurate News and Information to Filipinos anywhere in the world – through its TV, radio, online platforms and wide array of other media-related ventures: program syndication, film production, music publishing and distribution, set design, audio-visual production, and new media.

Officially listed on the Philippine Stock Exchange in 2007, GMA Network, Inc. is regarded as one of the most notable organizations that promote sustainability in the country, being the first media and broadcasting company in the Philippines to sign with the United Nations (UN) Global Compact.

Based on Nielsen TV Audience Measurement data for January to December 2025, GMA channels (GMA, GTV, and other GMA DTT channels) registered a combined people net reach of 87.5%, equivalent to approximately 63 million TV viewers in Total Philippines. Headquartered in Quezon City, GMA operates a network of 115 TV stations and 21 radio stations nationwide.

RELATIVE SIZE AND FINANCIAL AND MARKET STRENGTH OF COMPETITORS

For the longest time, the Company considers ABS-CBN as its prime competitor in free-to-air (FTA) broadcasting, which is the core business of GMA. However, it can be recalled that ABS-CBN lost its franchise when the National Telecommunications Commission issued a cease-and-desist order against ABS-CBN's broadcast operations on May 5, 2020. Subsequently, on July 10 of the same year, the House Committee on Legislative Franchises adopted a resolution denying the media company's franchise application. Voting 70 to 11, the House committee rejected the application for a franchise renewal of ABS-CBN. Since then, ABS-CBN's content was no longer seen on Channel 2's free-to-air frequency. Nonetheless, ABS-CBN continued to operate and produce content, strengthening its presence in the digital landscape. It also forged partnerships with TV5 and Zoe Broadcasting Network. With this development, GMA's immediate competitors in FTA broadcasting remains to be TV5 and A2Z.

TV5 which was formerly known as ABC 5 ranked second in 2025 in the FTA broadcast industry. The channel was re-launched in 2008 as TV5 after reaching a partnership with MPB Primedia, Inc. (MPB), a local company backed by Media Prima Berhad of Malaysia – with MPB producing and sourcing most of the entertainment programs of the channel. On October 20, 2009, Media Prima divested its share in TV5, selling it to Mediaquest Holdings Inc., the broadcasting division owned by the Beneficial Trust Fund of the Philippine Long Distance Telephone Company (PLDT). In the first half of 2010, along with dramatic changes in programming, TV 5 branded itself as the “Kapatid” network parallel to ABS-CBN's “Kapamilya” and GMA's “Kapuso” brands. In the same year, TV5 took over the management of MediaQuest's Nation Broadcasting Corporation stations; DWFM was re-launched as a TV5-branded news radio station on November 8, 2010, Radyo5 92.3 News FM, and DWNB-TV was re-launched as AksyonTV on February 21, 2011, a news channel based on TV5's newscast Aksyon. By December 23, 2013, the network began broadcasting from its new headquarters, the 6,000-square meter TV5 Media Center located in Reliance, Mandaluyong. In October 2017, TV5 partnered with international sports organization ESPN to form ESPN5. Their expanded sports programming aims to establish and solidify their identity as a sports network. On August 15, 2020, the network announced its partnership with sister company, Signal TV as TV5's main content provider to handle its programming in order to bring back the glory days of TV5 to compete again with its rival TV network, GMA Network and other TV networks in the Philippines. In addition, shows from the foreclosed ABS-CBN were announced to be transferred to TV5 as the former implemented retrenchments following the non-renewal of the former's broadcast franchise. Since January 2021, TV5 carried selected programming produced by its former rival ABS-CBN. Moreover, on July 1, 2023, E.A.T. premiered on TV5 following the resignation of Tito Sotto, Vic Sotto, Joey De Leon, and other mainstay hosts of Eat Bulaga from TAPE Inc. which cemented its position as the second most-watched TV network since 2023. In terms of asset base, TV5 is about less than half that of GMA's. In terms of profitability, TV5 has been beset with net losses throughout the years accumulating to billions of Philippine pesos. In the same manner, a retained earnings deficit is reflected in TV's equity.

A third player in recent years was A2Z which is a free-to-air blocktime broadcast television network that serves as a flagship property of ZOE Broadcasting Network in partnership with ABS-CBN Corporation through a blocktime agreement. A2Z's flagship television station is DZOE-TV which

carries the VHF Channel 11 (analog broadcast) and UHF Channel 20 (digital broadcast; since November 12, 2020). As reported, the network's name is an abbreviation derived from the first letter of the names of two parent companies, ABS-CBN and ZOE, the number of the now-recalled channel frequency of the former, and the Latin alphabet letters from the first letter A to the last letter Z. In 2022, A2Z expanded its digital coverage to parts of Rizal, Iloilo, Guimaras, and Negros Occidental in January 2022; to Cagayan De Oro City and parts of Misamis Oriental in February; and to Cebu and Davao in March. In 2023, its digital channel further reached North and Central Luzon starting Oct 1 and as of March 2024, A2Z's digital/cable coverage included Baguio City, some parts of Bataan, Antique, Bohol, Negros Oriental, Siquijor, Leyte, Southern Leyte, Camiguin, and Bukidnon. Both TV5 and A2Z have enjoyed an uptick in their viewership shares with the ties forged with ABS-CBN.

GMA has proven its supremacy, emerging as the biggest and longest-running broadcasting company in the region. In terms of financial profitability, GMA has proven time and again its strength and consistency in providing the optimum results to its shareholders. In terms of ratings competitiveness, the Network grabbed the number one spot in nationwide TV ratings even when ABS-CBN was still operating with a franchise. To this day, the Company maintained its very significant lead in nationwide viewership, thus, providing the much-needed leverage to generate advertising revenues.

INTERNATIONAL DISTRIBUTION AND REVENUE GENERATION

GMA Network distributes its television programming internationally through multiple platforms and business models. GMA International manages the Network's subscription-based linear channels – GMA Pinoy TV, GMA Life TV, and GMA News TV - as well as its Video on Demand (VOD) offerings, including Catch-up Video on Demand (CVOD), Transactional Video on Demand (TVOD) and Subscription Video on Demand (SVOD).

In addition, GMA New Media Inc., a wholly owned subsidiary and GMA Worldwide Division further expand the reach of the Network's non-linear content through Advertising Video on Demand (AVOD) and content syndication, respectively.

GMA International has established a broad global distribution footprint, delivering Filipino programming to Global Pinoy audiences through both traditional platforms - direct-to-home (DTH), cable, and Internet Protocol Television (IPTV) - and digital Over-the-top (OTT) services, with TV Everywhere functionality, where applicable. Its international distribution footprint spans North America (United States & Canada), Asia Pacific (APAC), the Middle East and North Africa (MENA), Europe, and the rest of the world, including maritime distribution. Through the GMA Worldwide Division, locally produced content is syndicated to broadcasters in China, Southeast Asia, Africa, and Europe.

Under the carriage and licensing agreements with international pay-TV operators, GMA International generates revenues primarily from license fees related to linear channels and VOD subscriptions. Additionally, it earns advertising revenue through GMA Sales and Marketing Group (SMG), from allocated advertising spots across its international platforms. Other income streams include digital and social media advertising, pay-per-view services, event sponsorships, and ticket sales.

GMA PINOY TV

Launched in 2005, GMA Pinoy TV is the flagship channel of GMA International. It offers a broad lineup of news, public affairs, and general entertainment programming and is distributed on a subscription basis to overseas audiences.

GMA LIFE TV

Introduced in 2008, GMA Life TV features lifestyle-oriented programming that showcases Filipino culture and interests. The channel targets both Filipino and non-Filipino audiences and includes English-dubbed and subtitled content to support broader international viewership.

GMA NEWS TV

Since its launch in 2011, GMA News TV has provided comprehensive news and public affairs programming to overseas Filipinos. The channel carries internationally recognized and award-winning content designed to keep viewers informed about developments in the Philippines.

GMA On Demand

GMA On Demand provides a curated library drama series, films, public affairs, and lifestyle programs through VOD platforms. These offerings are available as standalone products or bundled with GMA International's linear channels, enhancing customer choice and viewing flexibility.

It spearheads the design and implementation of the network's grand digital blueprint, driving advancements across various digital platforms.

GMA New Media, Inc. remains at the forefront of digital innovation, continuously expanding its capabilities to keep pace with the ever-evolving media landscape. Whether through interactive television, web development, video-on-demand, digital TV, or emerging technologies, GMA NMI is committed to providing cutting-edge solutions that redefine the future of digital media and entertainment.

Core Services and InnovationsElection Coverage Initiatives

GMA NMI has played a pivotal role in revolutionizing election coverage in the Philippines:

- Eleksyon 2013: Spearheaded count operations in partnership with the Parish Pastoral Council for Responsible Voting (PPCRV), delivering comprehensive election data across television, mobile, and internet platforms.
- Eleksyon 2016: Enhanced GMA News Online's reach, achieving an unprecedented 34 million page views on election day. Notably, GMA NMI powered the network's first
- 360-degree livestream of the PiliPinas Debates 2016, marking a milestone in Philippine broadcasting.

- Eleksyon 2019: Introduced innovative features such as Heat Maps, providing users with detailed insights into candidate performance by region, and Vote Graphs, illustrating voting trends over time as election returns were processed.
- Eleksyon 2022: Led count operations for the Network's special elections coverage, making GMA the first to broadcast the partial and unofficial results tally both on-air and online. This resulted in 78.9 million page views for GMA News Online over two days. On YouTube alone, the said livestream peaked at more than 291,000 concurrent views – the highest among all news agencies.
- Eleksyon 2025: First site to post COMELEC authenticated results and remained the most consistent in speed and reliability throughout. According to Tubular, GMA News had higher views on YouTube, Facebook and Tiktok, as compared to its competitors from May 12-13, 2025.

Interactive Television and Web Development

Since its establishment, GMA NMI has been at the forefront of integrating traditional and new media:

- Interactive TV: Pioneered the convergence of mobile and television platforms, leading to the era of SMS-TV, enhancing viewer engagement.
- Web Development: Developed and maintained all GMA-related websites, including the GMANetwork portal and GMA News Online. The team's expertise in big data and systems integration has been instrumental in delivering real-time, multi-platform content.

To maintain a competitive edge, GMA NMI has focused on elevating its products by upgrading web technologies, implementing cloud migration strategies with Amazon Web Services (AWS), and enhancing user experience through advanced site features.

Video-On-Demand (VOD)

GMA NMI has forged strategic partnerships with leading video-on-demand platforms such as Hooq, iFlix, Daily Motion, and YouTube under the Player for Publishers program. Notably for the latter, GMA NMI has grown GMA YouTube channels significantly, with over 99 million subscribers across 20 channels as of December 2025.

These initiatives have grown GMA's advertising video-on-demand (AVOD) revenue streams considerably, expanding its reach and engagement. GMA currently holds the highest rank among local media publishers in Southeast Asia on the Tubular Leaderboard, as of end-December 2025.

Emerging Technologies

NMI Studios: Innovation and Excellence in Digital Storytelling

NMI Studios, the digital video production powerhouse under GMA New Media Inc., is redefining the landscape of digital content creation. With expertise spanning video production, animation, digital storytelling, immersive experiences, and generative AI, NMI Studios captivates audiences with cutting-edge technology with creative storytelling.

In collaboration with GMA Sports, bagged the "Technology-Animation" award at Asia Pacific Broadcasting + Awards (May 2024) for virtual sportscasters Marco and Maia, which they created using Generative AI. This achievement underscores NMI's commitment to advancing in the field of generative artificial intelligence.

Other Gen AI projects and videos produced by NMI Studios are:

- The Space Between, one title from the online animated series Hiwaga, was recognized as a Semi-Finalist at the AniMate Australia Animation Festival 2024
- [YT Channel] Stories from the Dark: For fans of horror and suspense, this channel offers gripping short stories designed to send shivers down viewers' spines. The video Patient No. 40 earned recognition as a finalist at the AI Horror Film Contest 2024, hosted by Curious Refuge

NMI Studios joined the 2025 Digital Congress (DigiCon 2025), to speak on the topic "From Prompts to Purpose: AI and the Future of Video Content Creation," discussing the real-world applications of AI in video production to an audience consisting of industry leaders from the fields of advertising and public relations.

In 2025, the team added PhilCom to their clientele, along prominent brands such as SM Prime, Crate & Barrel, and Ayala Group of Companies.

GMA NETWORK FILMS, INC.

GMA Network Films, Inc. is a wholly owned subsidiary of GMA Network, Inc. that produces movies catering to both local and international markets. Its productions have reaped both critical acclaim and commercial success, foremost among them the Philippine Centennial offering Jose Rizal in 1998 followed by Muro Ami in 1999. These legacy films scored back-to-back wins for Best Picture at the Metro Manila Film Festival.

In 2023, a rebranded GMA Films introduced itself as GMA Pictures to the cinema-going public. Its comeback was cemented with the hit movie Firefly which won back-to-back Best Picture awards at the MMFF and the first Manila International Film Festival in Los Angeles. In 2024, GMA Pictures co-produced the highest grossing film in Philippine history Hello Love, Again which hit 1.6B in combined local and international box office. The company also produced Balota for the Cinemalaya Film Festival which became the highest grossing independent film in over a decade. Finally, GMA Pictures replicated the back-to-back wins of Jose Rizal and Muro Ami when Green Bones won Best Picture at the Metro Manila Film Festival just a year after Firefly.

Moreover, Firefly received a Silver World Medal at the New York Festivals TV and Film Awards in the Feature Film Category. It was also the first Filipino film to feature Audio Description (AD) for the blind, with screenings held in Baguio, Batangas, Calamba, Davao, and Cebu. This was made possible through partnerships with NGOs supporting the visually impaired. Firefly also received an invitation to be shown at the Kyoto International Children's Film Festival.

Green Bones received significant recognition in major domestic and international awards. Green Bones was included in the Philippines' shortlist for the Academy Awards (Oscars) for Best International Feature Film. Green Bones bagged the Asian Academy Creative Awards (AACA) 2025 - National Winner (Philippines) for Best Screenplay (Ricky Lee and Anj Atienza) and Best Actor in a Leading Role (Dennis Trillo). Most importantly, actor Dennis Trillo was honored as Best Actor in a Lead Role in Asia at the Asian Academy Creative Awards held in Singapore, besting popular international stars Jacob Elordi and Park Bo-Gum. Green Bones also received the 8th Entertainment Editors' Choice Awards (EDDYS) for Best Picture, Best Actor (Dennis Trillo), Best Director (Zig Dulay), Best Supporting Actor (Ruru Madrid - Shared), and Best Cinematography (Neil Daza). The film also clinched the FAMAS Awards 2025 for Best Screenplay. It also bagged eight (8) GAWAD Pasado awards for Best Picture, Best Director, Best Screenplay, Best Actor, Best Supporting Actor, Best Film Language Use, Best Child Actor, and Best Production Design.

GMA PRODUCTIONS, INC.

GMA Productions, Inc., which operates under the name GMA Music, was incorporated in September 1997 and officially began its operations in 2004. This marked the revitalization of its music recording business through the establishment of the "GMA Records" label. Since then, GMA Records has utilized

the company's talent and media resources to produce a diverse range of music albums featuring various artists.

In January 2019, GMA Records rebranded to GMA Music to better align with the changing landscape of the music industry, which has seen a significant shift from physical media to digital downloading and streaming. GMA Music actively collaborates with GMA New Media, as well as local and international content providers and aggregators, to explore and capitalize on new revenue streams, particularly within the digital music streaming sector.

To further enhance its content offerings, GMA Music has reactivated its AltG Records sub-label and introduced GMA Playlist, a new sub-label supervised by GMA Post Productions.

GMA Music not only engages in production activities but also publishes music and administers copyrights for composers and musical works created or commissioned by GMA Network. The organization is committed to pursuing publishing agreements to expand its catalog of original compositions. Furthermore, GMA Music serves as a clearinghouse and resource for music utilized in the company's television and film productions. It is affiliated with several collection societies, including FILSCAP (the Filipino Society of Composers, Authors, and Publishers) and SoundsRight, which support composers, sound recording owners, and artists. Additionally, it is a member of PARI (the Philippine Association of the Record Industry).

SCRIPT 2010, INC.

With a commitment to quality, innovation, and reliability, Script2010, Inc. continues to evolve, adapting to the ever-changing demands of the media, entertainment, and events industries. By offering end-to-end solutions, the company remains a preferred partner for productions, corporate events, and live performances, ensuring that every project is executed with precision and creativity.

ALTA PRODUCTIONS GROUP, INC.

Alta Productions Group, Inc. was established in 1988 as a production house primarily to provide production services for the Network. Until the late 1990s, it operated a satellite studio in Makati, producing award-winning News and Public Affairs Programs for GMA Channel 7.

Today, Alta Productions Group's core business is audio dubbing and mixing for broadcast. Its fully digital audio recording and mixing studios are in sync with the Network's production requirements and broadcast standards. Aside from dubbing foreign content into the local vernacular for airing on the Network, Alta Productions Group also dubs station-produced content into English for international consumption. Its audio studio has now also included closed-captioning as a new service.

In addition, Alta Productions Group's shoot and video post-production department produces TVCs, broadcast content, and documentaries for both local and international clients. It has also become a prominent player in the conceptualization, design, and staging of corporate events, conferences, exhibits, and other on-ground activations.

Alta Productions Group is proud to be one of the few production houses capable of servicing the complete spectrum of production requirements all under one roof. From conceptualization, creatives, shoot, post-production, all the way to execution. It finds solutions for any kind of corporate event or on-ground activity requirement.

It also offers integrated digital media solutions, including webinars, virtual events, online content production, and remote/IP-based broadcast services. It has supported clients in designing and building state-of-the-art digital studios, reinforcing its expertise in both creative and technical production.

With over three decades of experience, Alta continues to evolve alongside the rapidly changing media landscape—adapting from traditional platforms to fully integrated digital ecosystems. Its lean, highly skilled team and network of strategic partners ensure agility, efficiency, and single-point accountability across all projects.

DEPENDENCE UPON CUSTOMERS

The broadcasting business of the Company generates revenues mainly from the sale of GMA's multi-platforms' national, regional and international advertising time and space to agencies/advertisers and other block time producers. No single customer accounts for twenty (20%) percent or more of the Company's total consolidated revenues. The top 30 agencies and advertisers comprise more than 70-80% of the Company's business.

COSTS AND EFFECTS OF COMPLIANCE WITH ENVIRONMENTAL LAWS

The Company complies with various environmental laws such as R.A. 8749 (Philippine Clean Air Act of 1999), R.A 6969 (Toxic Substance and Hazardous Wastes) under DENR, R.A. 9275 (Philippine Clean Water Act) under the Laguna Lake Development Authority and R.A. 9003 (Ecological Solid Waste Management Act) as follows:

1. R.A. 8749 – The Company has a DENR Permit to Operate for the generator sets installed in the GMA Network Center. The permit was renewed last April 27, 2022 and received on September 02, 2022 and amounting to approximately P 30,640.00 and is valid for five (5) years or until September 02, 2027. As a requirement in the permit, the Company submits quarterly self-monitoring reports on the consumed fuel of the generator sets. Also, all generator sets undergo annual emission tests conducted by DENR's accredited third-party service provider. The 2026 budget for the emission tests cost P 242,857.00 for the 6 units.

2. R.A. 6969 – All generated hazardous wastes such as tapes, used engine oils, busted fluorescent lamp (BFL), empty paint cans, contaminated rags and others are treated, recycled and appropriately disposed of with the DENR's accredited 3rd party hazardous waste treatment group. The 2026 budget for the disposal of hazardous waste is P 60,000.00. HazWaste ID was updated last 2021 as a requirement for the new rules and transferring to an online request for disposal of Hazardous Waste. New Hazardous Waste like grease, defective LED, used vegetable oil, expired pharmaceutical drugs and used personal protective equipment i.e. face masks, disposable PPEs and other COVID-19 prevention related kits were also included in the revision of the updated HazWaste ID.

3. R.A. 9275 – The Company has a Discharge Permit from the Laguna Lake Development Authority (LLDA) to operate its Sewage Treatment Facility (STP) in the GMA Network Center. In November 23, 2021 GMA Network reconnected with the sewer line of the Manila Water Company. The permit was revalidated last August 16, 2024 and the processing fee of P 5,000.00 was paid to the LLDA. The permit is still valid up to August 5, 2026. A processing fee of P 5,000.00 will be paid for the renewal of the discharge permit. Laboratory testing of wastewater was also performed as a requirement for Self-Monitoring Report (SMR) and Compliance Monitoring Report (CMR) submission. The 2026 budget for the siphoning of sludge of the STP is P 440,000.00.

4. R.A. 9003 - The Company has an existing Environmental Permit to Operate (Environmental Clearance) from the Quezon City Environmental Protection and Waste Management Department pursuant to City Ordinance No. 1729 Series of 2006. The permit is valid until July 9, 2026 and the renewal will be processed by June 2026 the budget for the environmental inspection clearance fee for 2025 is P 600.00.

In addition, the Company incurred approximately P92,444 in costs for other permits and licenses required by government regulations such as, but not limited to, special land use permits, DENR-EMB permits, etc.

EMPLOYEES

As of December 31, 2025, the Company has 3,216 regular and probationary employees. The Company also engaged 1,061 talents (on-cam and off-cam) in 2025. LABOR DISPUTES

There were no strikes nor observed strikes and disputes between the labor and management in the past three (3) years.

RISK MANAGEMENT

Operating in a complex and dynamic business environment, the Company believes that effective risk management is crucial in the attainment of its operational and financial targets. To protect and enhance shareholder value, a comprehensive and integrated enterprise-wide risk management program is implemented, guided by internationally accepted standards, and closely monitored by the Company's executive management and Board of Directors. As a result of such a program, the Company's risk exposure is managed at an acceptable level—effectively reducing threats, creating opportunities for continued growth, and strategically gaining a competitive advantage.

Our commitment to effective risk management

All risk management-related activities within the Company are based on the International Organization for Standardization (ISO) 31000:2018 risk management guidelines.

As mandated by executive management, it is the policy of the Company to:

- Integrate risk management into its culture and operations
- Incorporate risk management into strategic planning, activity planning, performance management, and resource allocation decisions
- Manage risk in accordance with the adopted standard
- Periodically revisit and re-assess its risk profile and the effectiveness of risk treatments

The Head of Corporate Strategic Planning and Business Development (CSPBD) functions as the Chief Risk Officer (CRO) and spearheads the risk management process in the Company. The CRO reports to the Risk Management Committee, which assists the Board in performing its oversight functions.

Major risks relating to our operations

Among the risks that may impact the sustained profitability and resilience of the Company, the most crucial are:

- Evolving and intensifying industry competition, amplified by globalization and rapid technological advancements
- Changing consumer habits driven primarily by innovations in content distribution platforms
- Failure to sustain lead in audience and market shares
- Failure to sustain lead in reach and technological superiority
- Unfavorable and volatile political and economic conditions in the Philippines and in territories where the Company and its subsidiaries operate
- Decline in advertising revenues and loss of significant advertisers
- Damages and attacks to the Company brand and its representing entities
- On-air and other operational disruptions brought about by equipment failures, pandemics, natural disasters, cyberattacks, malicious parties, and other threats
- Loss of key personnel or failure to attract and retain highly qualified personnel

With the coordinated efforts of the Company's risk management champions, risk owners, assurance providers, and support team, a systematic approach is in place to proactively respond to these risks. Mitigating controls are identified and periodically evaluated to ensure that they are operating satisfactorily to address the risks.

Item 2. Properties

As of December 31, 2025, the Company's total property and equipment and real property amounted to P12,362.10 million. The property and equipment had a book value of P2,969.70 million, while its real property had a fair market value of P9,392.33 million. While the fair value of all the land was not determined as of December 31, 2025, the Company's management obtained an appraisal to their land situated in major cities around the country (e.g. Brgy. South Triangle, Quezon City and Tandang Sora, Quezon City) which covers the majority of the carrying values that needs to be revalued to reflect their current fair values.

The Company also leases land, building and studio/office space in various locations around the Philippines under lease agreements for periods of between three and 25 years. The lease agreements may be cancelled at the Company's option. Rental expense of the Company related to this amounted to P14.54 million for the year ended December 31, 2025.

The following are the principal properties of the Company:

PROPERTIES INTENDED FOR ACQUISITION

As of the present, the Company does not intend to acquire any predetermined real property within the next twelve (12) months.

Regional Broadcast Stations

GMA owns regional broadcast stations in various parts of the country. Originating TV stations are stand-alone transmitters, studio, and production facilities capable of producing and airing live and/or taped programs as well as plugs and advertising within their (local) service area/s independent of, or in conjunction with the national feed. Satellite TV stations are similar to originating TV stations except that they are not equipped with live production capability outside of news bulletins. Satellite TV stations are also capable of broadcasting local plugs or advertising within their respective (local) service areas either independent of, or in conjunction with national program feeds. TV relay stations are limited to transmitter and signal receiving facilities and only re-broadcast programs/content received from originating or satellite TV stations with which they are associated; either via satellite or other receiving methods.

The following are the Company's television and radio stations throughout the Philippines:

F. Legal Proceedings

The Company and its subsidiaries are involved, from time to time, as plaintiff or defendant in litigation arising from transactions undertaken in the ordinary course of its business. Described below are the pending material litigations of which the Company and its subsidiaries or their properties are involved. The Company believes that a judgment rendered against it in the cases indicated below will not have a material adverse effect on its operations or financial condition.

The Company's affiliate, Philippine Entertainment Portal, Inc. is not involved in any material pending litigation as of December 31, 2025.

In the case of Isabel Cojuangco Suntay vs. Emilio A.M. Suntay III and Nenita Suntay Tanedo, Civil Case No. R-QZN-15-06204, plaintiff Suntay seeks to nullify the affidavits of settlement of the estate of Frederico Suntay before the Regional Trial Court (RTC) of Quezon City. Thereafter, plaintiff Suntay caused the annotation of a notice of lis pendens upon the Tagaytay City property of Mont-Aire Realty and Development Corporation's and covered by TCT No. T- 29046. Mont-Aire Realty then filed a motion to cancel the notice of lis pendens upon its title. In an Order dated August 30, 2019, the trial court granted Mont- Aire Realty's motion to cancel the notice of lis pendens and ordered the Register of Deeds of Tagaytay City to cancel and delete such notice. Plaintiff Suntay filed a motion for reconsideration for which Mont-Aire Realty filed its comment thereto. In an Order dated February 12, 2021, plaintiff Suntay's motion for reconsideration of the said Order dated August 30, 2019 was denied for lack of merit. Plaintiff Suntay then filed a Petition for Certiorari with the Court of Appeals (CA) docketed as CA-G.R. SP No. 174602. Mont-Aire filed its Comment on the Petition on October 21, 2022. In a Decision dated February 16, 2023, the CA denied Suntay's Petition and affirmed the trial court's Orders dated August 30, 2019 and February 12, 2021 both in favor of Mont-Aire Realty. Petitioner Suntay filed a motion for reconsideration which was denied by the CA. Thereafter, Suntay filed a Petition for Review with the Supreme Court.

Labor Cases

There is a case for regularization (NLRC NCR Case No. 06-06683-14) filed by Christian Bochee M. Cabaluna et al. (142 total), against GMA. Complainants are creative talents of GMA. The Labor Arbiter rendered a decision finding the complainants as regular employees of GMA and entitled to the benefits as such. GMA filed an appeal with the NLRC. The NLRC rendered a decision affirming the decision of the labor arbiter. GMA filed a motion for reconsideration which was also denied by the NLRC. GMA filed

a Petition for Certiorari with the CA. The CA rendered the Decision dated February 20, 2019, denying GMA's Petition. GMA filed a motion for reconsideration, which was also denied by the CA. GMA filed a Petition for Review with the SC. The SC has consolidated this regularization case with the illegal dismissal case. In a Resolution dated July 16, 2025, the Supreme Court held that complainants were regular employees of GMA and were entitled to the benefits under the CBA insofar as the regularization case was concerned. The Supreme Court likewise held that 50 of the respondents were illegally dismissed. We have filed a timely motion for reconsideration with the Supreme Court on February 5, 2026.

There is also a separate case for illegal dismissal (NLRC NCR Case No. 08-09480-15, 08-09499-15 and 08-09558-15) filed by the same Christian Bochee M. Cabaluna et al., against GMA. The labor arbiter rendered a decision declaring valid the termination as against the 15 complainants but held that the rest of the complainants were illegally dismissed and awarded backwages with reinstatement. GMA then filed a Notice of Appeal with Memorandum of Appeal and posted a bond with the NLRC. Subsequently, GMA filed a Supplemental Memorandum of Appeal. The NLRC affirmed the valid dismissal of the 15 complainants but modified the labor arbiter's decision as to the rest of the 35 complainants dismissing their complaints for illegal dismissal. Complainants filed a motion for reconsideration but the same was denied by the NLRC for lack of merit. Cabaluna et al. filed a Petition for Certiorari with the CA and GMA filed its comment thereto. The CA reversed the NLRC and ruled that Cabaluna et al were illegally dismissed and reinstated the Decision of the labor arbiter with regard to the 35 complainants while also declaring the 15 complainants as illegally dismissed and entitled to reinstatement and backwages. GMA filed a motion for reconsideration but was denied. GMA thus filed a Petition for Review with the SC. The regularization case has been consolidated with this case likewise pending before it. In a Resolution dated July 16, 2025, the Supreme Court held that complainants were regular employees of GMA and were entitled to the benefits under the CBA insofar as the regularization case was concerned. The Supreme Court likewise held that 50 of the respondents were illegally dismissed. We have filed a timely motion for reconsideration with the Supreme Court on February 5, 2026.

In another case filed by Jose G. Nacionales et al. against GMA and RGMA for regularization with monetary claims before the NLRC Regional Arbitration Branch VIII in Tacloban City, the labor arbiter declared the complainants as regular employees of GMA and granted monetary award in their favor. Upon appeal, the NLRC partially granted GMA's appeal by deleting the monetary award but affirming the decision insofar as it found that complainants are regular employees of GMA. GMA filed a motion for partial reconsideration whereas RGMA filed its motion for reconsideration. Complainants also filed their motion for reconsideration with respect to the deletion of the monetary award. Thereafter, the NLRC denied the motion for reconsideration by GMA and RGMA. On June 3, 2019, GMA filed a Petition for Certiorari with the CA. Thereafter, on June 13, 2019, GMA received complainants' Petition for Certiorari docketed as CA GR SP No. 12841 which was consolidated with GMA's Petition docketed as CA GR SP No. 12838. On July 27, 2022, the CA issued a Resolution dismissing GMA's Petition in CA GR SP No. 12838 and partly granted complainant's Petition in CA GR SP No. 12841. GMA filed a motion for reconsideration on November 3, 2022 and a Comment/Opposition to complainant's motion for partial reconsideration on December 12, 2022.

On February 28, 2023, the Court of Appeals, denied the motion for reconsideration of both respondent GMA and complainants. GMA then filed a Petition for Certiorari before the Supreme Court, which denied the same. Complainants then filed a Motion for the Issuance of Alias Writ of Execution which prayed for the payment of CBA wage increases, longevity pay, rice provision, signing bonus, as well as attorney's fees. Respondent GMA and complainants agreed to enter into a Compromise Agreement and was set to meet at the NLRC Tacloban on October 4, 2024, however, due to the last minute changes in

computations, the said Compromise Agreement did not push through. Complainants thereafter filed its Motion for the Issuance of Writ of Execution dated October 28, 2024. Respondent GMA filed its Comment/Opposition thereto. On March 17, 2024, respondent GMA received the Order granting the wage differentials prayed for by the complainants. On March 19, 2025, complainants filed their Petition to the NLRC Cebu with regard to their adjusted monthly salaries. On March 20, 2025, GMA received an Order of Execution from the NLRC QC. On March 27, 2025, GMA filed a Petition for Extraordinary Remedies assailing the ELA's Order granting complainants' Motion for the Issuance of the Alias Writ of Execution. On May 22, 2025, a Decision was promulgated by the NLRC Cebu strictly enjoining the ELA from initiating garnishment proceedings and directing GMA to deposit the check payment to the cashier of the Tacloban Arbitration Branch. Thereafter, GMA filed its motion to lift garnishment following the satisfaction of the monetary award.

On June 18, 2025, an Order was issued granting GMA's motion to lift garnishment. The NLRC Cebu on September 19, 2025 issued an Order for the release of the monetary awards to the complainants and upon release of the monetary award, said case shall be considered closed and terminated.

In a case filed by Relly C. David et al. against GMA and RGMA for regularization with monetary claims before the NLRC Sub-regional Arbitration Branch VI in Iloilo City, the labor arbiter rendered a decision declaring complainants as regular employees of GMA, and directing both GMA and RGMA solidarily liable to pay complainants Php597,843.89, representing complainants' backwages, among others. On December 18, 2019, GMA filed its Memorandum of Appeal of the said decision with the NLRC. In a Decision dated December 29, 2021, the NLRC denied GMA's appeal. On August 30, 2022, GMA filed a Petition for Certiorari with the CA. In a Resolution dated October 7, 2022, the CA dismissed GMA's Petition. On December 12, 2022, GMA filed a motion for reconsideration but the same was denied on October 18, 2023, but clarified that the LA's monetary award judgment award remained unchanged by the NLRC's affirmance, thus, the same shall only be Php597,843.89.

During the pendency of the case before the Court of Appeals, Labor Arbiter Calanza, issued a writ of execution which ordered, among others, that the amount of P3,641,412.78 shall be collected from GMA in accordance with CA's Resolution dated October 7, 2022. GMA filed a Motion to Quash Writ of Execution and/or Order of Execution, Motions for Early Resolution praying that LA Calanza refrain from issuing more Notices of Garnishment seeking to enforce the erroneous amount of P3,700,968.91

GMA filed a Petition for Extraordinary Remedies (With Application for the Immediate Issuance of Temporary Restraining Order with Status Quo Ante Order and/or Writ of Preliminary Injunction) dated August 7, 2024 with the NLRC Cebu. On August 29, 2024, GMA received a copy of a Resolution issued by the NLRC Seventh Division, dated August 13, 2024, granting our prayer for the issuance of a Temporary Restraining Order upon posting of a bond in the amount of Fifty Thousand (P50,000.00) Pesos. On August 22, 2024, GMA filed our monetary bond in the amount of Fifty Thousand (P50,000.00). Thereafter, a Temporary Restraining Order was issued.

On September 9, 2024, GMA received a copy of the favorable Decision, dated September 5, 2024, promulgated by the NLRC Seventh Division ruling the following: (1) ORDER the Cashier of SRAB VI to return or release to GMA the amount of P3,700,968.91; or (2) If the amount of P3,700,968.91 had already been released to private respondents, ORDER the private respondents to return or reconstitute the amount of P3,700,968.91 to GMA. GMA will recover the said sum released to the complainants.

In the case filed by Regile C. Enrile et al. against GMA and RGMA for regularization, the labor arbiter rendered a decision declaring RGMA as a labor only contractor and complainants as regular employees of GMA. On May 31, 2019, complainants filed their Memorandum of Appeal. On June 7 and June 10, 2019, GMA and RGMA filed their respective separate Memorandum of Appeal. On September 27, 2019,

GMA received the NLRC Decision dated August 30, 2019 affirming the decision of the labor arbiter and further declaring complainants as automatically covered by and entitled to the benefits in GMA's Collective Bargaining Agreement (CBA). GMA and RGMA were solidarily ordered to pay complainants the total amount of Php3,664,650.00. GMA filed its motion for reconsideration on October 3, 2019, while complainants filed their motion for partial reconsideration and manifestation on September 26, 2019. On January 22, 2020, GMA received the NLRC Decision dated December 20, 2019 denying GMA's motion for reconsideration but granting complainants' motion for partial reconsideration. GMA and RGMA were ordered to pay complainants the total amount of Php6,917,344.88. Thereafter, GMA filed a Petition for Certiorari with the CA questioning the Resolution dated December 20, 2019 and Decision dated August 30, 2019, both of the NLRC. On October 1, 2020, the Court of Appeals-Cebu issued a Resolution dismissing the Petition. On December 3, 2020, GMA and RGMA filed a motion for reconsideration of said Resolution. On November 16, 2021, GMA received a Resolution dated September 27, 2021 granting the motion for reconsideration and reinstating GMA's Petition for Certiorari. On November 22, 2021, GMA received complainants' Comment on the Petition for Certiorari dated November 9, 2021 to which GMA filed a Reply on December 1, 2021. In its Decision dated 31 July 2024, the CA dismissed GMA's petition and it affirmed the 30 August 2019 Decision and 20 December 2019 Resolution of the NLRC. GMA no longer questioned the said CA decision to the Supreme Court.

In the cases filed by Panlilio et al., seeking regularization and monetary claims in the form of salary differentials, 13th month pay differentials, mid-year and year-end bonuses, docketed as NLRC Case No. RAB-III-11-28579-18, the labor arbiter rendered a decision finding that RGMA was a labor-only contractor and declared the complainants as regular employees of GMA who are entitled to the same salaries and benefits being enjoyed by regular employees of the Network. GMA appealed the decision on 23 September 2019. In its Decision dated 29 December 2020, the NLRC dismissed the appeals filed by complainants and RGMA but partly granted GMA's appeal. The NLRC modified the arbiter's decision as follows: (1) computation of the benefits and entitlements due to the complainants under GMA's Collective Bargaining Agreement (CBA) shall be subject to the three (3) year prescriptive period for money claims under the Labor Code; and (2) computation of the awards shall only include benefits and entitlements under GMA's CBA which are over and above those received by complainants while working under RGMA. Further, the arbiter was directed to identify and determine during the execution proceedings which particular benefits will be included in the complainants' awards. GMA filed its motion for reconsideration (MR), which was denied by the NLRC in its Resolution dated 15 November 2021. Acting on GMA's Petition for Certiorari filed on 31 January 2022, the Court of Appeals (CA) Thirteenth Division rendered a Decision on 27 March 2023 affirming the NLRC Decision dated 29 December 2020 and Resolution dated 15 November 2021. The CA found that (1) RGMA is a labor-only contractor, (2) RGMA's existence was established precisely for petitioner GMA's business and convenience, (3) GMA effectively exercises control over the means and methods by which the services of RGMA's technicians are to be rendered, and (4) the transmitter technicians performed activities directly related to the principal business of GMA. GMA filed its motion for reconsideration which was also denied by the CA in a Resolution dated 03 December 2024. An appeal to the Supreme Court (SC) was no longer pursued. On February 28, 2025, a Resolution was issued by the labor arbiter pertaining to the judgment award in NLRC Case No. RAB-III-11-28579-18. On March 31, 2025, we filed with the NLRC our Petition for Extraordinary Remedies questioning the said Resolution dated February 28, 2025.

On June 16, 2025, we filed a Petition for Certiorari questioning the Resolution dismissing our Petition for Extraordinary Remedies, dated April 15, 2025. On July 30, 2025, we received a Resolution dismissing our Petition for Certiorari. On August 15, 2025 we filed our motion for reconsideration contesting such dismissal. Complainant filed his comment on the motion for reconsideration.

There was a DOLE investigation on the incident involving the death of Eddie Garcia. In the Order dated December 2, 2019, GMA and some members of its Management were ordered to pay the administrative fine of Php890,000.00. GMA filed a Memorandum of Appeal with the Office of the Secretary of Labor and Employment on December 13, 2019. The DOLE Secretary partially granted the memorandum of appeal filed by GMA and Alpha Premier Transport Services; denied the appeal of CMB Film Services, Inc., Shoot Digital Video Company and Gapo Special Effects, Services Inc. and modified the Order dated December 2, 2019 of the Regional Director of the DOLE-NCR. On December 15, 2023, we filed our motion for reconsideration of the DOLE Resolution dated November 22, 2023. On October 28, 2024, the DOLE Secretary issued a Resolution denying GMA's motion for reconsideration and the Joint motion for reconsideration filed by CMB Films Services, Inc. and Shoot Digital Video Company. DOLE issued the Entry of Judgment stating that its November 22, 2023 Resolution has become final and executory on November 12, 2024. In an Order dated September 2, 2025, the appeal of GMA was partially granted and the fines reduced from P890,000.00 to P180,000.00 which has been satisfied with a check issued by Intra Strata Assurance Corporation.

There was a case filed by Ruby Gruezo Bautista who questioned the cessation of her employment arising from the expiration of her Project Employment Contract. In a Decision dated February 27, 2020, the labor arbiter found for illegal dismissal and directed GMA to reinstate the complainant to her former position without loss of seniority and other privileges and ordered GMA to pay complainant the aggregate amount of P80,949,50. GMA filed a Notice of Appeal and Appeal-Memorandum on August 24, 2020. In a Decision dated December 29, 2020, GMA's appeal was denied by the NLRC. GMA's motion for reconsideration was likewise denied in a Resolution dated 31 May 2021. GMA filed a Petition for Certiorari with the CA on 02 September 2021. The CA denied the Petitions. GMA filed a motion for reconsideration which was denied by the CA. Due to the writ of execution issued by the labor arbiter, GMA already deposited the payment of the monetary award and corresponding fees with the NLRC Cashier.

There is also another complaint filed by Rodeleon A. Gruezo for illegal dismissal, unfair labor practice, and non-payment of salaries/allowances against GMA. The parties simultaneously filed its respective Position Papers on December 5, 2025. This case is deemed submitted for decision by the labor arbiter.

There is also another complaint for CBA Benefits, specifically for wage adjustment and differentials, signing bonus, longevity pay, mid-year and Christmas bonus filed by Joeboy C. Enong. The is under RCMB IX-Voluntary Arbitration and has been referred to Voluntary Arbitrator Atty. Quirino G. Esguerra, Jr. On December 5, 2025, GMA received a Decision, dated November 20, 2025 partially granting the monetary claims of complainant such as accumulated wage increases, wage differentials, mid-year and Christmas bonus differentials, rice provision differentials, and longevity pay. Other claims commencing in 2009 up to 2020 were dismissed upon the ground of res judicata and/or the three (3) year prescriptive period. On December 15, 2025, GMA filed its motion for partial reconsideration. The complainants also filed their own motion for partial reconsideration with regard to the denial of their monetary claims.

There was also a case filed by Ely B. Selincio et al. for regularization and payment of money claims against GMA and RGMA. Since GMA was not willing to settle, the SENA was terminated and the records were referred for the filing of the appropriate complaint with the Labor Arbiter. On August 13, 2019, complainants filed their formal complaint. The conciliation and mediation failed, and hence, the parties were directed to file their position papers. GMA filed its position paper. RGMA also filed its separate position paper. On January 29, 2021, a Decision was rendered by the labor arbiter finding RGMA a labor only contractor and declaring complainants as regular employees of GMA. On March 1, 2021, GMA and RGMA filed their respective separate Memorandum of Appeal. In a Decision dated December 29, 2021, the NLRC reversed and set aside the Decision dated January 29, 2021 by the

labor arbiter, and the complaint against GMA was dismissed. GMA filed Comment/Opposition to complainants' motion for reconsideration. On May 31, 2022, the NLRC denied complainants' motion for reconsideration.

On August 22, 2022, GMA received complainants' Petition for Certiorari with the CA. GMA then filed its Comment/Opposition dated October 11, 2022. In a Decision dated July 11, 2025, the Petition was denied. Complainants filed a motion for reconsideration which was denied in a Resolution dated January 22, 2026.

There is a complaint for regularization with money claims filed by Peter R. Cueno et al. against RGMA and GMA. In a Decision dated August 13, 2020, the Labor Arbiter dismissed the complaint. Complainants filed their Appeal Memorandum. GMA and RGMA, in turn, filed their respective Answer Memorandum. In the Decision dated May 21, 2021, the NLRC granted the appeal of complainants and reversed and set aside the labor arbiter's Decision dated August 13, 2020. GMA filed its motion for reconsideration. On the other hand, the complainants filed a motion for partial reconsideration, which was granted by the NLRC in the Resolution dated September 14, 2021. GMA filed on December 6, 2021 a Petition for Certiorari with the CA. Subsequently, GMA filed a Manifestation with Motion to Consolidate GMA's Petitions for Certiorari dated December 1, 2021. The said consolidation was granted in a Resolution dated July 11, 2022. On January 23, 2023, complainants filed a motion for execution with the NLRC and on February 15, 2023, GMA filed its Opposition to the Proposal for Settlement. In a Resolution dated May 10, 2023, complainants' Motion for Execution and Urgent Motion to Issue Subpoena Duces Tecum was denied by the NLRC.

There is a complaint for money claims - Salary/Wage, Retirement Pay, OT, Holiday, SIL, 13th month, Separation Pay, Signing Bonus, other CBA benefits, damages, Attorney's fees and legal interest filed by Peter Cueno. This case is an offshoot of the previous Cueno et al case, which regularized the complainants, but did not grant any monetary award. GMA submitted the Position Paper on September 18, 2023, and Reply on October 02, 2023. In a Decision, dated August 30, 2024, the labor arbiter dismissed the complaint for lack of jurisdiction. On October 3, 2024, we received complainants' Notice of Appeal and Memorandum of Appeal dated September 30, 2024. On October 12, 2024, we filed our Answer Memorandum with the NLRC. On June 4, 2025, a Decision was issued which granted complainant Cueno's Appeal and directed the Arbitration Branch of origin to conduct further proceedings to determine the exact amount due to complainant. On October 30, 2025, a Resolution was issued granting the motion for reconsideration of complainant. Thus, on January 14, 2026, GMA filed its Petition for Certiorari before the Court of Appeals-Cagayan De Oro.

There is a complaint for regularization filed by Menandro A. Bantoto et al. for regularization with money claims against GMA and RGMA. On October 28, 2019, GMA filed its opposition to complainant's Motion for Inhibition. On December 5, 2019, respondents received the Order denying complainants' Motion for Inhibition and directing the parties to file their respective position papers. Thus, both GMA and RGMA filed their respective position paper. On June 2, 2020, respondents received the Decision dated February 28, 2020 by the labor arbiter dismissing the case. On August 19, 2020, complainants filed an appeal to the NLRC. GMA filed its Answer Memorandum on September 1, 2020.

In a Decision dated November 13, 2020, the NLRC granted complainants' appeal and declared RGMA as labor only contractor and complainants as regular employees of GMA. On December 26, 2020, GMA filed a motion for reconsideration. Thereafter, complainants filed a Motion to Clarify Decision to which GMA filed a Comment and/or Opposition on February 15, 2021. In a Resolution dated May 14, 2021, the NLRC denied GMA's motion for reconsideration and partly granted complainants' Motion to Clarify Decision. On August 5, 2021, GMA filed with the CA a Petition for Certiorari.

Thus, on March 23, 2022, a writ of execution was issued ordering the Sheriff to enforce the judgment award amounting to P4,600,440.36. GMA paid the full amount of the award on May 26, 2022 and the arbitration branch of origin issued an Order directing the cashier to release the amount to the complainants.

On August 30, 2022, GMA filed its Memorandum with the CA. In a Decision dated July 27, 2023, the CA denied our Petition. On September 8, 2023, GMA filed its motion for reconsideration but the same was denied in a Resolution dated March 21, 2024. However, on July 29, 2025, complainants filed a Motion for the Issuance of a Writ of Execution praying that the salaries of complainants be adjusted and for GMA to jointly and severally pay complainants a total differential of P1,185,000.00 each. Thus, on January 14, 2026, GMA filed its Comment/Opposition to complainants' motion by presenting its own computation.

There was also a complaint for regularization filed against GMA and RGMA by Noel V. Gagante et al. The NLRC rendered a Decision dated June 28, 2019 granting complainants' motion for correction in the computation of wage increases, longevity pay, among others. GMA and RGMA filed their separate motions for reconsideration which were both denied by the NLRC. On July 1, 2020, GMA and RGMA filed with the CA separate Petitions for Certiorari

On April 4, 2022, we received a Notice of Consolidated Decision in CA-G.R. SP No. 13718, 13759, 13640 together with the Decision dated February 18, 2022 of the Court of Appeals – Eighteenth Division of Cebu City which affirmed with modification the NLRC's Decision dated June 28, 2019 and Decision dated December 20, 2019 in NLRC Case No. VAC-06-000254-2019 that the NLRC's computation of the monetary awards of Peralta et al. is subject to three-year prescriptive period of money claims. The case is remanded to the NLRC for the re-computation of the total monetary awards due to the named employees of GMA.

On May 4, GMA and Gozon filed a motion for reconsideration of the CA Decision dated February 18, 2022. On May 11, 2022, we received Peralta et al.'s motion for partial reconsideration in CA-G.R. SP No. 13640. We received the Amended Decision of the CA, dated November 28, 2023 which partly granted the motion for partial reconsideration of Peralta, et al. The monetary value of the rice provision in the amount of P2,500.00 is reinstated and remanding to the NLRC for re-computation of the total monetary award due to the aforementioned employees, in accordance with the decision. Complainants filed a Petition to the Supreme Court. The Supreme Court has not issued a resolution requiring the filing of comment to the petition.

There is also a complaint for regularization filed by Eldrin S. Padillo et al. against GMA and RGMA. On October 16, 2019, the labor arbiter issued a Decision declaring complainants as regular employees of GMA and ordering the latter to pay complainants all salaries and benefits granted to regular employees. On December 5, 2019, GMA filed its Memorandum of Appeal.

RGMA also filed its Memorandum of Appeal. On August 26, 2020, NLRC issued a Decision dismissing the appeal filed by GMA. On November 5, 2020, GMA filed a motion for reconsideration. In a Resolution dated April 29, 2021, the NLRC denied the motion for reconsideration. On July 26, 2021, GMA filed with the CA a Petition for Certiorari. In a Resolution dated October 27, 2023 issued by the Court of Appeals, GMA's prayer for a TRO and writ of Preliminary Injunction was denied. On December 5, 2022, GMA filed its Memorandum dated November 17, 2022.

There is also a case filed by Alan J. Atenta et al. against GMA and RGMA for regularization. In a Decision dated October 16, 2019, the labor arbiter declared complainants as regular employees of GMA and ordered the latter to pay complainants salaries and benefits granted to regular employees. GMA

filed its Memorandum of Appeal on December 5, 2019. RGMA filed also its Memorandum of Appeal. On August 26, 2020, the NLRC issued a Decision denying GMA's appeal and affirming the Decision dated October 16, 2019. On November 5, 2020, GMA filed a motion for reconsideration which was denied in a Resolution dated April 29, 2021 by the NLRC. On July 26, 2021, GMA filed with the CA a Petition for Certiorari under Rule 65 of the Rules of Court seeking reversal of the NLRC Decision dated which denied GMA's appeal. The Petition was denied by the CA. GMA's motion for reconsideration was likewise denied.

On September 15, 2023, an Order was issued by LA Larena ordering GMA to pay the monetary award as partially computed. On November 13, 2023, complainants filed their Petition for Extraordinary Remedy with the NLRC assailing a greater amount than what was awarded by the LA. We filed our Answer to the Petition last December 11, 2023. On February 22, 2024, the NLRC 8th Division rendered a Decision in the said Petition for Extraordinary Remedies, modifying the judgment award to include additional salary and 13th month pay differentials to Bitero, Torion and Trigo, as well as longevity pay, and 6% interest per annum. GMA filed a motion for reconsideration which was denied by the NLRC. On September 16, 2024, GMA filed its Petition for Certiorari with the Court of Appeals. On November 5, 2024, GMA received a copy of the *Decision* dated October 31, 2024 denying the Petition on procedural and technical grounds. GMA filed a motion for reconsideration which was granted by the CA.

This is a complaint for illegal suspension by Roland Crisostomo Manipon. The complaint was dismissed by the labor arbiter in the Decision dated February 28, 2020. The decision was affirmed by the NLRC with modification awarding the complainant nominal damages of Php30,000.00. Both complainant and GMA filed their own motion for partial reconsideration. In the Resolution dated April 30, 2021, the NLRC granted GMA's motion for partial reconsideration and modified the Decision dated December 29, 2020 to delete the award of nominal damages. Complainant Manipon filed a Petition for Certiorari with the CA. The CA reversed the decision of NLRC and ruled that petitioner was illegally suspended and ordered that the case be remanded to the Labor Arbiter for determination of the exact amount of backwages owing to petitioner and any other lost benefits during the period of his unjustified suspension. GMA filed a motion for reconsideration, which the CA denied in its Resolution dated September 19, 2022. On November 14, 2022, GMA filed with the SC its Petition for Review on Certiorari. Respondent filed its comment thereto on October 23, 2023. GMA's Petition for Review on Certiorari was denied by the SC in a Resolution issued by its Second Division on 13 November 2023. The 17 March 2022 Decision and 19 September 2022 Resolution of the CA were affirmed with modification ordering GMA to pay Manipon his backwages equivalent to ten (10) days including all other benefits and for the case to be remanded to the arbiter for the determination and computation of the monetary entitlements due to Manipon during the period of his illegal suspension.

This is an appeal of Richard R. Delarmente et al. from the Decision promulgated on September 27, 2019 by the NLRC Calamba City, Third Division, declaring complainants as regular employees of GMA Network and awarding CBA benefits under GMA's 2009-2014 and 2017-2019 CBAs and 10% attorney's fees. After proceedings before the NLRC, where GMA secured a favorable decision reversing the Decision dated September 27, 2019 of Labor Arbiter Magdarog Alba and dismissing the complaint for lack of merit. Specifically, it was ruled that: 1) The Management Agreement between GMA and RGMA is exempted from the coverage of DOLE D.O 174-17; 2) RGMA is not a labor only contractor; 3) Complainants are regular employees of RGMA, not GMA. Complainants' motion for reconsideration was likewise denied in a Resolution. The complainants filed a Petition before the CA where during the mediation proceedings, the parties reached a settlement of their claims. We now consider this case closed and terminated.

This is a complaint for Money claims – Salary/Wage- Illegal Suspension, Moral and exemplary damages, and Attorney's fees filed by Roldan A. Mansueto against GMA, docketed as NLRC RAB Case No. SRABX-05-00026-23. No settlement was reached during mediation. Both parties filed their position paper. We submitted the Position Paper on June 29, 2023 and Reply on July 27, 2023, respectively. On September 7, 2023, a Decision was rendered by the Honorable Labor Arbiter Sadat M. Datu, dismissing the case for failure to implead RGMA Network, Inc. On November 28, 2023, complainants-appellants filed their Notice of Appeal and Memorandum of Appeal. On December 27, 2023, we filed respondents-appellee's Answer Memorandum. On June 24, 2024, a Decision was promulgated ordering GMA to pay complainants CBA benefits in the form of signing bonuses, longevity pay and rice subsidy differentials. On July 29, 2024, we filed a motion for reconsideration of the Decision, dated June 24, 2024. On August 30, 2024, the NLRC rendered a Decision denying our motion for reconsideration. On November 25, 2024, we filed our Petition for Certiorari which is still pending before the Court of Appeals. On November 27, 2024, we received a notice of hearing setting the Pre-Execution Conference for the NLRC Decision on December 9, 2024. On January 9, 2025, we submitted a Manifestation and Compliance containing the requested documents. On February 3, 2025, we submitted our computations for the monetary award. On November 20, 2025, the NLRC issued an Order granting complainants' motion for the issuance of a writ of execution. On December 22, 2025, GMA paid the amount of Php8,208,488.16 via Manager's Check deposited with the NLRC. Subsequently complainants filed an Ex-Parte Motion for Release. On February 19, 2026, we received a copy of the Order granting complainants' motion to release.

Description of Registrant's Securities

The following is general information relating to the Company's capital stock but does not purport to be complete or to give full effect to the provisions of law and is in all respects qualified by reference to the applicable provisions of the Company's amended articles of incorporation and amended by-laws.

The Company has 3,364,692,000 common shares and 7,500,000,000 preferred shares subscribed and outstanding as of March 31, 2026.

All Common Shares of the Corporation shall enjoy the same rights and privileges. Each Common Share entitles the holder to one vote. At each meeting of the Shareholders, every Shareholder entitled to vote on a particular question or matter involved shall be entitled to one vote for each share of stock standing in his name in the books of the Company at the time of the closing of the transfer books for such meeting.

All Preferred Shares shall be of equal rank, preference and priority and shall be identical in all respects regardless of series. Preferred Shares receive dividends at a rate of one-fifth of the dividend paid to Common Shares (which rate shall be adjusted proportionately by the Board of Directors consequent to any stock split or stock dividend declaration affecting the Common Shares and the Preferred Shares). Preferred Shares shall be convertible, at the option of the shareholder, at the rate of five Preferred Shares to one Common Share based on par value subject to the approval of the Board of Directors. Preferred Shares shall enjoy priority over Common Shares in the distribution of assets of the Corporation in the event of its dissolution and liquidation, at such rates and conditions as the Board of Directors may determine. Each Preferred Shares shall be entitled to one vote and shall have the same voting rights as the Common Shares. The Board of Directors may specify other terms and conditions, qualifications, restrictions and privileges of the Preferred Shares or series/classes thereof, insofar as such terms, conditions, qualifications, restrictions and privileges are not inconsistent with Article Seventh of the corporation's Amended Articles of Incorporation.

Title X of the Revised Corporation Code of the Philippines grants to a shareholder the right to dissent and demand payment of the fair value of his share in certain instances, to wit: (1) in case any

amendment to the corporation's articles of incorporation has the effect of changing and restricting the rights of any shareholder or class of shares, or of authorizing preferences in any respect superior to those of outstanding shares of any class, or of extending or shortening the term of corporate existence; (2) in case of any sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property or assets; (3) in case of merger or consolidation; and (4) in case of investment corporate funds for any purpose other than the primary purpose or in another corporation or business.

Under Section 41 of the Revised Corporation Code of the Philippines, a stockholder is likewise given an appraisal right in cases where a corporation decides to invest its funds in another corporation or business or any other purpose.

The appraisal right may be exercised in accordance with Sections 81 and 82 of the Revised Corporation Code of the Philippines, viz.:

“SEC. 81. *How Right is Exercised.* – The dissenting stockholder who votes against a proposed corporate action may exercise the right of appraisal by making a written demand on the corporation for the payment of the fair value of shares held within thirty (30) days from the date on which the vote was taken: *Provided*, That failure to make the demand within such period shall be deemed a waiver of the appraisal right. If the proposed corporate action is implemented, the corporation shall pay the stockholder, upon surrender of the certificate or certificates of stock representing the stockholder's shares, the fair value thereof as of the day before the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action.

If, within sixty (60) days from the approval of the corporate action by the stockholders, the withdrawing stockholder and the corporation cannot agree on the fair value of the shares, it shall be determined and appraised by three (3) disinterested persons, one of whom shall be named by the stockholder, another by the corporation, and the third by the two (2) thus chosen. The findings of the majority of the appraisers shall be final, and their award shall be paid by the corporation within thirty (30) days after such award is made: *Provided*, That no payment shall be made to any dissenting stockholder unless the corporation has unrestricted retained earnings in its books to cover such payment: *Provided, further*, That upon payment by the corporation of the agreed or awarded price, the stockholder shall forthwith transfer the shares to the corporation.

SEC. 82. *Effect of Demand and Termination of Right.* – From the time of demand for payment of the fair value of a stockholder's shares until either the abandonment of the corporate action involved or the purchase of the said shares by the corporation, all rights accruing to such shares, including voting and dividend rights, shall be suspended in accordance with the provisions of this Code, except the right of such stockholder to receive payment of the fair value thereof: *Provided*, That if the dissenting stockholder is not paid the value of the said shares within thirty (30) days after the award, the voting and dividend rights shall immediately be restored.”

None of the proposed corporate actions for the Company qualifies as an instance for a possible exercise by security holders of their appraisal rights under Title X of the Revised Corporation Code of the Philippines.

B. Management Discussion and Analysis of Financial Condition and Results of Operations for the Years Ended December 31, 2025, 2024, and 2023

The Management Discussion and Analysis provides a narrative of the Company's financial performance and condition that should be read in conjunction with the accompanying financial statements, which have been prepared in accordance with accounting principles generally accepted in the Philippines.

As discussed below, the Company's financial statements do not show any losses from operation and hence the Company has not taken any measures to address the same.

KEY PERFORMANCE INDICATORS

The Company uses the following measures to assess its performance from period to period.

Ratings

The performance of a program and/or network as a whole with respect to household ratings is the primary consideration for an advertiser in the Philippines to determine whether to advertise on a given program and/or network. AGB Nielsen, a media research firm, provides ratings to the Company on a subscription basis.

Load Factor

Load factor refers to the amount of advertising minutes aired during the breaks in a program as a percentage of the total minutes available for advertisement. The load factor is an indication of a program's or a timeblock's ability to sell advertising minutes. Load factor statistics are internally generated, although certain third parties monitor such statistics.

Signal reach/coverage

The ability to reach a greater number of viewers is a part of the Company's strategy to provide its advertisers with more value for their advertising expenditures. The Company frequently assesses its signal strength and coverage by conducting field intensity surveys and tests.

Subscriber count

Subscriber count is the key performance indicator for the Company's initiatives in the international arena to diversify its revenue base beyond advertising revenues. The number of subscribers to the Company's GMA Pinoy TV, GMA Life TV and GMA News TV International forms the benchmark for measuring the success of this service. The Company makes internal assessments to determine the market potential for each new initiative and sets a subscriber count target accordingly.

Cost control

The Company is continuously searching for ways to control costs and to improve efficiency. The Company has established systems and procedures to monitor costs and measure efficiency and has launched various initiatives and activities in relation to these efforts.

FINANCIAL AND OPERATIONAL RESULTS

For the Year Ended December 31, 2025

GMA Network and Subsidiaries (GMA/the Company) displayed its grit and determination amidst the challenges and changing landscape particularly in the broadcast industry, ending the year 2025 with consolidated revenues and net income after tax ahead of last year. Revenues across business segments sealed the past twelve month-period this year at ₱18,115 million, up by more than half a billion compared to a year ago. Advertising revenue continued to take up the lion's share with a contribution of more than 90% to the total revenue pie.

Income Data	2025 (in millions PhP)	2024 (in millions PhP)	Inc/(Dec) (in millions PhP)	%
Revenues				
Advertising revenue	16,565.78	16,241.34	324.44	2%
Consumer sales	1,549.27	1,323.30	225.97	17%
	18,115.05	17,564.64	550.40	3%
Total operating expenses	15,541.49	14,835.87	705.61	5%
Other Income (Expenses) - net	372.56	60.03	312.53	521%
EBITDA	5,290.44	5,231.22	59.22	1%
Net income	2,197.01	2,064.97	132.04	6%
Attributable to Equity Holders of Parent Co.	2,201.78	2,069.42	132.36	6%
Noncontrolling Interest	(4.77)	(4.45)	(0.32)	-7%

Meanwhile, the Company's consolidated direct costs and operating expenses (OPEX) amounted to ₱15,541 million, exhibiting a moderate growth of 5% from ₱14,836 million a year ago. The increase was contributed by higher production and direct costs, while general and administrative expenses also factored in the overall increase during the year.

This year, Other Income (Expenses) - net amounting to ₱3734 million also posted an increase of ₱313 million, more than six times of prior year's tally. With the improvement in the top line boosted by additional income this 2025 amidst continued prudent spending across the Company, consolidated Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA) for the period amounted to ₱5,290 million inching up by ₱59 million against last year. Likewise, consolidated net income after tax, which measured at ₱2,197 million, sealed ₱132 million or 6% higher than the previous year.

Revenues

Consolidated advertising revenues from Free-to-Air (FTA) Television/TV and Radio, Online, and International, amounted to ₱16,566 million, taking up the lion's share with a contribution of more than 90% to the total revenue pie. Against last year, this segment saw an increase of ₱324 million, equivalent to 2%. Election-related placements in both periods provided the much-needed boost. Minus the extraordinary inflows in between years, consolidated revenues from all platforms fell short by 5% from regular and recurring sources.

Revenues	2025 (in millions PhP)	2024 (in millions PhP)	Inc/(Dec) (in millions PhP)	%
Advertising revenues	16,565.78	16,241.34	324.44	2%
Consumer sales	1,549.27	1,323.30	225.97	17%
	18,115.05	17,564.64	550.40	3%

On a per channel level, GMA 7 continued to lead the pack in terms of total revenues, wrapping up the year with an upswing in sales due to the aforementioned influx of political advocacies and advertisements. Without this boost and aggravated by the tepid second half performance, advertising revenue of the main channel settled with a single-digit cutback from regular customers.

Nonetheless, ratings-wise, based on Nielsen TV Audience Measurement data, GMA 7 continued its overall dominance among television stations, retaining the no. 1 rank in Total Philippines in Q4 2025 and in full year 2025. Spanning more than two decades, top-rating program *Kapuso Mo, Jessica Soho* (KMJS) has consistently captured the hearts of its viewers and has dominated the overall top programs in both Total Philippines and Urban Philippines based on ratings data from January to December 2025. Adding another feather to its cap, KMJS bagged a Bronze Tower Trophy at the 2025 New York Festivals TV & Film Awards for its investigative documentary *Minahan sa Homonhon Island (Nickel and Dime: The Cost of Mining in Homonhon Island)*. This marks the fourth international win for KMJS from the prestigious New York Festivals -- further proof that the program is not only top-rating but also globally acclaimed and award-winning. The show's eminent host, Jessica Soho was likewise honored as Journalist of the Year in the Carlos Palanca Memorial Awards last November 2025 and was included in Tatler Asia's Most Influential Philippines for her continued impact on Asian media in her 40 years in the industry. *Tatler* cited KMJS as one of the country's highest-rated public affairs shows, lauded for its investigative depth, cultural insight, and public service impact. In the area of news delivery, the Kapuso primetime newscast *24 Oras* also reaffirmed its position as the country's leading news authority with "*Eleksyon 2025: The GMA Integrated News Coverage*" being the most watched on-air and online. The flagship newscast also won Silver in the Documentaries & Reports – Social Issues category at the prestigious 2025 US International Awards. In Q3 and up to Q4 2025, *24 Oras* also emerged as the most-watched program in Total Philippines based on aggregated program ratings. Resident newscaster Vicky Morales was likewise awarded the "Presenter of the Year" for 2025 by the Association for International Broadcasting Awards for her world-class excellence and dedication to her craft. Similarly, in mid-June this year, the world premiere of the much-awaited saga *Encantadia Chronicles: Sang'gre* further catapulted the TV station's supremacy in ratings as it beat long-time number one program *FPJ's Batang Quiapo* in NUTAM People's Rating for its pilot episode, both in aggregate and single ratings. By 3Q this year, the iconic fantasy series has established its foothold as the leader in the weekday primetime drama ratings as it edged *Batang Quiapo* in Urban Philippines. Moreover, by 4Q this year, *Encantadia Chronicles: Sang'gre* has gained supremacy over *Batang Quiapo* in both Urban Philippines and Total Philippines. Not to be outdone, the action light drama *Sanggang Dikit FR*, in the second *Telebabad* slot, remains the most-watched program on its timeslot. Due to the commendable ratings performance, both programs have been extended until 2026. To add to its growing list of accolades, and as GMA celebrates its 75th anniversary this year, the Network continued to bag the TV Station of the Year from reputable award-giving bodies which included the 25th Platinum Stallion National Media Awards and in both 37th and 38th PMPC Star Awards for Television held this year. Moreover, a group of Kapuso journalists and media professionals were recognized at

the 2025 Lasallian Scholarum Awards for their outstanding contributions to the industry. Finally, the Kapuso station won big in the recent Anak TV Seal Awards this 2025, with a multitude of programs bagging the recognition. Anak TV is an organization that promotes media and television literacy, and backs the agenda for child-sensitive, family-friendly television in the Philippines. Every year, the Anak TV Seal is bestowed on exemplary television programs that fulfill the needs of the youth.

While still occupying the 2nd biggest contributor in TV/radio advertising, the 2nd free-to-air channel Good TV (GTV) continued to remain challenged in its top line. The channel capped 2025 with revenues below 2024 full year level with barely any boost from political advocacies and advertisement this 2025. The two (2) remaining Digital Terrestrial TV (DTT) stations I Heart Movies and Heart of Asia contributed revenues to the Network, albeit also trailing behind prior year's top-line performance.

Meanwhile, also recognized in the Platinum Stallion National Media Awards was GMA's Regional TV (RTV), cited as "Regional TV Network of the Year" for the eighth time. Despite the reduction in the number of stations from 11 to seven (7) starting last trimester of 2024, the combined revenues of the remaining stations exceeded last year's overall tally by 7%. Minus closed stations last year, the revenue increase of RTV's remaining operating stations stood higher at 24%. Taken all in, this year's revenue was mainly driven by the inflow of both national and local political advocacies and advertisements.

The Company's Radio operations remained solid even after the boost from election-related placements had waned in the second half of this year. The business unit's advertising revenues grew 15% against last year. Not only did political advocacies and advertisements propel this year's revenue hike, placements from regular clients also improved year-on-year. On a per station level, AM station *Super Radyo DZBB 594 kHz* which also marked its 75th year since it was launched, led the pack with YTD sales jumping by a high double-digit percentage of 64% more than a year ago. Meanwhile, FM station *Barangay LS 97.1 Forever!* pitched in another 6% climb in sales. Radio's flagship AM Station *Super Radyo DZBB 594 kHz* and FM Station *Barangay LS 97.1* remained the number one station based on Nielsen Radio Audience Measurement (RAM Mega Manila) full-year average ratings for the year 2025 with both stations consistent at No. 1 on a per month basis. As the top choice of radio listeners, both *DZBB* and *DWLS 97.1* garnered commanding audience shares, far ahead of its closest competitors'. GMA's Radio stations were also recipients of various distinctions from award-giving bodies, specifically, *Super Radyo DZBB* was recognized as "AM Radio Station of the Year" at the 2025 Platinum Stallion National Media Awards.

Ranked as the leading media company in Southeast Asia for its digital performance, GMA held on to its strong ranking at #20 at the close of 2025, based on the Tubular Leadership Worldwide Rankings, according to global video analytics company Tubular Labs. This digital accomplishment is a testament to the dedication to innovate and continuously produce content with far-reaching viewer interest. As of end-December this year, GMA's Network's YouTube channel has close to 41 million subscribers. GMANetwork.com was also ranked No. 1 in the Local News and Media Publisher category as of the latest report by the close of 3Q 2025, according to the Similarweb Top Websites Country Rank. It was ahead of Inquirer.net, ABS-CBN, Philstar.com, and Rappler. With this, consolidated digital/online advertising has captured the 2nd spot in terms of overall revenue contribution to the Company's top line for past twelve months, bagging a 13% improvement over the same period last year.

In other revenues sources, i.e., subscriptions (GMA Pinoy TV), production service revenues, over-the-top/OTT, distribution/syndication, merchandise sales, etc., full year 2025 wrapped up with an increase of 21% versus a year ago. Revenue from Production services doubled its performance from the prior

year with the various collaborations with ABS-CBN contributing to the growth in this segment. Augmenting the above, revenue contributions from other subsidiaries of the Network also showed improvements year on year, led by GMA New Media and Script2010. In other subsidiaries and revenue streams, GMA Network Films, Inc. (GFI) via the rebranded GMA Pictures also provided revenues to the Company albeit lower compared to the 2024 turnout. For the year 2025, main sources of the film outfit's top line were box-office receipts from the back-to-back winner of Best Picture Award in the 2024 Metro Manila Film Festival (MMFF) *Green Bones*, as well as from the international screening of the 2024 mega-blockbuster *Hello, Love, Again (HLA)*.

For GMA International's subscription revenues, a 5% decline was reflected after four quarters this year mainly arising from the churn in subscriber count in between periods. Main channel GPTV ended 2025 with a reduction in subscriber count which was partly cushioned by the improvement in subscriber counts of GLTV and GNTV, albeit not enough to mitigate the revenue shortfall due to the lower average rate per unit for the latter channels. Average forex for the twelve-month period stood at PhP57.62 to USD1, a little higher against comparable period last year's average of PhP57.39 to USD1. Launched in 3Q last year, iWantTFC subscribers also provided some boost to this period's overall subscription revenue. Finally, sale of merchandise, mainly GMA Affordabox, posted a double-digit reduction due to less quantities sold in between periods coupled with the price reduction for GMA Affordabox (set-top box) from ₱799 to ₱699 starting May 15, 2025.

Total consolidated direct cost and other operating expenses wrapped up the year 2025 at ₱15,541 million, edging last year by a single-digit 5%. The increase in expenditure of ₱706 million year-on-year was due to the rise in both total direct costs by ₱515 million or 6% and general and administrative expenses (GAEX) by ₱190 million or 3%.

Consolidated direct cost composed of production costs and cost of sales completed the twelve-month period this year at ₱8,882 million versus ₱8,367 million a year ago. The increase was largely accounted for by Ch-7's cash production spending which escalated due to the earlier mentioned collaboration

between GMA Network and ABS-CBN Studios via *Pinoy Big Brother (PBB): Celebrity Collab Edition*. The presence of *PBB Celebrity Collab* Season 1 translated into an additional in-house produced program particularly in the weekday primetime slot (4th slot vice canned program), thus entailing incremental cost this period. While the said partnership recorded additional costs, this translated into incremental revenues and bottom line for the Company. Furthermore, the much anticipated and mega-budgeted *Encantadia Chronicles: Sang'gre* premiered in mid-June which further contributed to the hike in production spending in between years. Meanwhile, Cost of sales for the set-top box finished lower in 2025 aligned with less units sold during the period.

Meanwhile, consolidated non-cash direct cost comprised of depreciation and amortization of program rights finished at ₱1,963 million, slightly lower by ₱12 million or less than 1% vis-à-vis the same period last year. Program rights amortization amounted to ₱1,356 million for all channels, less than the ₱1,373 million recorded a year ago. Meanwhile, direct depreciation expense by the end of 2025 stood at about the same level as last year, ending at ₱607 million compared with ₱602 million a year ago.

Wrapping up the year 2025, consolidated general and administrative expenses (GAEX) concluded at ₱ 6,660 million, netting a minimal increase of 3% or ₱190 million from last year. Personnel cost, which comprised the bulk of this expense category, saw a 6% climb from ₱3,778 million to ₱4,011 million. Annual salary adjustments of both rank and file and confidential employees accounted for the increase in general. On the other hand, this was partly trimmed down by the drop in Facilities cost by ₱104 million or 17%, mainly from lower repairs and maintenance and utilities charges in this period. Similarly, Taxes and license also declined by ₱73 million by the close of the year, as the prior period included higher payments to the Bureau of Internal Revenue for tax assessments covering the years 2019, 2020 and 2021. Meanwhile, non-cash GAEX posted a ₱93 million net increase coming from the inclusion of an additional provision for expected credit losses (ECL) on receivables. This was partly cushioned by the reduction in depreciation and amortization of software costs.

Other Income (Expense) - net

Consolidated Other Income (net of Other Expenses) stood at ₱373 million in 2025, registering an improvement of ₱187 million or more than six times of last year's ₱60 million net Other Income result. The increase this period was buoyed by the ₱183 million hike in commissions and other revenues

generated by the Company's Talent Development and Management Team (Sparkle), as well as the reduction in overall interest expenses (down ₱42 million) related to the Company's outstanding short-term loans, which as at end December 31, 2025 stood at ₱1,477 million compared to ₱3,721 million as at end-December 2024. Additionally, forex gain due to revaluation, in between periods, (realized and unrealized) also contributed to the increase in this year's Other Income account.

EBITDA

Consolidated Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA) after twelve months this year stood at ₱5,290 million, inching up by a little over 1% or ₱59 million compared to last year's ₱5,231 million.

Net Income

Similarly, consolidated net income after tax for the year 2025 reached ₱2,197 million, an increase of ₱132 million or 6% compared to the ₱2,065 million recorded during the same period last year.

Balance Sheet Accounts

As of December 31, 2025, the Group's total consolidated assets amounted to ₱25,451 million, down from ₱27,330 million in the same period last year. The decline was primarily due to lower cash and cash equivalents, which decreased by ₱685 million or 32%; prepaid expenses and other current assets, which fell by ₱579 million; and property and equipment, which declined by ₱532 million. The reduction in cash balances was mainly attributable to the repayment of short-term loans, which ended lower by ₱2,244 million year-on-year. Prepaid expenses likewise saw a considerable reduction, particularly from prepaid production costs amortization of the program *Encantadia Chronicles: Sang'gre* following its launch in June of this year. Meanwhile, the decrease in property and equipment resulted from fewer additions and capital expenditures during the period. Films and merchandise inventories also declined as at December 31 this year, with film inventories decreasing from ₱2,336 million to ₱2,152 million and merchandise inventories from ₱936 million to ₱814 million, primarily due to lower acquisitions of film rights and reduced merchandise inventory levels during the period.

Total consolidated liabilities also settled lower by ₱1,007 million or 8%, from ₱12,988 million in December 2024 to ₱11,982 million as at end-2025. As mentioned, the drop came from the ₱2,244 million reduction in Short-term Loans, from ₱3,721 million to ₱1,477 million. The said decrease was partially offset by the climb in Pension liability by ₱1,354 million due to the recognition of additional remeasurement loss following the result of this year's actuarial valuation report.

Equity attributable to the Parent Company stockholders decreased by ₱867 million or 6%, from ₱14,291 million to ₱13,423 billion, following the aforementioned remeasurement loss. Retained earnings in between years also declined by ₱231 million due to higher cash dividend declaration in 2025 against bottom line earned. These were all partially cushioned by additional revaluation increment in line with the appraisal of selected land properties in 2025.

Cash Flows

	2025 (in millions PhP)	2024 (in millions PhP)
Cash Flows		
Net cash provided by operating activities	4,456.17	2,558.35

Cash and cash equivalents at beginning of year	2,146.31	1,374.98
Cash and cash equivalents at end of the period	1,461.39	2,146.31

Operating Activities

Net cash provided by operating activities measured at ₱4,456 million in 2025. This stemmed from income before income tax of ₱2,946 million, adjusted mainly for Program rights usage of ₱1,356 million, Depreciation expense of ₱859 million, Pension expense of ₱715 million, Interest expense equivalent to ₱143 million, Net gain on sale of property and equipment of ₱43 million, Net unrealized foreign exchange gain of ₱36 million, Interest income amounting to ₱32 million, and Reversal of dismantling cost of ₱26 million apart from the changes in working capital. The primary component of the changes in working capital included the decreases in Trade and other receivables by ₱427 million and in Prepaid expenses and other current assets by ₱579 million.

Investing Activities

Net cash used in investing activities amounted to ₱306 million, coming primarily from the ₱311 million additions to Fixed assets and ₱29 million acquisition of Financial assets at FVOCI. These were partly offset by the ₱56 million proceeds from sale of property and equipment.

Financing Activities

Net cash used in financing activities amounted to ₱4,853 million coming from the loan repayments of ₱4,043 million, payment of cash dividends of ₱2,429 million, and Interest expense of ₱144 million. These were all partly cushioned by additional loan availments amounting to ₱1,800 million.

For the Year Ended December 31, 2024

Capping the year 2024, GMA Network and Subsidiaries (GMA/the Company) registered consolidated revenues of ₱17,565 million, attaining 94% of last year's top line amounting to ₱18,637 million. The year started slow, following the general cutback in advertising spending across the industry. Nonetheless, revenues rallied in the last quarter of 2024, boosted by the presence of political advocacies in view of the upcoming mid-term elections, thus trimming the revenue shortfall in between periods.

Meanwhile, the Company's consolidated direct cost and operating expenses for the year wrapped up at ₱14,836 million, only over a percentage point more than last year. Amid economic challenges, management has consciously exercised prudent control over general spending while ensuring the Company's commitment to providing high-quality entertainment, and responsible news delivery to its viewers remains a priority. Production and other direct costs were trimmed down by a hairline compared to the previous year while general and administrative costs registered an increase in between periods. Cost of sales ended lower than a year ago.

Consolidated Earnings before interest, taxes, depreciation, and amortization (EBITDA) after twelve months this 2024 measured at ₱5,231 million against the ₱6,326 million EBITDA posted during the same period in 2023.

Similarly, consolidated Net Income After Tax sealed at ₱2,065 million this year compared to the ₱3,162 million bottom line recorded a year ago.

Revenues

Consolidated advertising revenues continued to take up the lion's share or 92% of the Company's consolidated top line. For this year, this segment saw a 5% reduction from the revenues recorded a year ago. Sale of goods also missed comparable period's tally while sale of services stood at about the same level as the previous year's results.

Consolidated Revenues	2024 <i>(in millions PhP)</i>	2023 <i>(in millions PhP)</i>	Inc/(Dec) <i>(in millions PhP)</i>	%

On a per platform basis, core channel GMA 7 remained the biggest contributor to the Network's consolidated top line, which was also the hardest hit in terms of revenue reduction. Nonetheless,

ratings-wise, the Kapuso Network's flagship channel GMA 7 continued its ratings supremacy over free-to-air channels, based on Nielsen TV Audience Measurement data. Leading newscast *24 Oras* continued to be the most trusted source of news, information, and public service in the Philippines, and remains the nation's top news program over the past twelve months. At the same time, long running and highly acclaimed *Kapuso Mo, Jessica Soho* also remained in the forefront of the ratings game and has been a consistent source of revenues to the Network. *Telebabad* entry, *Black Rider* finished its successful run in the airwaves since November last year until its culmination in late July of this year, even beating ABS-CBN's *Batang Quiapo* on occasion. The Network has also produced top-rating and high caliber soaps. On its 2nd year anniversary, the multi-awarded afternoon drama, *Abot Kamay na Pangarap* still remained strong in the ratings chart leading to its culminating episodes by early October of this year. Meanwhile, launched in March this year, another afternoon soap, *Lilet Matias: Atty-at-Law* has also made its mark in terms of ratings and profitability. In the weekday primetime, the one-of-a-kind war drama series *Pulang Araw*, has been nominated for Best Soap/Telenovela in the 2024 Venice TV Award and was the only project from the Philippines that made it to the list of nominees across 19 categories. The epic soap was also the first GMA series to stream on Netflix 72 hours or 3 days before its airing on Ch 7's free-to-air TV and is set to be the first Filipino TV series to be archived on the moon as part of the Lunar Codex project.

The Company's second free-to-air channel, Good TV or GTV, continued to be a strong contender in the top three spot in terms of ratings, vis-à-vis other channels. GTV has likewise shown its financial viability as a stand-alone channel and remained profitable. GTV's banner program in the evening prime *G! Flicks* which featured popular canned movies, has consistently been a top-rater for the channel, alongside in-house produced show *Pinas Sarap*. Similarly, GTV's long-running shows *Good News*, *Farm to Table*, *I-Juander* and *Biyahe ni Drew* have also been consistent in their ratings and popularity. By the end of December this year, Radio operations finished short by 5% compared with its top line a year ago. *Barangay LS 97.1 Forever! (DWLS FM)* as well as combined revenues from its Cebu and provincial stations fared better than the comparable period last year but was offset by the lower sales of AM station *Super Radyo DZBB 594 kHz*. Nonetheless, as reported, *DZBB* and *Barangay LS 97.1* continued their dominance of Mega Manila airwaves throughout the year. Based on data from AGB Nielsen Media Research and Radio Audience Measurement (RAM), *Super Radyo DZBB 594* was also the top source of news and information on radio for 2024 with a 43.4 percent audience share. Similarly, *Barangay LS 97.1 Forever!* also had an impressive performance in Mega Manila airwaves in 2024. It registered a 50.5 percent audience share outperforming its closest competitors by a wide margin.

After twelve months this year, Regional TV (RTV) operations packed revenues 9% higher than a year ago amidst the closure of the Naga, Ilocos, Zamboanga and Batangas regional stations towards the last quarter of 2024. Minus revenues from these closed stations in both periods, the remaining seven (7) stations' YTD sales climbed 20% year-on-year. It was a sweep for RTV as all existing stations managed to end the year with increases in their respective top lines.

The Network's digital terrestrial television (DTT) channels were not able to hurdle prior year's top line with two (2) channels going off air in the latter part of this year. Hallypop and Pinoy Hits saw their final broadcast in September, leaving Heart of Asia and I Heart Movies under this segment.

Next to airtime advertising, the Company has ensured that it is keeping pace with the changing landscape in viewer behavior and content consumption, thus has continuously made progress in positioning itself in the digital/online arena. Attesting to this endeavor was the growth in online/digital advertising (advertising video on demand or AVOD) which bagged sales higher by a double-digit percentage from the same period last year. The Company has remained resolute in bolstering its online

presence across social media platforms, with viewership levels on the uptrend. *Kapuso Stream*, GMA's daily live streaming platform, continues to gain popularity among the online population. By the end of December 31, 2024, GMA YouTube channel has already reached close to 37.5 million subscribers. Additionally, in July of this year, GMA Pictures took film viewing to the next level by launching its own YouTube channel, offering a diverse lineup of films from the Company's library. This newly launched channel has already gained more than 275 thousand subscribers in less than half a year and has contributed to the overall top line. GMA Network gained over 40 billion video views across Facebook, YouTube, and TikTok in 2024. Sitting at the 19th spot, it is the highest-ranking media company in Southeast Asia according to the Tubular Leaderboard Worldwide Rankings under the Entertainment and Media Category.

In other revenue sources, consolidated sale of services amassed ₱1,124 million, at par versus same period last year's ₱1,141 million. The largest component of this revenue stream came from subscriptions revenue from GMA's international channels GMA Pinoy TV, Life TV, and News TV. This year, the international channels of the Company posted sales lower by 7% than a year ago. The churn in subscriber count of main channel Pinoy TV remains the main reason for the decline, albeit the gap in between periods has been on a narrowing trend. A milestone for GMA International this year was the launch of the GMA Pinoy Bundle under ABS-CBN's iWantTFC for viewers outside of the Philippines. Starting July 31, GMA International's three 24/7 streaming channels – GMA Pinoy TV, Life TV and News TV – plus select Kapuso programs were made available on demand alongside iWantTFC's library of Filipino content.

Other sources of service revenue for the Company include Production services, which are mainly comprised of content distribution/over-the-top, movie production and external revenues from subsidiaries. For the full year of 2024, inflows from these sources posted a combined growth of 8% more than a year ago. Propelling this year's increase was the top-line contribution from come-backing GMA Films/GMA Pictures which made great strides this 2024. Biggest boost to the top line was the initial share (as co-producer) in the box office receipts of mega-blockbuster movie "*Hello, Love, Again*" starring Alden Richards and Kathryn Bernardo, which grossed more than a billion pesos in Philippine cinemas. Additionally, theatrical receipts also came from the 2023 MMFF award-winning entry "*Firefly*" as well as from the Cinemalaya film "*Balota*", both of which also had good commercial runs in cinemas.

Meanwhile, over-the-top (OTT) platforms, particularly subscription video on demand (SVOD) streaming, have become a major player in the media industry. GMA has actively pursued the potential of this revenue stream and for the year 2024, major licenses included *Pulang Araw* (Netflix), the 2023 Metro Manila Film Festival (MMFF) and Manila International Film Festival best picture *Firefly* (licensed to Amazon), as well as the high-rating suspense-thriller television soap *Royal Blood* (Netflix). However, revenues from the 2024 deals finished lower than the previous year. As of the close of 2024, the Company has likewise sealed licensing deals for the coming year for the movie "*Balota*" which earned Primetime Queen Marian Rivera her first best actress award at the Cinemalaya Film Festival, as well as 2024 MMFF entry "*Green Bones*", which earned the Company a back-to-back win for best picture at the MMFF.

Wrapping up the Company's revenue performance, sale of goods amounted to ₱199 million, marking a 36% decline from ₱312 million during the same period last year. Sales of merchandise, particularly GMA Affordabox (set-top box) dropped in between periods. In November 2024, GMA introduced a new promotional campaign: "*Buy 1 GMA Affordabox/GMA Now, Take 1 GMA Now*" in an effort to drive sales up.

	14,835.87	14,591.65	244.23	2%

The Company's consolidated direct and other operating costs (OPEX), including cost of sales, measured at ₱14,836 million after twelve months this year, inching up by only 2% or ₱244 million against full year 2023. Production costs stood at par in between years, ending at ₱8,148 million this year. Cost of sales, particularly of the set-top box, dropped by ₱80 million, attuned to the lower volume sold. On the other hand, these were offset by the growth in general and administrative expenses (GAEX) by 6% year-on-year.

Consolidated cash Production costs of the Company sealed ₱6,173 million, lower by 4% or ₱244 million from ₱6,417 million a year ago. The net reduction mainly came from production and talent fees charges of the main channel, due to the presence of the high-costing adaptation of the fantasy series *Voltes V: Legacy* in 2023, among others.

Total production costs	8,148.23	8,173.43	(25.21)	-0.3%

While this cash production cost resulted in lower spending versus a year ago, non-cash production charges grew by ₱219 million or 12%, mainly from net increase in amortization of program rights by ₱181 million or 15%. For depreciation of production-related fixed assets, there was also an increase this year by ₱37 million or 7% from the continuous DTT roll out and other facilities and broadcast equipment upgrade/ acquisitions.

The Company's consolidated general and administrative expenses (GAEX) by the end of this year wrapped up with a net increase of ₱349 million or 6% from last year's ₱6,120 million to ₱6,469 million. Personnel costs, which comprised the bulk of this account, inched up only by a notch or ₱34 million from ₱3,743 million to ₱3,778 million, mainly resulting from the pay-out and recording of signing bonus to qualified rank and file employees, as well as the annual CBA and merit increases for all regular

employees. This was partly offset by the slight reduction in manpower count in between periods. Additionally, other increases in GAEX this year mainly came from outside services, following the climb in management and professional fees and the growth in charges under taxes and licenses.

EBITDA

As revenues for the full year settled behind last year, the Company's consolidated Earnings before interest, taxes, depreciation and amortization (EBITDA) sealed twelve months results at ₱5,231 million, short of last year's ₱6,326 million EBITDA by ₱1,095 million or 17%.

Net Income

Despite the challenges in revenues, the Company still managed to conclude the year with consolidated Net Income After Tax above the ₱2.0-billion mark at ₱2,064 million, albeit lower by ₱1,097 million or 35% from last year's ₱3,162 million bottom line.

Balance Sheet Accounts

As of December 31, 2024, the Group's total consolidated assets reached ₱27,330 million, reflecting a 4% increase from ₱26,254 million as at the same period last year. This growth was primarily driven by higher cash and cash equivalents, which rose to ₱2,146 million from ₱1,374 million, as cash inflows from operations exceeded cash outflows for investing (asset acquisitions) and financing (cash dividend payments) activities. Additional contributors to asset growth included trade and other receivables, which increased by ₱521 million, and program and other rights, which rose by ₱117 million due to acquisitions during the year. These were partly offset by the reduction in other assets. Inventories dropped by ₱228 million or 20% due to merchandise sales during the period, while property and equipment fell by ₱168 million or 5%, as asset additions were lower than depreciation charges for the year.

Meanwhile, total consolidated liabilities rose to ₱12,988 million from ₱11,317 million in 2023. The increase was largely driven by higher short-term loans, which grew from ₱1,527 million in 2023 to ₱3,721 million as of December 31, 2024. Obligations for program and other rights also increased by ₱248 million to ₱583 million, aligned with the acquisitions made during the period. However, these

increases were partially offset by a reduction in trade payables and other current liabilities, which decreased to ₱2,858 million from ₱3,201 million, as well as a ₱476 million decline in pension liability due to retirement payments recorded and recognition of remeasurement gain on retirement plans during the year.

The Group's total consolidated equity stood at ₱14,342 million, a 4% decrease equivalent to ₱596 million, compared to the prior year. This decline was primarily due to lower retained earnings, which fell by ₱849 million or 19% from the previous year following the payout of cash dividends during the 2nd quarter of this year and lower bottom line in between comparative periods. The said decline was partially offset by the recognition of remeasurement gain on retirement plans amounting to ₱260 million, net of taxes.

Operating Activities

Net cash provided by operating activities amounted to ₱2,558 million in 2024. This stemmed from income before income tax of ₱2,789 million, adjusted mainly for Program rights usage of ₱1,373 million, Depreciation expense of ₱874 million, Pension expense of ₱658 million, Interest expense of ₱186 million, Amortization of software costs of ₱27 million, Net gain on sale of property and equipment of ₱20 million, and Interest income amounting to ₱17 million, apart from the changes in working capital. The primary component of the changes in working capital included the ₱510 million increase in Trade and other receivables, coupled by the ₱1,251 million increase in Program and other rights resulting from acquisition of various rights during the year.

Investing Activities

Net cash used in investing activities accumulated to ₱871 million, mainly from the ₱679 million and ₱17 million additions to Property and equipment and Financial assets at fair value through other comprehensive income (FVOCI), respectively. Additionally, there was also a ₱179 million climb in Other noncurrent assets. These were partly offset by the ₱22 million proceeds from sale of property and equipment.

Financing Activities

Net cash used in financing activities measured at ₱915 million basically due to payment of dividends and loans amounting to ₱2,922 million and ₱1,827 million, respectively. These were partly offset by Company's availment of short-term loans which amounted to ₱4,021 million during the reporting year.

For the Year Ended December 31, 2023

GMA Network and Subsidiaries (GMA/the Company) registered consolidated revenues of ₱18,637 million for the twelve-months ended December 31, 2023. This was an 86% attainment of prior year's consolidated revenues of ₱21,564 million, which was heavily boosted by the presence of political advocacies and advertisements coming from the 2022 national and local elections. Carving out the aforementioned non-recurring sales, the Company inched up against prior period's consolidated top line.

GMA Network and Subsidiaries (GMA/the Company) made a last-ditch effort to close the gap in the top line for the year 2023, with a stronger performance in the 2nd half of the year which partly mitigated the slow start during the first semester. However, the absence of a little over ₱3.0-billion worth of political advocacies and advertisements made a huge dent on the company's top line. Nonetheless, carving out this non-recurring activity, GMA was able to post a modest growth of ₱89 million or 0.5% in its consolidated top line in 2023. Mitigating the lack of election-related placements were the contributions from emerging businesses which included online/digital advertising as well as over-the-top licensing activities. These revenue sources saw considerable improvements in 2023, which were crucial in addressing the challenges faced by traditional advertising segment of the company. Moreover, with GMA's renewed focus on film production via GMA Pictures, inflows from this segment also added to this year's revenues.

Meanwhile, the Company's consolidated direct cost and operating expenses for the year sealed at ₱14,592 million, only a percentage point more than last year. Despite economic challenges, management made a deliberate effort to control expenses while ensuring the Company's commitment to providing high-quality entertainment and responsible news delivery to its viewers remains a priority. Production and other direct expenses grew in between periods but was cushioned by the reduction in general and administrative costs. Cost of sales ended at about the same level as a year ago.

Consolidated Earnings before interest, taxes, depreciation, and amortization (EBITDA) after four quarters this 2023 reached ₱6,326 million, behind previous year's robust figure of ₱8,951 million.

Finally, consolidated Net Income After Tax settled at ₱3,162 million this year despite the dearth in political advocacies and advertisements compared to the strong showing in 2022 which sealed with a bottom line of ₱5,457 million.

Revenues

Advertising revenues remained the lifeblood of the Company comprising 92% of the company's consolidated revenue pie. This segment saw a reduction of 15% compared with same period last year. Mixed results were seen in the different revenue streams of the Company by the end of the twelve-month period this year.

Revenues	2023 (in millions PhP)	2022 (in millions PhP)	Inc/(Dec) (in millions PhP)	%

	18,637.21	21,564.01	(2,926.80)	-14%

On a per platform basis, flagship channel GMA 7 was the hardest hit due to the absence of election-related placements. Nonetheless, ratings-wise, the *Kapuso* Network's flagship channel continued its ratings supremacy during the period with leading newscast *24 Oras* topping the charts. For public affairs, long-running and highly acclaimed *Kapuso Mo, Jessica Soho* also remained in the forefront of the ratings game. On the side of entertainment programs, the Network has consistently produced top-rating and high caliber soaps. Banner programs for the past twelve months this year included culmination of the historical portal fantasy series on weekday primetime *Maria Clara at Ibarra* which did not falter in terms of its double-digit ratings until its finale in February this year, wherein it bade farewell at the top of the ratings chart. The program also consistently trended on Twitter and has been acclaimed by its wide range of audience and has garnered multitude awards for the program and its lead actors and actresses. Towards the second half of the year, the mega-production, *Voltes V: Legacy* was also launched and has consistently occupied the top five post in nationwide ratings. Furthermore, debuting since September 2022, the multi-awarded afternoon drama, *Abot Kamay na Pangarap* has already been airing for more than a year and still going strong in the ratings chart. It was also this year wherein the landmark partnership between GMA and erstwhile rival ABS-CBN came into fruition via the co-production of *Unbreak My Heart* featured in the primetime weekday block starting end of May up until the 3rd quarter of the year.

The Company's second free-to-air channel, Good TV or GTV remained staunch in terms of revenue generation this year. Ratings-wise, the channel was consistently in the top three spot in nationwide ratings. GTV's cumulative top line made considerable strides this year, recording its highest since it was launched and overtaking comparable period in 2022 by 25%. The biggest revenue contributor for GTV was the weekday primetime movie offering, *G! Flicks*. Minus the impact of political advocacies and advertisements, GTV's revenue upswing from last year was even higher at 34%. For GTV, another GMA-ABS partnership was forged during the third quarter of this year, with the Kapamilya Channel's long-running noontime show, *It's Showtime* shown in GTV.

Minus the impact of election-related placements, Radio operations of the Company recorded a 3% improvement versus recurring sales of last year. Nevertheless, compared to same period last year's absolute sales, Radio missed the previous year's top line by 16%. Flagship AM station *Super Radyo DZBB* was heavily charged with election-related placements a year ago, thus, contributing to the drag this period. Partly mitigating the decline was the sales growth in DWLS FM *Barangay LS 97.1* which registered an improvement of 9% and consistently occupied a strong position in the ratings chart in the radio industry.

In other operations across the regions, Regional TV (RTV) wrapped up the past year also behind 2022's strong top line, attuned to the same discussion on the absence of election-related revenues coming from both national and local placements. The regional TV operations of the Company continued to expand its reach by launching early this year its 12th regional station in the Philippines and the 5th in Luzon via the local station in Ilocos Norte. This development was aimed at strengthening local news coverage in Ilocos Region and Central Luzon and further solidifying GMA Integrated News' position as the news authority among Filipinos. In other developments, the award-winning GMA *Masterclass Series* of GMA Regional TV and Synergy continued to make its mark in offering lessons and inspiration to students all over the Philippines.

The digital terrestrial television (DTT) channels were also able to post a combined revenue growth this year by 5%, thus adding to the consolidated top line of the Company. For 2023, the Company's DTT channels included Heart of Asia, I Heart Movies, Hallypop and Pinoy Hits.

Taking advantage of the changing landscape in viewer behavior and content consumption, online/digital advertising (advertising video on demand or AVOD) of the Network has made continued progress, trumping prior year's top line by a hefty 73%. Furthermore, minus election-related placements in 2022, this segment posted an even higher improvement in recurring sales by 78%.

In other sources, consumer sales recorded a net increase of 9% with close to ₱1,500 million in total sales by the end of twelve months this year. Biggest chunk of this revenue segment came from subscription revenues from GMA's international channels GMA Pinoy TV, Life TV, and News TV, albeit finishing lower compared to same period last year. The churn in subscriber count was the primary factor in the revenue drop in this business segment. Meanwhile, following the popularity of over-the-top (OTT) platforms, particularly subscription video on demand (SVOD), GMA has geared towards leveraging its content to penetrate this market. Along with other content licensing deals, sales of this category saw dramatic improvement versus the top line generated last year. Emerging business, OTT SVOD propelled the growth. These were comprised mainly of licensing deals with Viu and Netflix for the following programs: *Unbreak My Heart*, *The Write One*, *Love Before Sunrise*, and *Maria Clara at Ibarra*. Apart from this, production revenues, which mainly consist of external sales from subsidiaries, also grew in between periods. The hike mainly came from the top line generated by New Media, Alta, and GMA Music.

For this year, GMA's renewed focus on film production via GMA Pictures also provided fresh source of revenues for the group led by the successful theatrical release of *Voltes V: Legacy – The Cinematic Experience* which aired in nationwide cinemas for several weeks due to strong demand. Co-produced movie *Five Breakups and A Romance* starring Asia's Multimedia Star and homegrown talent Alden Richards with versatile actress Julia Montes also nailed it at the box office with the overwhelming reception from the movie-going public. Likewise, GMA Pictures biggest movie for 2023 *Firefly* was one

of the official entries to the 2023 Metro Manila Film Festival and even garnered several accolades including the most coveted Best Picture award. Other movies produced and co-produced by GMA Pictures included *The Cheating Game* and *Video City*.

Finally, Sale of merchandise which generated annual sales of ₱312 million this 2023 finished lower than last year's ₱341 million. This was due to fewer number of units sold for GMA Affordabox (set-top box) and GMA Now (dongle). As at end-December 2023, total quantity sold for GMA Affordabox since launch in mid-2020 already reached close to three million units.

Meanwhile, the Company's total consolidated costs and operating expenses (OPEX) for the past twelve months reached ₱14,592 million, only a notch ahead of the ₱14,425 million cost incurred last year. The increase in production cost was to a large extent offset by the reduction in general and administrative expenses as well as cost of goods sold aligned with the decline in quantity sold of the set-top box and dongle this year.

Total production costs	8,173.43	7,482.90	690.54	9%

Consolidated Production costs comprised 56% of the Company's total spending after twelve months this 2023, settling at ₱8,173 million, 9% or ₱691 million more than a year ago. Cash production cost sealed at ₱6,417 million, ₱296 million or 5% higher than a year ago. Driving the growth was the mega-production of *Voltes V: Legacy* as well as the generally higher cost of the afternoon programs featured this 2023. Also contributing to the increase was the charges for the production cost of movies embarked on this period. For non-cash production cost, another ₱395 million or 29% increase was posted after four quarters this year, from ₱1,756 million to ₱1,361 million. On a year-to-date note, program and other rights amortization closed at ₱1,191 million, ₱323 million or 37% ahead vis-à-vis ₱869 million last year. This was primarily due to the higher straight-line amortization of various rights as well as airing of more expensive and popular titles in the Network's various channels. Depreciation also settled higher

at ₱565 million, ahead by 15% or ₱72 million against last year mainly due to the continuous roll out of DTT sites across the country in addition to other facility and equipment upgrades.

Total GAEX	6,120.35	6,640.37	(520.02)	-8%

The Company's consolidated general and administrative expenses (GAEX) by the end of December this year settled lower by 8% or ₱520 million. Personnel cost which comprised the bulk of this account finished 7% or ₱268 million less than a year ago. While there were annual salary adjustments in between years plus an increase in manpower base, these were offset by the presence of last year's Collective Bargaining Agreement (CBA) signing and appreciation bonuses given to qualified employees. Taxes and licenses also posted a decline of ₱160 million this year ending at ₱236 million. Outside services this 2023 wrapped up at ₱469 million, down by 4% from a year ago due to lower management and professional fees while Facilities costs also saw a reduction of ₱22 million or 4%.

EBITDA

As the drop in consolidated revenues by ₱2,927 million was higher than the decline in cash operating expenses by ₱264 million, Consolidated Earnings before interest, taxes, depreciation and amortization (EBITDA) wrapped up at ₱6,326 million this 2023, lower by ₱2,624 million or 29% versus a year ago.

Net Income

Twelve months into the year, the Company's bottom line sealed at ₱3,162 million, ₱2,295 million or 42% less than the bottom line of ₱5,457 million recorded a year ago. The drop was mainly due to the absence of the windfall from election-related placements during the first half of 2022.

Balance Sheet Accounts

As at end-December 2023, the Company's total consolidated assets stood at ₱26,255 million, up 6% from December 31, 2022's ₱24,729 million.

Noncurrent assets finished higher at ₱13,818 million as at the close of 2023 from ₱11,189 million a year ago due to the subsequent hike in Land at revalued amount by ₱2,193 million. The increase in the account balance was due to the climb in land's market value based on the latest appraisal report. This was counterbalanced by the reduction in Cash and cash equivalents by 52% or ₱1,480 million from the 2022 balance of ₱2,855 million as a result of cash dividend and short-term loan payments during the

reporting year. Additionally, Inventories settled 21% less, at ₱1,164 million versus end-2022's ₱1,469 million ensuing from the continuous sales of merchandise inventories in year 2023.

Meanwhile, total consolidated liabilities grew by 21% or ₱2,054 million as at end of 2023 to ₱11,317 million from ₱9,263 million as at end-December in 2022 as a result of the higher short-term loans from ₱27 million in 2022 to ₱1,527 million in 2023. Pension liability also increased in between years to ₱5,155 million in 2023 from ₱4,767 million last year as employees' annual cost was higher than the contributions made to the funds. On the other hand, Income tax payable dropped to ₱257 million vs. ₱556 million, parallel with the reduction in the Company's bottom line.

Equity attributable to Parent Company stockholders of ₱14,882 million as at December 31, 2023 went down by 3% or ₱507 million from December 31, 2022, mainly due to subsequent decline in Retained earnings from ₱6,611 million in 2022 to ₱4,430 million as of end of reporting period due to lower net income after tax this year. This was offset by the already discussed increase in revaluation in land.

Operating Activities

Net cash provided by operating activities amounted to ₱3,699 million in 2023. This stemmed from income before income tax of ₱4,177 million, adjusted mainly for Program rights usage of ₱1,191 million, Depreciation expense of ₱821 million, Pension expense of ₱701 million, Contribution to retirement plan assets of ₱282 million, Interest expense and financing charges equivalent to ₱131 million, Amortization of software costs of ₱41 million, Gain on sale of property and equipment of ₱40 million, and Interest income amounting to ₱34 million, apart from the changes in working capital. The primary component of the changes in working capital included the ₱403 million increase in Trade and other receivables due to less collections made during the covering period as compared to pay-before-broadcast payments during the election year of 2022, coupled by the ₱131 million decrease in Other long-term benefits.

Investing Activities

Net cash used in investing activities accumulated to ₱1,170 million, coming primarily from the ₱1,105 million additions to Property and equipment. There were also ₱50 million and ₱49 million increase in Financial assets at fair value through other comprehensive income and Other noncurrent assets, respectively. These were partly offset by the ₱48 million proceeds from property sales.

Financing Activities

Net cash used in financing activities measured at ₱4,008 million basically due to payment of dividends and loans amounting to ₱5,360 million and ₱2,027 million, respectively. These were partly offset by Company's availment of short-term loans which amounted to ₱3,527 million during the reporting year.

KEY VARIABLE AND OTHER QUALITATIVE OR QUANTITATIVE FACTORS

- i. Trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity.

As of December 31, 2025, there were no known trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity.

- ii. Events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration or an obligation.

As of December 31, 2025, there were no events which may trigger a direct or contingent financial obligation that is material to the Company.

- iii. Material off-balance-sheet transactions, arrangements, obligations (including contingent obligations), and other relations of the company with unconsolidated entities or other persons created during the reporting period.

There were no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relations of the company with unconsolidated entities or other persons created during the reporting period.

- iv. Material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures.

For 2026, the parent company has allotted ₱236 million for capital expenditures. This will be financed by internally-generated funds.

- v. Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations.

GMA Network's results of operations depend largely on the ability to sell airtime for advertising. The Company's business may be affected by the general condition of the economy of the Philippines.

- vi. Significant elements of income or loss that did not arise from the Company's continuing operations.

As of December 31, 2025, there were no significant elements of income or loss that did arise from the issuer's continuing operations.

- vii. Causes for Material Changes in the Financial Statements

Balance Sheet (December 31, 2025 vs. December 31, 2024)

- Cash and cash equivalents of ₱1,461 million dropped by ₱685 million or 32% from 2024 balance of ₱2,146 million. This primarily resulted from lower cash flow generated from operations than the cash flow used in financing (payments of loans and interest) and investing (payments of dividends).
- Program and other rights decreased to ₱2,152 million as of December 31, 2025, ₱184 million lower from ₱2,336 million due to lower acquisitions versus amortization/usage for the year.
- Inventories declined in between periods from ₱936 million in 2024 to ₱814 million in 2025 as a result of continuous sales of Merchandise inventory for the year 2025.
- Short-term loans also decreased to ₱1,477 million from ₱3,721 million from a year ago attributable to higher repayments during the year amounting to ₱4,044 million versus availments of only ₱1,800 million.

viii. Seasonal aspects that had a material effect on the financial condition or results of operations.

There are no seasonal aspects that had a material effect on the financial condition or results of operations.

In 1995, she laid the nation's first fiber in the Central Business District of Makati and developed the country's first ICT-ready 24x7x365 intelligent skyscraper - 45-story The Peak Tower and location of many Internet Firsts. In 2000, she founded PHCOLO INC. - the nation's pioneer neutral Telecommunications and Internet Service Provider interconnection site on four platforms: fiber, cable,

wireless and satellite; respected for its 99.9999% historical 23-year record, PEZA and ISO certifications.

Her successful and visionary efforts in the field of Information and Communications Technology have earned her the brand fearless *Godmother of the Philippine Internet*, a position in Computerworld's list of *Philippines Most Powerful in ICT* and *IT Executive of the Year* by the Philippine Cyber Press.

Judith was the first female Asian elected to an independent board seat at the Internet Corporation for Assigned Names and Numbers (ICANN), governance oversight body of the Public Internet domain name registry and registrar space, the only Asian female who has held this honor to this day. She continues to be a respected elder at APNIC, the Asia-Pacific Numbers Registry. APNIC oversees the continent's internet protocol numbers space. (Note: An IP address makes network traffic routing and termination possible.) APNIC is composed of 56 economies with a total population of 4.7 Billion people. It covers world's largest nations China and India to its smallest, Nauru.

In 2022, Judith joined the prestigious circle of Forbes Business Council USA. In the same year named by University of the Philippines School of Economics (UPSE) to its *100 Outstanding Alumni* anniversary publication *More Than*, one of only twenty-two from Philippine Industry for her internet foundational contribution and continuing international work.

Her international organization memberships include ICANN, APNIC, Pacific Telecommunications Council, IEEE, Young Presidents Organization (YPO) International and Washington DC-Baltimore, AFCEA, INSA, USGIF, Harvard HBS Alumni Association Washington DC, University Club Washington DC and the Washington National Cathedral Association. She has served on the Board of Trustees of the Management Association of the Philippines (MAP), Financial Executives Association of the Philippines (FINEX), YPO Gold Washington DC-Baltimore, among others.

Her philanthropic endeavors include the Asian Institute of Management's first Professorial Chair for Entrepreneurship and a lecture room at the University of the Philippines School of Economics, among others. When her schedule permits, she is Senior Lecturer for Entrepreneurship at the College of Business Administration University of the Philippines. She serves Harvard University as an alumna

interviewer of incoming freshman applicants within Washington DC, Maryland and Virginia USA.

Judith holds a Bachelor of Science degree in Business Economics from the University of the Philippines. She is an alumna of Harvard Business School (HBS), Harvard Kennedy School (HKS), University of Michigan (Ann Arbor) and Asian Institute of Management. She is a constant student, continuously sharpening her skills-base, which include SAP FICO & CRM, CISCO TCP/IP networking, CheckPoint firewall certifications. Inspired by John F. Kennedy's *"Leadership and learning are indispensable to each other,"* she continues to refresh knowledge through executive programs at alma maters HBS and HKS.

Judith continues to focus her learning and energy on possible stable and sustainable digital platforms aiming to someday weave productive economic content with geospatial and internet operational technologies - founded on national policy for grass roots prosperity - in midst of climate change.

She is currently the Senior Vice President for GMA Public Affairs and Executive Vice President for GMA Films, Inc. As GMA Public Affairs Head, Nessa Valdellon pivoted a department of documentary and news magazine producers to become creatives and producers of top-rated soaps, romantic comedies, drama anthologies and films. She produced over 30 programs under the GMA Public Affairs umbrella including the Philippines' highest rating television program Kapuso Mo, Jessica Soho, the blockbuster series Lolong, George Foster Peabody awardees Reel Time and I-Witness and New York Fest multi-medalist Reporter's Notebook - among many other titles. As a Program Manager of GMA, she pioneered in reality production with programs such as Wish Ko Lang, Extra Challenge, Imbestigador and Survivor Philippines – bringing these to the top of Philippine television ratings.

Valdellon won a YouTube innovation grant to produce the digital newscast Stand For Truth. She created the full programming grid for GMA News TV which she launched in 2011. While running the channel, she also co-wrote and produced award-winning social realist series Bayan Ko and Titser.

As a Producer of GMA Pictures, Valdellon led the very recent back to back wins of Metro Manila Film Festival Best Picture winners Firefly and Green Bones.

She has served as a New York Festivals grand jury member since 2019 and a juror for the Asian Academy Creative Awards since 2018.

Cheryl L. Ching-Sy, Filipino, 50 years old, is Officer-in-Charge of GMA Network's Entertainment Group, effective March 1, 2025. She is also the Vice President for Drama.

As the class valedictorian of her Bachelor of Arts in Communication batch from the University of the Philippines-Diliman, Ching-Sy has played a pivotal role in some of the Network's most successful drama programs.

As Vice President for Drama, she has overseen the production of the highly acclaimed "Encantadia Chronicles: Sang'gre", "Pulang Araw", the first Filipino drama to be archived on the moon, "Maria Clara at Ibarra", which won Bronze in the New York Film and TV Festivals, "Royal Blood", "Voltes V: Legacy", "Abot-Kamay na Pangarap," "Lilet Matias: Attorney-At-Law," and the thought-provoking advocacy film "Balota" that shines a light on the dedication of teachers to safeguarding the public's votes during elections.

Her rise through the ranks within GMA is marked by various accomplishments. As Assistant Vice President for Drama, Ching-Sy supervised the production of groundbreaking programs “My Husband’s Lover”, “The Half Sister,” “Encantadia,” “Someone to Watch Over Me,” “Ika-6 na Uto,” “First Yaya,” and the Philippine adaptation of the popular Korean series “Descendants of the Sun,” effectively reinforcing the Network’s nationwide leadership.

As Senior Program Manager, she was behind the Philippines’ first historical fiction epic series “Amaya,” and the highly successful and award-winning Kapuso drama programs “Dyesebel,” “Mari Mar,” and “Dapat Ka Bang Mahalin.”

Her appointment follows the retirement of Lilybeth G. Rasonable as Senior Vice President for Entertainment Group after more than two decades of service to the Network.

Maria Theresa E. de Mesa, Filipino, 49 years old, is the Assistant Corporate Secretary of the GMA Network, Inc. since 2021. She graduated cum laude with a Bachelor of Arts degree in Political Science from the University of the Philippines – Diliman. She earned her Juris Doctor degree in 2001 from the Ateneo de Manila University – School of Law. She was admitted to the Philippine bar in 2002.

Prior to her appointment as Assistant Corporate Secretary, she assisted Atty. Roberto Rafael V. Lucila as the Corporate Secretary and Compliance Officer from May 17, 2017 up to 2021, and prior to that Atty. Roberto O. Parel as Corporate Secretary, of GMA Network Inc.. She is the current appointed/elected Corporate Secretary of Assetlex Development Corporation Inc. (business development), Evonik (Philippines) Inc. (wholesale/distribution of industrial chemicals, fertilizers, etc.), GMA Network Films, Inc. (film and movie production), Citynet Network Marketing & Productions, Inc. (entertainment program production and marketing), and GMA Kapuso Foundation, Inc. (the corporate social responsibility arm of GMA Network, Inc.). She is also the current Assistant Corporate Secretary of Palawan Power Generation, Inc. and Catanduanes Power Generation, Inc. (energy).

Atty. de Mesa is presently a Junior Partner of Belo Gozon Elma Parel Asuncion & Lucila Law Offices. Her areas of practice include corporate and commercial law, special projects involving foreign investments, acquisitions, divestments, merger/de-merger, real estate and estate planning, litigation and corporate rehabilitation/insolvency. While practicing law, Atty. de Mesa also obtained further trainings in corporate governance and compliance, tax, securities, real estate brokerage, appraisal and consultancy, financial and estate planning, and environmental planning from 2014 to present.

INDEPENDENT AUDITOR'S REPORT

The Board of Directors and Stockholders
GMA Network, Inc. and Subsidiaries
GMA Network Center
Timog Avenue corner EDSA
Quezon City

Opinion

We have audited the consolidated financial statements of GMA Network, Inc. and Subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2025 and 2024, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2025, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2025 and 2024, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2025 in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (the Code of Ethics), as applicable to the audits of the financial statements of public interest entities, together with the ethical requirements that are relevant to the audits of financial statements of public interest entities in the Philippines. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Revenue Recognition

The Group derives a significant portion of its revenue from advertising, which represents 91% of the consolidated revenues for the year ended December 31, 2025. Proper recognition of revenue from advertising is significant to our audit given the large volume of transactions processed daily and the highly automated airtime revenue process with multiple information technology (IT) interfaces from initiation to reporting. Further, there are different rates applicable depending on the time slot when the advertisements are aired which are adjusted by discounts granted by the Group on a case-by-case basis as indicated in the telecast orders. Lastly, there are variations in the timing of billings which are made depending on when the advertisements are aired.

Refer to Note 22 of the consolidated financial statements for the disclosure on details about the Group's revenues.

Audit Response

We obtained an understanding of the Group's advertising revenue process and tested the relevant internal controls, including the revenue related IT controls. In addition, we selected samples of billing statements and performed re-computation. This was done by comparing the rates applied to the billing statements against the rates on the telecast orders and the billable airtime against the certificates of performance generated when the advertisements were aired. On a sampling basis, we also tested transactions taking place before and after year-end to check the timing of the recognition of the sample advertising revenues.

Adequacy of Allowance for Expected Credit Losses on Trade Receivables

The Group applies the simplified approach in calculating expected credit losses (ECL) on trade receivables. Under this approach, the Group establishes a provision matrix that is based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment. Allowance for ECL and the provision for ECL as of and for the year ended December 31, 2025 amounted to ₱1,048.00 million and ₱128.32 million, respectively. The use of the ECL model is significant to our audit as it involves the exercise of significant management judgment. Key areas of judgment include: segmenting the Group's credit risk exposures; defining default; determining assumptions to be used in the ECL model such as timing and amounts of expected net recoveries from defaulted accounts, and incorporating forward-looking information (called overlays), in calculating ECL.

The disclosures in relation to allowance for credit losses using the ECL model are included in Notes 4 and 7 to the consolidated financial statements.

Audit response

We evaluated the Group's methodologies and models used which included whether these were made in accordance with PFRS 9, *Financial Instruments*.

We (a) assessed the Group's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics; (b) tested the definition of default against historical analysis of accounts and credit risk management policies and practices in place, (c) tested historical loss rates by inspecting historical recoveries and write-offs; (d) compared the classification of outstanding exposures to their corresponding aging buckets; and (e) evaluated the forward-looking information used for overlay using publicly available information and our understanding of the Group's receivable portfolios and industry practices..

On a sample basis, we tested the completeness and accuracy of the underlying data used in the ECL calculation and recalculated impairment provisions.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2025 but does not include the consolidated financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2025 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Company as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

GMA NETWORK, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

GMA Network, Inc. (GNI or the Parent Company) and its subsidiaries (collectively referred to as “the Group”) are incorporated in the Philippines. The Group is primarily involved in the business of radio and television broadcasting. The Group is also involved in film production and other information and entertainment-related businesses. The Parent Company was registered with the Philippine Securities and Exchange Commission (SEC) on June 14, 1950. On July 20, 1995, the Board of Directors (BOD) approved the extension of the corporate term of the Parent Company for another 50 years from June 14, 2000. In 1997, the SEC approved the said extension.

The Parent Company’s shares of stock are publicly listed and traded in the Philippine Stock Exchange.

The registered office address of the Parent Company is GMA Network Center, Timog Avenue corner EDSA, Quezon City.

The Parent Company is a holder of a legislative franchise to construct, install, operate and maintain, for commercial purposes and in the public interest, radio and television broadcasting stations in the Philippines. The Parent Company is required to make closed captioning available for its programs to assist in the functions of public information and education.

On December 7, 2016, House Bill No. 4631, which seeks to renew the Parent Company’s franchise, was filed. The key provisions of the franchise renewal under House Bill No. 4631 are as follows:

1. Allows continued broadcast operations of the Parent Company, maintenance of its radio and TV stations in the Philippines and its expansion, including digital television system;
2. Provides another franchise term of twenty-five (25) years;
3. Requires the grantee to provide government adequate public service time to enable it to reach the population on important public issues and assist in the functions of public information and education;
4. Prohibits the grantee from leasing, transferring, selling nor assigning the franchise or controlling interest thereof without the prior approval of the Congress of the Philippines; and
5. Requires the grantee to submit an annual report to the Congress of the Philippines on its compliance with the terms and conditions of the franchise and its operation on or before April 30 of every year during the term of the franchise.

On March 23, 2017, House Bill 4631 became an Enrolled Bill (the “Enrolled Bill”) and was endorsed to the Office of the President for his approval. On April 21, 2017, President Rodrigo Duterte signed Republic Act No. 10925 which grants the renewal of the legislative franchise of GMA for another 25 years.

The accompanying consolidated financial statements of the Group were approved and authorized for issuance by the BOD on March 25, 2026.

2. **Basis of Preparation and Consolidation, Statement of Compliance and Changes in Accounting Policies and Disclosures**

Basis of Preparation

The consolidated financial statements of the Group have been prepared on a historical cost basis, except for financial assets at fair value through other comprehensive income (FVOCI) and land at revalued amounts, which are measured at fair value. The consolidated financial statements are presented in Philippine peso, which is the Parent Company's functional and presentation currency. All values are rounded to the nearest peso, except when otherwise indicated.

Statement of Compliance

The Group's consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards as issued by the Philippine Financial and Sustainability Reporting Standards Council.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at December 31, 2025 and 2024 and for each of the three years in the period ended December 31, 2025.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Right arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

NCI represents the equity interest in RGMA Network, Inc. (RGMA Network), a subsidiary incorporated in the Philippines with principal place of business at GMA Network Center, Timog Avenue corner EDSA Quezon City. NCI represent the portion of profit or loss and net assets not held by the Group and are presented separately in the consolidated statements of comprehensive income and within equity section in the consolidated statements of financial position, separately from equity attributable to equity holders of the parent.

In 2023, RGMA declared and paid dividends to NCI amounting to ₱17.85 million.

As of December 31, 2025 and 2024, there are no material NCI.

The consolidated financial statements include the accounts of the Parent Company and the following subsidiaries as at December 31, 2025 and 2024:

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective in 2025. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the financial statements of the Group.

Effective beginning on or after January 1, 2025

■ Amendments to PAS 21, *Lack of exchangeability*

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

The amendments are effective for annual reporting periods beginning on or after January 1, 2025. Earlier adoption is permitted and that fact must be disclosed. When applying the amendments, an entity cannot restate comparative information.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. The Group intends to adopt the following pronouncements when they become effective. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements will have a significant impact on its financial statements.

Effective beginning on or after January 1, 2026

- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*

The amendments clarify that a financial liability is derecognized on the 'settlement date', i.e., when the related obligation is discharged, cancelled, expires or the liability otherwise qualifies for derecognition. They also introduce an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system before settlement date if certain conditions are met.

The amendments also clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features. Furthermore, the amendments clarify the treatment of non-recourse assets and contractually linked instruments.

- Amendments to Illustrative Examples on PFRS 7, PFRS 18, PAS 1, PAS 8, PAS 26 and PAS 37, *Disclosures about Uncertainties in the Financial Statements*

- Amendments to PFRS 9 and PFRS 7, *Contracts Referencing Nature-dependent Electricity*

- Annual Improvements to PFRS Accounting Standards—Volume 11

- Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
- Amendments to PFRS 7, *Gain or Loss on Derecognition*
- Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities and Transaction Price*
- Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
- Amendments to PAS 7, *Cost Method*

Effective beginning on or after January 1, 2027

- PFRS 18, *Presentation and Disclosure in Financial Statements*

The standard replaces PAS 1, *Presentation of Financial Statements*, and responds to investors' demand for better information about companies' financial performance. The new requirements include:

- Required totals, subtotals and new categories in the statement of profit or loss
- Disclosure of management-defined performance measures
- Guidance on aggregation and disaggregation

The new standard will have an impact on the presentation of accounts in the consolidated statements of income but will not have an impact on the recognition and measurement of financial statement accounts.

- PFRS 17, *Insurance Contracts*
- PFRS 19, *Subsidiaries without Public Accountability*
- Amendments to PAS 21, *Translation to a Hyperinflationary Presentation Currency*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the FSRSC deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

3. Material Accounting Policy Information

Fair Value Measurement

The Group measures financial instruments at fair value at each reporting date. Fair value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed, are summarized in the following notes:

- Disclosures for significant estimates and assumptions, see Note 4
- Quantitative disclosures of fair value measurement hierarchy, see Note 32
- Land, see Note 14
- Investment properties, see Note 15
- Financial instruments (including those carried at amortized cost), see Note 32

Fair value is the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Financial Instruments

A financial instrument is any contract that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition and Measurement. Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, FVOCI, and fair value through profit or loss (FVPL).

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under PFRS 15, *Revenue from Contracts with Customers*.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest' (SPPI) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Subsequent Measurement. For purposes of subsequent measurement, financial assets are classified in four categories:

- financial assets at amortized cost (debt instruments)
- financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- financial assets at FVPL

The Group does not have debt instruments at FVOCI and financial assets at FVPL as at December 31, 2025 and 2024.

Financial Assets at Amortized Cost (Debt Instruments). The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in the consolidated statement of comprehensive income when the asset is derecognized, modified or impaired.

The Group's financial assets at amortized cost includes cash and cash equivalents, trade and other receivables and refundable deposits (included under "Other noncurrent assets" account in the consolidated statement of financial position) as at December 31, 2025 and 2024 (see Notes 6, 7, 16 and 31).

Financial Assets Designated at FVOCI (Equity Instruments). Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation*, and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as "Dividend income" included under "Others - Net" account in the consolidated statement of comprehensive income when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in Other Comprehensive Income (OCI). Equity instruments designated at FVOCI are not subject to impairment assessment.

The Group elected to classify irrevocably under this category its listed and non-listed equity instruments and investment in quoted club shares as at December 31, 2025 and 2024 (see Notes 11 and 31).

Derecognition of Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or

- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of Financial Assets

The Group recognizes an allowance for ECLs for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other financial assets such as due from related parties and certain advances to joint venture, the Group applies a general approach which measures ECL on either a 12-month or lifetime basis depending on whether a significant increase in credit risks has occurred since initial recognition or whether an asset is considered to be credit-impaired, adjusted for the effects of collateral, forward-looking factors and time value of money.

For cash and cash equivalents, the Group applies the low credit risk simplification. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the external credit rating of the debt instrument or comparable instruments.

The Group, in general, considers a financial asset in default when contractual payments are 360 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off, in whole or in part, when the asset is considered uncollectible, the Group has exhausted all practical recovery efforts and has concluded that it has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

Financial Liabilities

Initial Recognition and Measurement. Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group has not designated any financial liability as at FVPL as at December 31, 2025 and 2024.

Subsequent Measurement. The measurement of financial liabilities depends on their classification, as described below:

Loans and Borrowings. After initial recognition, interest-bearing loans and borrowings and other payables are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as “Interest expense” in the consolidated statement of comprehensive income.

This category generally applies to trade payables and other current liabilities (excluding payable to government agencies, customers’ deposits and contract liabilities), short-term loans, obligations for program and other rights, dividends payable and lease liabilities (see Notes 17, 18, 19, 20, 28 and 31).

Derecognition of Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statement of comprehensive income.

Program and Other Rights

Program and other rights are stated at cost less amortization and impairment in value. The estimated useful lives and the amortization method used depend on the manner and pattern of usage of the acquired rights. The cost of program and other rights with multiple number of runs within a specified term is amortized using straight line method up to the date of expiry or upon full airing of the acquired rights, whichever is earlier. The cost of program and other rights with indefinite lives are amortized using straight line method over 10 years.

For series of rights acquired, the cost is charged to profit or loss as each series is aired on a per episode basis.

For rights intended for airing over the international channels, the cost is amortized on a straight-line basis over the number of years indicated in the contract.

Amortization expense is shown as “Program and other rights usage” included under “Production costs” account in the consolidated statement of comprehensive income.

Prepaid Production Costs

Prepaid production costs, included under “Prepaid expenses and other current assets” account in the consolidated statement of financial position, represent costs paid in advance prior to the airing of the programs or episodes. These costs include talent fees of artists and production staff and other costs directly attributable to production of programs. These are charged to expense under “Production costs” account in the consolidated statement of comprehensive income upon airing of the related program or episodes. Costs related to previously taped episodes determined not to be aired are charged to expense.

Inventories

Merchandise inventory and materials and supplies inventory is stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. Net realizable value of inventories that are for sale is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale. Net realizable value of inventories not held for sale is the current replacement cost.

Tax Credits

Tax credits, measured at cost less any impairment in value, represent claims from the government arising from airing of government commercials and advertisements availed under Presidential Decree (PD) No. 1362. Pursuant to PD No. 1362, these will be collected in the form of tax credits which the Group can use in paying for import duties and taxes on imported broadcasting related equipment. The tax credits cannot be used to pay for any other tax obligation to the government.

As at December 31, 2025 and 2024, the Group’s tax credits are classified as current under “Prepaid expenses and other current assets” account in the consolidated statement of financial position.

Advances to Suppliers

Advances to suppliers, included under “Prepaid expenses and other current assets” account in the consolidated statement of financial position, are measured at cost and are noninterest-bearing and are generally applied to acquisition of inventories, programs and other rights, availments of services and others.

Property and Equipment

Property and equipment, except for land, are stated at cost, net of accumulated depreciation and amortization and impairment losses, if any. Such cost includes the cost of replacing part of the property and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property and equipment are required to be replaced at intervals, the Group recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. All other repair and maintenance costs are recognized in profit or loss as incurred.

Land is initially measured at cost. After initial recognition, land is carried at revalued amounts, being its fair value at the date of the revaluation, less any subsequent impairment losses. Valuations are generally performed every three to five years or more frequently as deemed necessary to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

Any revaluation surplus is recorded in other comprehensive income and hence, credited to the “Revaluation increment on land - net of tax” account under equity, except to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit or loss, in which case, the increase is recognized in profit or loss. A revaluation deficit is recognized in profit or loss, except to the extent that it offsets an existing surplus on the same asset recognized in the “Revaluation increment on land - net of tax” account.

Depreciation and amortization are computed on a straight-line basis over the following estimated useful lives of the assets:

Buildings, towers and improvements	11-20 years
Antenna and transmitter systems and broadcast equipment	5-10 years
Communication and mechanical equipment	3-5 years
Transportation equipment	4-5 years
Furniture, fixtures and equipment	5 years

An item of property and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss when the asset is derecognized.

The assets’ residual values, useful lives and methods of depreciation and amortization are reviewed at each financial year-end and adjusted prospectively, if appropriate.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation and amortization is credited or charged to current operations.

Construction in progress is stated at cost. This includes cost of construction, equipment under installation and other direct costs. Construction in progress is not depreciated until such time as the relevant assets are completed and put into operational use.

Investment Properties

Investment properties consist of real estate held for capital appreciation and rental.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties, except land, are measured at cost less accumulated depreciation and amortization and impairment in value. Land is stated at cost less any impairment in value.

Depreciation and amortization are computed using the straight-line method over 11-20 years.

The remaining useful lives and depreciation and amortization method are reviewed and adjusted, if appropriate, at each financial year-end.

Investment properties are derecognized when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in profit or loss in the period of derecognition.

Investment in Artworks

Investment in artworks, included under “Other noncurrent assets” account in the consolidated statement of financial position, is stated at cost less any impairment in value.

Software Costs

Costs incurred in the acquisition and customization of new software, included under “Other noncurrent assets” account in the consolidated statement of financial position, are capitalized and amortized on a straight-line basis over three to ten years.

Impairment of Nonfinancial Assets

The carrying values of land at revalued amounts, program and other rights, prepaid production costs, deferred production costs, tax credits, investments and advances, property and equipment, right-of-use assets, investment properties, software costs and investment in artworks are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If any such indication exists, and if the carrying value exceeds the estimated recoverable amount, the assets are considered impaired and are written down to their recoverable amount. The recoverable amount of these nonfinancial assets is the greater of an asset’s or cash-generating unit’s fair value less cost to sell or value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm’s length transaction less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. Impairment losses, if any, are recognized in profit or loss in the consolidated statement of comprehensive income in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting period as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If any such indication exists, the recoverable amount is estimated. A previously recognized impairment loss, except for land at revalued amount where the revaluation is taken to OCI, is reversed only if there has been a change in the estimates used to determine the asset’s recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss. After such a reversal, the depreciation and amortization charges are adjusted in future periods to allocate the asset’s revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. For land at revalued amounts, the reversal of impairment is also recognized in OCI up to the amount of any previous revaluation.

In the case of investments in associate and interests in joint ventures, after application of the equity method, the Group determines whether it is necessary to recognize any additional impairment loss with respect to the Group’s investments in associate and interests in joint ventures. The Group determines at each reporting period whether there is any objective evidence that the investments in associate and interests in joint ventures are impaired. If this is the case, the Group calculates the amount of impairment as being the difference between the recoverable amount of investments in associate and interests in joint ventures, and the acquisition cost and recognizes the amount in the consolidated statement of comprehensive income.

Investments in an Associate and Joint Ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

The Group's investments in its associate and joint ventures are accounted for using the equity method.

Equity

Capital stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax. Proceeds and/or fair value of considerations received in excess of par value are recognized as additional paid-in capital.

Retained earnings include all current and prior period results of operations as reported in the consolidated statement of comprehensive income, net of any dividend declaration, adjusted for the effects of changes in accounting policies as may be required by PFRS Accounting Standards' transitional provisions.

Revenue Recognition

a. PFRS 15, *Revenue from Contracts with Customers*

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Revenue is recognized when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognized is the amount allocated to the satisfied performance obligation.

The following specific recognition criteria must also be met before revenue is recognized:

Advertising Revenue. Revenue is recognized in the period the advertisements are aired.

Payments received for advertisements before broadcast (pay before broadcast) are recognized as income on the dates the advertisements are aired. Prior to liquidation, these are classified as unearned revenue under "Contract liabilities" under "Trade payables and other current liabilities" account, in the consolidated statement of financial position.

Goods received in exchange for airtime usage pursuant to exchange deal contracts executed between the Group and its customers are recorded at fair market values of assets received. Fair market value is the current market price.

Tax credits on aggregate airtime credits from government sales availed of under PD No. 1362 are recognized as revenue when there is reasonable certainty that these can be used to pay duties and taxes on imported broadcasting related equipment.

Subscription Revenue. Subscription fees are recognized over the subscription period in accordance with the terms of the subscription agreements.

Sale of Goods. Sale of goods pertain to sale of set-top boxes, digital TV mobile receivers and other merchandise. Revenue is recognized at a point in time when delivery has taken place and transfer of control has been completed. These are stated net of sales discounts.

Revenue from Distribution and Content Provisioning. Revenue is recognized upon the license start date or delivery of the licensed content, whichever comes later.

Production Revenue. Production revenue is recognized at a point in time when project-related services are rendered.

Commission from Artists. Revenue is recognized as revenue at a point in time on an accrual basis in accordance with the terms of the related marketing agreements.

b. Revenue Recognition Outside the Scope of PFRS 15

Rental Income. Revenue from lease of property and equipment and investment properties is accounted for on a straight-line basis over the lease term.

Interest Income. Revenue is recognized as the interest accrues, taking into account the effective yield on the asset.

Equity in Net Earnings (Losses) of Joint Ventures. The Group recognizes its share in the net income or loss of joint ventures proportionate to the equity in the economic shares of such joint ventures, in accordance with the equity method.

Other Income. Other income is recognized when there is an incidental economic benefit, other than the usual business operations, that will flow to the Group through an increase in asset or reduction in liability that can be measured reliably.

Contract Balances

Trade Receivables. A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to the accounting policies of Financial Instruments section.

Contract Assets. A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Contract Liabilities. A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due, whichever is earlier. Contract liabilities are recognized as revenue when the Group performs under the contract.

Incremental Costs to Obtain a Contract

The Group pays sales commissions to its account executives for each contract that they obtain for advertising agreements with customers. The Group has elected to apply the optional practical expedient for costs to obtain a contract which allows the Group to immediately expense sales commissions (presented as part of “Marketing expense” under “General and administrative expenses” account in the consolidated statement of comprehensive income) because the amortization period of the asset that the Group otherwise would have used is less than one year.

Pension and Other Long-Term Employee Benefits

The Parent Company has a funded, noncontributory defined benefit retirement plan covering permanent employees. Other entities are covered by Republic Act (R.A.) 7641, otherwise known as “The Philippine Retirement Law”, which provides for qualified employees to receive an amount equivalent to a certain percentage of monthly salary at normal retirement age. In addition, the Group has agreed to pay the cash equivalent of the accumulated unused vacation leave of the employees upon separation from the Group.

The cost of providing benefits under the defined benefit plans is determined using the projected unit credit method.

Defined Benefit Plans. The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling.

The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the statement of financial position with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognizes the following changes in the net defined benefit obligation under “Production costs” and “General and administrative expenses” accounts in consolidated statements of comprehensive income (by function):

- Service costs comprising current service costs, past service costs, gains and losses on curtailments and non-routine settlements.
- Net interest expense or income

Plan assets are assets that are held by a long-term employee benefit fund. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Leases

Leases. The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as Lessee. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

- *Right-of-use Assets.* The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received and estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term as follow:

Land	2 to 25 years
Buildings, studio and office spaces	2 to 15 years

Right-of-use assets are subject to impairment.

- *Lease Liabilities.* At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

- *Short-term Leases.* The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date or initial application of PFRS 16 and do not contain a purchase option). Lease payments on short-term leases are recognized as expense on a straight-line basis over the lease term.

Group as Lessor. Leases where the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Rental income from operating leases are recognized as income in the consolidated statement of comprehensive income on a straight-line basis over the lease term. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Foreign Currency-denominated Transactions

Transactions in foreign currencies are initially recorded in the functional currency exchange rate at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing exchange rate at financial reporting period. All differences are taken to profit or loss in the consolidated statements of comprehensive income. Nonmonetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Nonmonetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. For income tax purposes, foreign exchange gains and losses are treated as taxable income or deductible expenses when realized.

Taxes

Current Income Tax. Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted at reporting period.

Current income tax relating to items recognized directly in equity is recognized in equity and not in profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation, and establishes provisions where appropriate.

Deferred Tax. Deferred tax is provided using the liability method on temporary differences at reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting period.

Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of excess minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carryforward benefits of excess MCIT over RCIT and unused NOLCO can be utilized, except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting period and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates and tax laws to be enacted or substantially enacted at the reporting period.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Creditable Withholding Taxes. Creditable withholding taxes represent amounts withheld by the Group's customers and is deducted from the Group's income tax payable.

Value-added Tax (VAT). Revenue, expenses and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the consolidated statement of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the consolidated statement of financial position to the extent of the recoverable amount.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of “Prepaid expenses and other current assets” or “Trade payables and other current liabilities” accounts in the consolidated statement of financial position.

Earnings Per Share (EPS)

Basic EPS is computed by dividing the net income for the year attributable to the equity holders of the Parent Company, net of income attributable to preferred shares, by the weighted average number of common shares outstanding during the year, after considering the retroactive adjustments for any stock dividends declared, if any.

Diluted EPS is calculated by dividing the net income for the year attributable to the equity holders of the Parent Company (inclusive of income attributable to preferred shares) by the weighted average number of common shares outstanding during the year, plus the weighted average number of common shares that would be issued upon conversion of all dilutive potential common shares.

Segment Reporting

For management purposes, the Group’s operating businesses are organized and managed separately into television and radio airtime, international subscriptions and other business activities. Such business segments are the basis upon which the Group reports its primary segment information. The Group considers television and radio operations as the major business segment. The Group operates in two geographical areas where it derives its revenue. Financial information on business segments is presented in Note 5 to the consolidated financial statements.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated statement of comprehensive income net of any reimbursement.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements when an inflow of economic benefits is probable.

Events after Reporting Period

Post year-end events that provide additional information about the Group’s position at the reporting period (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect amounts reported in the consolidated financial statements and related notes at the end of the reporting period. However, uncertainty about these judgments, estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the consolidated financial statements.

Consolidation of Entities in which the Group holds less than Majority of Voting Rights. The Group considers that it controls RGMA Network even though it owns less than 50% of the voting rights. This is because the Group is the single largest shareholder of RGMA Network with a 49% equity interest. The remaining 51% of the equity shares in RGMA Network are owned by several parties. Since September 27, 1995, which is the date of incorporation of RGMA Network, there is no history of the other shareholders collaborating to exercise their votes collectively or to outvote the Group. The carrying amount of NCI as at December 31, 2025 and 2024 are ₱46.03 million and ₱50.80 million, respectively.

Operating Leases - Group as Lessor. The Group has entered into various lease agreements as lessor. The Group had determined that the risks and rewards of ownership of the underlying property were retained by the Group. Accordingly, the leases are classified as an operating lease.

Total rental income amounted to ₱7.79 million, ₱7.15 million, and ₱7.73 million in 2025, 2024 and 2023, respectively (see Note 26).

Allowance for ECL. The following information explains the inputs, assumptions and techniques used by the Group in estimating ECL for trade receivables:

- Definition of default for trade receivables

The Group defines a trade receivable as in default, when it meets one or more of the following criteria:

- The counterparty is experiencing financial difficulty or is insolvent
- The receivable is more than 360 days past due. The determination of the period is based on the Group's practice and agreement with their customers within the industry.

- Grouping of instruments for losses measured on collective basis

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a segmentation are homogeneous. The Group segmented its receivables based on the type of customer (e.g., corporate and individuals).

- Incorporation of forward-looking information

The Group considers a range of relevant forward-looking macro-economic assumptions for the determination of unbiased general industry adjustments that support the calculation of ECLs. A broad range of forward-looking information are considered as economic inputs such as the gross domestic product, inflation rate, unemployment rates and other economic indicators.

The macroeconomic factors are aligned with information used by the Group for other purposes such as strategic planning and budgeting.

The Group identifies and documents key drivers of credit risk and credit losses of each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

Predicted relationship between the key macro-economic indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data over the past 5 years. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

Contingencies. The Group is currently involved in various claims and legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with legal counsel handling the defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material adverse effect on the Group's financial position.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Estimating the Incremental Borrowing Rate. The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the counterparty's stand-alone credit rating).

The Group's lease liabilities amounted to ₱130.25 million and ₱115.62 million as at December 31, 2025 and 2024, respectively (see Note 28).

Estimating Allowance for ECL. The Group uses a simplified approach for calculating ECL on trade receivables through the use of provision matrix to calculate ECLs. The provision rates are based on days past due for groupings of customer segments that have similar loss patterns (i.e., by customer type).

The provision matrix is initially based on the Group's historical observed default rates. The Group then calibrates the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (e.g., gross domestic product, inflation rate, unemployment rate) are expected to deteriorate over the next year which can lead to an increased number of defaults in the Group's operating segments, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking factors specific to the debtors and the economic environment are updated to consider the impact of the coronavirus pandemic.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

Provision for ECL amounted to ₱128.32 million, ₱6.28 million and ₱4.74 million in 2025, 2024 and 2023, respectively (see Notes 7 and 24). The allowance for ECL amounted to ₱1,048.00 million and ₱919.68 million as at December 31, 2025 and 2024, respectively. The carrying amounts of trade and other receivables amounted to ₱6,392.19 million and ₱6,796.66 million as at December 31, 2025 and 2024, respectively (see Note 7).

Classification and Amortization of Program and Other Rights. Portions of program and other rights are classified as current and noncurrent assets. Current portion represents those expected to be aired any time within its normal operating cycle, whereas the noncurrent portion represents those without definite expiration.

The Group estimates the amortization of program and other rights with finite lives using straight line method up to the date of expiry and those with no definite expiration date of up to ten years, which is the manner and pattern of usage of the acquired rights. In addition, estimation of the amortization of program and other rights is based on the Group's experience with such rights. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances.

Program and other rights usage amounted to ₱1,355.73 million, ₱1,372.83 million and ₱1,191.48 million in 2025, 2024 and 2023, respectively (see Note 23). Program and other rights, net of accumulated impairment in value of ₱2.70 million, amounted to ₱2,152.44 million and ₱2,336.37 million as at December 31, 2025 and 2024, respectively (see Note 8).

Estimating Allowance for Inventory Losses. The Group provides allowance for inventory losses whenever the net realizable value becomes lower than cost due to damage, physical deterioration, obsolescence, changes in price levels or other causes. The allowance account is reviewed periodically to reflect the accurate valuation of the inventories.

The carrying value of merchandise inventory and materials and supplies inventory in the consolidated statement of financial position amounted to ₱814.35 million and ₱935.92 million as at December 31, 2025 and 2024, respectively (see Note 9). There were no provisions for inventory losses in 2025, 2024 and 2023.

Estimating Useful Lives of Property and Equipment, Software Costs and Investment Properties. The Group estimates the useful lives of property and equipment, software costs and investment properties based on the period over which the assets are expected to be available for use. The estimated useful lives of property and equipment, software costs and investment properties are reviewed periodically

and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. In addition, estimation of the useful lives of property and equipment, software costs and investment properties are based on collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of property and equipment, software costs and investment properties would increase the recorded general and administrative expenses and decrease noncurrent assets.

There has been no change in the Group's estimate of useful lives of its property and equipment, software costs and investment properties in 2025 and 2024.

Total depreciation and amortization expense for the years ended December 31, 2025, 2024 and 2023, amounted to ₱876.73 million, ₱901.05 million and ₱861.48 million, respectively (see Notes 13, 15, 16, 23, 24, and 28).

Revaluation of Land. The Group engages an accredited appraiser to determine the fair value of the land used in operations. Fair value is determined by reference to market-based evidence adjusted based on certain elements of comparison. The fair value amount would differ if the Group made different judgments and estimates or utilized a different basis for determining fair value.

Valuations from an accredited appraiser are generally performed every three to five years or more frequently as deemed necessary to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

Total additional revaluation increment, net of tax, recognized in 2025, 2024 and 2023 amounted ₱434.29 million, nil and ₱1,645.04 million, respectively. The revalued amount of land, which is classified under "Property and equipment" account in the statements of financial position, amounted to ₱9,392.33 million and ₱8,813.28 million as at December 31, 2025 and 2024, respectively (see Notes 14 and 32). In 2025 and 2023, the Group assessed those certain parcels of land at revalued amounts have significant movements in its current carrying values and obtained updated appraisals as at December 31, 2025 and 2023. For the land that were not appraised as of December 31, 2025, 2024 and 2023, the Group assessed that carrying values approximates fair values as of reporting dates.

Impairment of Nonfinancial Assets. For prepaid production costs, tax credits, investments and advances, property and equipment, right-of-use assets, investment properties, program and other rights, investment in artworks, deferred production costs and software costs, impairment testing is performed whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

The factors that the Group considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business;
- significant negative industry or economic trends; and
- obsolescence or physical damage of an asset.

The Group recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of fair value less costs to sell or asset's value in use. Recoverable amounts are estimated for individual assets or, if it is not possible, for the CGU to which the asset belongs.

As at December 31, 2025 and 2024, the Group did not identify any indicator of impairment on its nonfinancial assets, hence, no impairment tests were carried out.

The carrying values of nonfinancial assets as at December 31 follow:

	2025	2024
Land at revalued amounts (Note 14)	₱9,392,333,955	₱8,813,281,439
Property and equipment - at cost (see Note 13)	2,969,765,662	3,502,202,674
Program and other rights (see Note 8)	2,152,441,529	2,336,373,202
Prepaid production costs (see Note 10)	344,356,644	643,256,742
Investments and advances (see Note 12)	167,651,596	170,426,515
Tax credits (see Note 10)	125,645,165	131,853,616
Right-of-use assets (see Note 28)	105,738,829	91,284,052
Investment properties (see Note 15)	29,384,113	30,841,564
Investment in artworks (see Note 16)	10,186,136	10,186,136
Software costs (see Note 16)	9,982,360	21,981,313
Deferred production costs (see Note 16)	1,706,914	1,586,384

Estimating Realizability of Deferred Tax Assets. The Group reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. The Group's assessment on the recognition of deferred tax assets on deductible temporary difference and carryforward benefits of NOLCO and excess MCIT over RCIT is based on the projected taxable income in the following periods.

Recognized deferred tax assets amounted to ₱1,947.82 million and ₱1,598.60 million as at December 31, 2025 and 2024, respectively, while unrecognized deferred tax assets amounted to ₱15.43 million and ₱11.90 million as at December 31, 2025 and 2024, respectively (see Note 29).

Pension Benefits. The determination of the Group's obligation and cost of pension benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 27 and include, among others, discount rate and salary increase rate. Due to the complexity of the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions.

Pension liability amounted to ₱6,034.06 million and ₱4,680.28 million as at December 31, 2025 and 2024, respectively (see Note 27).

Determination of Fair Value of Financial Assets at FVOCI. Financial assets at FVOCI are carried and disclosed at fair value. When the fair values cannot be derived from active markets, they are determined using a variety of valuation techniques, which include net asset value method for equity instruments whose net assets substantially consists of financial instruments measured at fair value or approximates their fair values. The inputs to these models is taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The fair value of financial assets at FVOCI are enumerated in Note 32.

Determination of Fair Value of Investment Properties. PFRS Accounting Standards requires disclosure of fair value of investment properties when measured at cost. The Group used the services of an independent professional appraiser in estimating the fair value of properties. The appraisers conducted an actual inspection of the property and considered the following in the study and analyses in arriving at the estimate of fair value: (a) extent, character and utility of the property; (b) sales and holding prices of similar properties; and (c) highest and best use of the property. The description of valuation techniques used and key inputs to fair valuation of investment properties are enumerated in Note 15 of the consolidated financial statements.

5. Segment Information

Business Segments

For management purposes, the Group is organized into business units based on its products and services and has three reportable segments, as follows:

- The television and radio segment, which engages in television and radio broadcasting activities and which generates revenue from sale of national and regional advertising time.
- The international subscription segment which engages in subscription arrangements with international cable companies.
- Other businesses which include movie production, consumer products and other services.

The Executive Committee, the chief operating decision maker, and Management monitor the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on net income or loss and is measured consistently with the net income or loss in the consolidated financial statements. On a consolidated basis, the Group's performance is evaluated based on consolidated net income for the year.

Geographical Segments

The Group operates in two major geographical segments - local and international. Local refers to revenues earned in the Philippines, the home country. Significant portion of the revenues earned locally pertain to television and radio airtime. International refers to revenues earned in United States and in other locations (which include Middle East, Europe, Australia, Canada, Guam, Singapore, Hongkong and Japan). The Group ties up with cable providers to bring local television programming outside the Philippines.

The Group's revenues are mostly generated in the Philippines, which is the Group's country of domicile.

Noncurrent assets consist of property and equipment, land at revalued amounts, investment properties and intangible assets which are all located in the Philippines.

The Group does not have a single external customer whose revenue accounts for 10% or more of the Group's revenues.

Inter-segment Transactions

Segment revenues, segment expenses and segment results include transfers among business segments and among geographical segments. The transfers are accounted for at competitive market prices charged to unrelated customers for similar services. Such transfers are eliminated upon consolidation.

Measurement Basis

The amount of segment assets and liabilities and segment profit or loss are based on measurement principles that are similar to those used in measuring the assets and liabilities and profit or loss in the consolidated financial statements, which is in accordance with PFRS Accounting Standards.

The associate and joint ventures are not listed in any public stock exchanges.

Mont-Aire

Mont-Aire ceased its commercial operations in 2009 and began its rental operations in 2024. Assets include real estate and parcels of land located at Tagaytay City, Cavite with an aggregate cost of ₱105.08 million and fair market value of ₱150.75 million, as determined by an accredited appraiser as at December 31, 2023 and June 3, 2019. Management believes that there are no events or changes in circumstances indicating a significant unfavorable change in the fair value of the abovementioned properties from the last appraisal made.

PEP

On April 16, 2007, the Group and Summit Publishing, Co. entered into a shareholder's agreement for the establishment of PEP. The joint venture was organized to design, conceptualize, operate and maintain websites that make available all kinds of show business, entertainment and celebrity information, video or pictures in the internet worldwide web or other forms of seamless communication.

The Group recognized its share in net losses of PEP amounting to ₱3.96 million, ₱1.56 million and ₱10.34 million in 2025, 2024 and 2023, respectively.

Gamespan

On March 22, 2012, the Group, through GNMI, executed a Shareholder's Agreement with Manila Jockey Club (MJC) for the establishment of Gamespan, a joint venture corporation. The joint venture was organized to operate and manage the hardware and software owned by MJC, set-up new media infrastructure for offering and taking bets in horse racing and other sports.

Gamespan has not started its commercial operations since its establishment. In 2014, the Group and MJC agreed to terminate its shareholder's agreement and to close Gamespan. As at December 31, 2025 and 2024, the joint venture is not yet operating since they have a pending registration with the Bureau of Internal Revenue (BIR). However, Gamespan is taking actions to amend their GIS and reactivate their dormant bank accounts. Since Gamespan has yet to start its operations, the Group did not recognize any share in net earnings in 2025, 2024 and 2023.

INQ7

Losses of INQ7 recognized under the equity method in excess of the Group's carrying value of investment were applied against its advances to the Parent Company thereby reducing both advances and investments to zero as at December 31, 2025 and 2024. INQ7 ceased operations in 2007. In 2013, INQ7 submitted a request to liquidate its assets to SEC. The liquidation is still ongoing as at December 31, 2025.

The Group believes that its investments in an associate and interests in joint ventures are not individually material.

Construction in progress pertains to costs incurred for installation of equipment, signal strengthening of transmitters nationwide and construction/improvement of studios and stations in the regions.

The Group leases out a portion of its property and equipment at cost. Total rental income recognized for the leased portion amounted to ₱2.40 million, ₱1.95 million and ₱2.86 million in 2025, 2024 and 2023, respectively (see Note 26).

The Group disposed various property and equipment in 2025, 2024 and 2023 resulting to the recognition of gain on sale amounting to ₱43.25 million, ₱19.90 million and ₱40.46 million, respectively (see Note 26).

As at December 31, 2025 and 2024, no property and equipment have been pledged as collateral or security for any of the Group's liabilities.

14. Land at Revalued Amounts

The movement of the land at revalued amount is shown below:

	2025			2024		
	Cost	Revaluation Increment	Total	Cost	Revaluation Increment	Total
At beginning of year	₱526,025,559	₱8,287,255,880	₱8,813,281,439	₱526,025,559	₱8,287,255,880	₱8,813,281,439
Additions during the year	—	579,052,516	579,052,516	—	—	—
At end of year	₱526,025,559	₱8,866,308,396	₱9,392,333,955	₱526,025,559	₱8,287,255,880	₱8,813,281,439

Revaluation increment recognized in 2025 and 2024 based on appraisal reports and management estimates amounted to ₱579.05 million and nil, respectively.

The fair value from the 2025 and 2023 appraisals were determined using the “Market Data Approach” as determined by independent professionally qualified appraisers and based on its highest and best use. The fair value represents the amount that would be received to sell the property in an orderly transaction between market participants at the date of valuation in accordance with International Valuation Standards. The fair value is categorized under Level 3 of the fair value hierarchy.

As of December 31, 2025 and 2024, the fair value of land is directly proportional to the asking price of the comparable land and adjusted according to the following considerations:

Significant unobservable input	
Asking price per square meter	₱1,500 to ₱361,690
Sales price adjustment	10%
Lot size adjustment	5% to 20%

Significant increase (decrease) in asking price per square meter would result to significantly higher (lower) fair value of the properties. Significant increase (decrease) in the sales price adjustment and lot size adjustment would result in a significantly lower (higher) fair value.

Management believes that the carrying value of land as of December 31, 2025 and 2024 approximates the fair values as at December 31, 2025 and 2024.

As at December 31, 2025 and 2024, no land has been pledged as collateral or security for any of the Group's liabilities and the Group has no restrictions on the realizability of its land and no contractual obligation to purchase, construct or develop land or for repairs, maintenance and enhancements.

Subscribed and issued	7,500,000,000	₱1,500,000,000

The cumulative preferred shares are of equal rank, preference and priority and are identical in all respect regardless of series. Preferred shares are participating at the rate of one fifth (1/5) of the dividends paid to common shares, the rate of which is adjusted proportionately by the Parent Company's BOD consequent to any stock split or stock dividend declaration affecting the common shares and preferred shares. Preferred shares are convertible at the option of the shareholders at the ratio of five preferred shares to one common share, based on par value.

Preferred shares enjoy priority over common shares in the distribution of assets of the Parent Company in the event of dissolution and liquidation, at such rates, terms and conditions as the BOD may determine. Each preferred share is entitled to one vote and shall have the same voting rights as the common shares.

The Parent Company's BOD may specify other terms and conditions, qualifications, restrictions and privileges of the preferred shares or series/classes thereof, insofar as such terms, conditions, qualifications, restrictions and privileges are not inconsistent with the articles of incorporation and any applicable law or regulation.

The following summarizes the information on the Parent Company's registration of securities with the SEC which was approved on June 20, 2007, as required by Revised Securities Regulation Code (SRC) Rule 68:

Securities	Authorized and issued shares	Issue/Offer Price
Initial public offering	91,346,000	₱8.50
Underlying common shares of PDRs	945,432,000	8.50
Over-allotment common shares	13,701,000	8.50
Common shares covering employee stock option plan	57,000,000	8.50

In prior years, the Parent Company has acquired 750,000 PDRs issued by GMA Holdings, Inc. at acquisition cost of ₱5.79 million. In as much as each PDR share grants the holder, upon payment of the exercise price and subject to certain other conditions, the delivery of one (1) Parent Company share or the sale and delivery of the proceeds of such sale of Parent Company share, such PDRs held by the Parent Company was being treated similar to a treasury share.

On October 4, 2021, the Parent Company's BOD approved to contribute its treasury common and preferred shares and PDRs to the Group's retirement plan. The contribution of the 3,645,000 treasury common shares and 492,816 treasury preferred shares was executed on December 31, 2022 at a transaction price of ₱13.90 per share and ₱2.77 per share, respectively. As the preferred shares are unlisted, the transaction price was based on the market price of the Parent Company's listed common shares on the transaction date, with the value of the treasury preferred shares computed based on the ratio of 1:5 preferred shares to common shares. The contribution of the 750,000 PDRs was executed on December 20, 2022 at a transaction price of ₱13.02 per share, which resulted to additional paid-in capital amounted to ₱27.52 million.

The total number of shareholders is 1,619 and 1,622 as at December 31, 2025 and 2024, respectively.

b. Retained Earnings

The Parent Company's BOD approved the declaration of the following cash dividends:

Year	Declaration Date	Record Date	Cash Dividend Per Share	Total Cash Dividend Declared
2025	March 31, 2025	April 29, 2025	₱0.50	₱2,432,346,000

The Parent Company's outstanding dividends payable amounted to ₱39.51 million and ₱36.49 million as at December 31, 2025 and 2024, respectively.

The balance of retained earnings includes Parent Company's accumulated equity in net earnings of subsidiaries and associates which are not currently available for dividend declaration until declared by the respective subsidiaries and associates. The retained earnings available for dividend declaration amounted to ₱2,223.17 million and ₱2,501.36 million as at December 31, 2025 and 2024, respectively.

On March 25, 2026, the Parent Company's BOD approved the declaration and distribution of cash dividends amounting to ₱0.40 per share totaling ₱1,945.88 million to all stockholders of record as at April 20, 2026 and will be paid starting May 15, 2026.

21. Related Party Disclosures

Parties are considered to be related if one party has the ability, directly and indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individual or corporate entities.

The Parent Company has an approval requirement such that material related party transactions (RPTs) shall be reviewed by the Audit and Risk Management Committee (the Committee) and submitted to the BOD for approval. Material RPTs are those transactions that meet the threshold value amounting to ten percent (10%) or higher of the Group's total consolidated assets based on its latest audited financial statements either individually, or in aggregate over a twelve (12)-month period with the same related party.

Outstanding balances at year-end are unsecured and settlement occurs in cash throughout the financial year. There have been no guarantees provided or received for any related party receivables or payables. For years ended December 31, 2025 and 2024, the Group has not recorded any impairment of receivables on amounts owed by the related parties. The assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

In the ordinary course of business, the Group transacts with associate, affiliates, joint venture and other related parties on advances, reimbursement of expenses, and future stock subscriptions.

The transactions and balances of accounts as at and for the years ended December 31, 2025 and 2024 with related parties are as follows:

Account Name and Category	Related Party	Year	Amount/ Volume of Transactions	Receivables (Payables)	Terms	Conditions

*Included in "Accrued expenses" under Trade payables and other current liabilities (see Note 17).

Pension Benefits

The Group operates non-contributory defined benefit retirement plans.

Under the existing regulatory framework, R.A. 7641 requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

Pension benefits recognized in the statements of comprehensive income are as follows (see Note 25):

	2025	2024	2023
Current service cost	₱515,074,796	₱378,786,232	₱357,469,890

Balance at end of year	₱1,710,034,409	₱1,218,852,783	₱1,267,900,455

Remeasurement gain (loss) on retirement plans amounting to (₱1,075.71 million), ₱259.15 million, and ₱19.21 million in 2025, 2024 and 2023, respectively, is reported under the consolidated statements of comprehensive income, net of deferred tax.

At each reporting period, the Group determines its contribution based on the performance of its retirement fund.

The Group expects to contribute ₱1,000.00 million to the fund in 2026.

The funds are managed and supervised by trustee banks for the benefits of the members. However, the general administration of the funds is vested in a Retirement Committee.

The following table presents the carrying amounts and estimated fair values of the plan assets:

	2025	2024
	Carrying Value/Fair Value	Carrying Value/Fair Value
Cash and cash equivalents	₱13,108,520	₱50,373,320
Equity instruments (see Note 21):		
GMA Network, Inc.	481,306,490	517,671,188
GMA PDRs	6,225,000	6,225,000
Debt instruments -		
Government securities	406,311,586	98,009,721
Unit Investment Trust Funds (UITFs)	309,190,277	251,862,681
Corporate bonds and others	493,892,536	294,710,873
	₱1,710,034,409	₱1,218,852,783

The plan assets as of December 31, 2025 and 2024 consist of the following:

- Cash and cash equivalents consist of regular savings and time deposits.
- Investments in equity instruments consist of listed shares of GMA Network, Inc. and GMA PDRs (see Note 21).
- Investments in debt instruments bear interest ranging from 3.02% to 6.80% and have maturities from May 2025 to April 2032. Equity and debt instruments held have quoted prices in active market.
- Investment in UITFs are measured at their net asset value per unit.
- Others consist of loans and receivables which are collectible within the next twelve months.

The person who exercises voting rights over shares is within the powers of the Trustee, who do not have any relationship with the directors or officers of the Group.

The plan assets are primarily exposed to financial risks such as liquidity risk and price risk.

Liquidity risk pertains to the plan's ability to meet its obligation to the employees upon retirement. To effectively manage liquidity risk, the Board of Trustees invests at least the equivalent amount of actuarially computed expected compulsory retirement benefit payments for the year to liquid/semi-liquid assets such as treasury notes, treasury bills, and savings and time deposits with commercial banks.

The Group performs an Asset-Liability Matching Study (ALM) annually. The principal technique of the Group's ALM in order to minimize the portfolio liquidation risk is to ensure that the expected return on assets will be sufficient to support the desired level of funding arising from the defined benefit plans.

Price risk pertains mainly to fluctuations in market prices of equity securities listed in the Philippine Stock Exchange. In order to effectively manage price risk, the Board of Trustees continuously assesses these risks by closely monitoring the market value of the securities and implementing prudent investment strategies.

However, in the event a benefit claim arises under the retirement plan and the retirement fund is not sufficient to pay the benefit, the unfunded portion of the claim shall immediately be due and payable to the retirement fund from the Group.

The principal assumptions used in determining pension liability for the Group's plans are shown below:

	2025	2024	2023
Discount rate	6.26%-6.27%	6.07-6.08%	6.05-6.12%
Expected rate of salary increase	4.00%	4.00%	4.00%

The sensitivity analysis below has been determined by remeasuring the defined benefit obligation at the reporting period after first adjusting one of the current assumptions that were reasonably possible at the valuation date while all other assumptions remained unchanged. It should be noted that the changes assumed to be reasonably possible at the valuation date are open to subjectivity, and do not consider more complex scenarios in which changes other than those assumed may be deemed to be more reasonable.

	Increase (Decrease) in Basis Points	Increase (Decrease) in Defined Benefit Obligation		
		2025	2024	2023
Discount rate	50	(P247,838,048)	(P216,876,350)	(P241,706,870)
	(50)	263,245,266	243,768,727	225,871,746
Future salary increases	50	267,843,865	227,887,783	245,461,957
	(50)	(254,270,241)	(273,336,455)	(231,767,894)

Shown below is the maturity analysis of the undiscounted benefit payments as at December 31, 2025 and 2024:

	2025	2024
Less than one year	P1,946,931,863	P517,456,383
More than 1 but less than 5 years	2,453,388,711	2,145,525,122
More than 5 years but less than 10 years	4,586,683,490	3,248,915,237

Other Long-Term Employee Benefits

Other long-term employee benefits consist of accumulated and unexpired employee sick and vacation leave entitlements. Noncurrent portion of other employee benefits amounted to P328.20 million and P282.68 million as at December 31, 2025 and 2024, respectively, while current portion of other employee benefits recorded in "Accrued payroll and talent fees" included under "Trade and other current liabilities" account amounted to P4.77 million and P15.82 million as at December 31, 2025 and 2024, respectively (see Note 17).

28. Agreements

Lease Agreements

Group as a Lessee

The Group entered into various lease agreements for land, building, studio and office spaces that it presently occupies and uses for periods ranging from two to 25 years. The lease agreements can be renewed subject to mutual agreement. Most of the lease agreements can be terminated at the option of the Group.

The Group also has certain leases with lease terms of 12 months or less. The Group applies the “short-term lease” recognition exemptions for these leases.

The rollforward analysis of right-of-use assets follows:

The unrecognized deferred tax assets from the above deductible temporary differences amounted to P15.43 million and P11.90 million as at December 31, 2025 and 2024, respectively.

The deferred tax assets were not recognized as management believes that future taxable income against which the deferred tax assets can be used for these entities may not be available.

As at December 31, 2025, the Group's MCIT is as follows:

Years Paid/Incurred	Carryforward Benefit Up To	MCIT
2025	2028	P766,427
2024	2027	927,848
		P1,694,275

The movements of MCIT is as follows:

Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act

On June 20, 2023, the Bureau of Internal Revenue issued Revenue Memorandum Circular (RMC) No. 69-2023 reverting the MCIT rate to 2% of gross income effective July 1, 2023 pursuant to Republic Act (RA) No. 11534, otherwise known as the CREATE Act. MCIT rate was previously reduced from 2% to 1% effective July 1, 2020 to June 30, 2023 upon the effectivity of CREATE Act in 2021.

30. EPS Computation

The computation of basic and diluted EPS follows:

	2025	2024	2023
Net income attributable to equity holders of the Parent Company (a)	₱2,201,782,465	₱2,069,420,969	₱3,170,179,282

Basic EPS (b/c)	₱0.453	₱0.425	₱0.652
Diluted EPS (a/d)	₱0.453	₱0.425	₱0.652

31. Financial Risk Management Objectives and Policies

The Group's principal financial instruments include cash and cash equivalents. The main purpose of these financial instruments includes raising financing for the Group's operations and managing identified financial risks. The Group has other financial assets and liabilities such as trade and other receivables, refundable deposits, trade payables and other current liabilities (excluding payable to government agencies, customers' deposits and contract liabilities), short-term loans, obligations for program and other rights, dividends payable, other long-term employee benefits and lease liabilities, which arise directly from its operations, and financial assets at FVOCI. The main risks arising from the use of financial instruments are liquidity risk, foreign currency exchange risk and credit risk. The Group is not exposed to interest rate risk as most of its financial assets and financial liabilities have fixed rates.

The BOD reviews and approves the Group's objectives and policies.

Liquidity Risk. The Group is exposed to the possibility that adverse changes in the business environment and/or its operations would result in substantially higher working capital requirements and subsequently pose difficulty in financing the additional working capital.

The Group manages liquidity risk by using its cash and cash equivalents from operations to meet its short-term liquidity needs. The Group likewise regularly evaluates other financing instruments and arrangements to broaden the Group's range of financing sources.

The tables below summarize the maturity profile of the Group's financial assets and financial liabilities based on contractual undiscounted payments as at December 31:

Foreign Currency Exchange Risk. Foreign currency exchange risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. The Group's exposure to foreign currency exchange risk results from certain business transactions denominated in foreign currencies. It is the Group's policy to ensure that capabilities exist for active but conservative management of its foreign currency exchange risk.

The Group's foreign currency-denominated monetary assets and liabilities are as follows:

	2025		2024	
Assets				
Cash and cash equivalents	\$13,275,268	₱780,453,028	\$9,114,274	₱527,260,751

In translating the foreign currency-denominated monetary assets and liabilities into Philippine peso amounts, the exchange rates used were ₱58.79 to US\$1.00 and ₱57.85 to US\$1.00, the Philippine peso to U.S. dollar exchange rate, as at December 31, 2025 and 2024, respectively. The exchange rate for Philippine peso to Canadian dollar were ₱43.01 to CAD\$1.00 and ₱42.27 to CAD\$1.00, as at December 31, 2025 and 2024. The peso equivalents for the Singaporean Dollar, Australian Dollar, Dirham, Euro and Pound were ₱45.82, ₱39.38, ₱16.01, ₱69.25, and ₱79.41 and ₱42.69, ₱36.08, ₱15.80, ₱60.47, and ₱72.68 as at December 31, 2025 and 2024, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in the exchange rates, with all other variables held constant, of the Group's income before income tax from reporting period up to next reporting period (due to changes in the fair value of monetary assets and liabilities). There is no impact on the Group's equity other than those already affecting profit or loss.

Credit Risk. Credit risk, or the risk of counterparties defaulting, is controlled by the application of credit approvals, limits and monitoring procedures. It is the Group's policy to enter into transactions with a diversity of creditworthy parties to mitigate any significant concentration of credit risk.

The Group ensures that sales of products and services are made to customers with appropriate credit history. The Group has an internal mechanism to monitor the granting of credit and management of credit exposures. The Group has made provisions, where necessary, for potential losses on credits extended. The Group's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of the instruments. The Group does not require any collateral for its financial assets, thus, maximum exposure to credit risk is equal to the carrying value of the financial instruments.

The table below shows the maximum exposure to credit risk for the components of the consolidated financial position as at December 31:

	2025	2024
Financial assets at amortized cost:		
Cash and cash equivalents*	₱1,393,780,579	₱1,825,111,096

*Excluding cash on hand amounting to ₱67.61 million and ₱321.20 million as at December 31, 2025 and 2024, respectively.

**Included under "Other noncurrent assets" account in the consolidated statements of financial position (see Note 16).

The maximum exposure for cash and cash equivalents (excluding cash on hand) is the carrying amount less insured amount by the Philippine Deposit Insurance Corporation equivalent to the actual cash balance to a maximum of ₱0.50 million per depositor per bank. Beginning March 15, 2025, the insured amount has increased to ₱1 million per depositor per bank. The maximum exposure of trade and non-trade receivables and refundable deposits is equal to its carrying amount.

Credit quality of Financial Assets, Other than Trade Receivables

The financial assets of the Group are grouped according to stage whose description is explained as follows:

Stage 1 - Those that are considered current and up to 120 past due and based on change in rating delinquencies and payment history, do not demonstrate significant increase in credit risk.

Stage 2 - Those that, based on change in rating, delinquencies and payment history, demonstrate significant increase in credit risk, and/or are considered more than 120 to 360 days past due but does not demonstrate objective evidence of impairment as of reporting date.

Stage 3 - Those that are considered in default or demonstrate objective evidence of impairment as of reporting date.

The credit quality of the Group's financial assets are as follows:

Credit Quality of Trade Receivables

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segment with similar loss patterns (i.e., by customer type). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure of the Group's trade receivables using provision matrix:

2025

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, pay off existing debts, return capital to shareholders or issue new shares.

The Parent Company is not subject to externally imposed capital requirements.

No changes were made in the objectives, policies or processes for each of the three years ended December 31, 2025, 2024 and 2023.

The Group monitors its capital gearing by measuring the ratio of interest-bearing loan to total equity. The Group's interest-bearing loans, which are the short-term loans, amounted to ₱1,476.68 million and ₱3,720.5 million as at December 31, 2025 and 2024, respectively. The Group's total equity attributable to equity holders of the Parent Company as at December 31, 2025 and 2024 amounted to ₱13,422.96 million and ₱14,290.71 million, respectively.

32. Fair Value Measurement

The table below presents the carrying values and fair values of the Group's assets, by category and by class, as at December 31:

	2025			
	Fair Value			
	Carrying Value	Quoted Prices in Active Markets (Level 1)	Significant Observable Input (Level 2)	Significant Unobservable Inputs (Level 3)
Assets				
<i>Assets Measured at Fair Value</i>

Financial assets at FVOCI	404,465,579	—	16,300,000	388,165,579
<i>Assets for which Fair Values are Disclosed</i>				
Investment properties	29,384,113	—	—	29,384,113
	₱9,826,183,647	₱—	₱16,300,000	₱9,809,883,647
Liabilities				
<i>Liabilities for which Fair Values are Disclosed</i>				
Obligations for program and other rights – net of current portion	₱56,589,474	₱—	₱—	₱56,589,474
	2024			
	Fair Value			
	Carrying Value	Quoted Prices in Active Markets (Level 1)	Significant Observable Input (Level 2)	Significant Unobservable Inputs (Level 3)
Assets				
<i>Assets Measured at Fair Value</i>				
Land at revalued amount	₱8,813,281,439	₱—	₱—	₱8,813,281,439
Financial assets at FVOCI	370,856,990	—	22,006,842	348,850,148
<i>Assets for which Fair Values are Disclosed</i>				
Investment properties	30,841,564	—	—	30,841,564
	₱9,214,979,993	₱—	₱22,006,842	₱9,192,973,151

As at December 31, 2025 and 2024, the fair value of equity instruments in a listed entity is classified under Level 3 due to the investee Company's suspension of trading in the market.

The fair values of equity instruments in listed and non-listed companies classified under Level 3 were determined through net-asset value based approach. Net-asset based approach is based on the value of all the tangible and intangible assets and liabilities of the investee Company.

Presented below are the significant unobservable inputs used in the net asset valuations of the Group's financial assets in 2025 and 2024:

Description	Unobservable Inputs	Range	
		2025	2024
Listed equity instrument:			
Casinos and gaming industry	Discount for lack of marketability	10-30%	10%-30%
	Discount for lack of control	10-30%	10%-30%
Non-listed equity instruments:			
Media and entertainment industry	Discount for lack of marketability	10-30%	10%-30%
	Discount for lack of control	10-30%	10%-30%

An increase (decrease) in the significant unobservable inputs used in the valuation of the equity investments will decrease (increase) the fair value of the equity investments.

Fair Value Determination

The following methods and assumptions are used to estimate the fair value of each asset and liability for which it is practicable to estimate such value:

Cash and Cash Equivalents, Trade and Other Receivables, Refundable Deposits, Trade Payables and Other Current Liabilities (excluding Payable to Government Agencies, Contract Liabilities and Customer Deposits), Short-term Loans, Obligations for Program and Other Rights and Dividends Payable

The carrying values of cash and cash equivalents and trade and other receivables, trade payables and other current liabilities, short-term loans, current portion of obligations for program and other rights and dividends payable approximate their fair values primarily due to the relatively short-term maturity of these financial instruments.

The carrying value of refundable deposits (included under "Other noncurrent assets" account in the consolidated statements of financial position) approximates fair value due to unavailability of information as to the repayment date that would provide a reasonable basis for the fair value measurement.

Financial assets at FVOCI

The Group's investments in club shares were based on prices readily available from brokers and other regulatory agencies as at reporting date (Level 2). The fair values of equity investments in listed and non-listed companies have been estimated using the net asset value model. The valuation using adjusted net asset approach requires the management to measure the fair value of the individual assets and liabilities recognized in an investee's statement of financial position as well as the fair value of any unrecognized assets and liabilities at the measurement date.

Investment Properties and Land at Revalued Amount

The valuation for the disclosure of the fair value of investment properties and for the recognition of land at revalued amount was derived through market data approach based upon prices paid in actual market transactions. This approach relies on the comparison of recent sale transactions or offerings of similar properties which have occurred and/or offered with close proximity to the subject property adjusted based on certain elements of comparison (e.g. market conditions, location, physical condition and amenities). Significant unobservable valuation input in determining the fair value of investment properties includes adjusted price per square meter and lot size adjustments (see Notes 14 and 15).

33. Supplemental Cash Flow Information

INDEPENDENT AUDITOR'S REPORT ON COMPONENTS OF FINANCIAL SOUNDNESS INDICATORS

The Board of Directors and Stockholders
GMA Network, Inc. and Subsidiaries
GMA Network Center
Timog Avenue corner EDSA
Quezon City

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of GMA Network, Inc. and Subsidiaries (the Group) as at December 31, 2025 and 2024, and for each of the three years in the period ended December 31, 2025, and have issued our report thereon dated March 25, 2026. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The Supplementary Schedule on Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Group's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRS) Accounting Standards and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purpose of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission, and is not a required part of the basic consolidated financial statements prepared in accordance with PFRS Accounting Standards. The components of these financial soundness indicators have been traced to the Group's consolidated financial statements as at December 31, 2025 and 2024 and for each of the three years in the period ended December 31, 2025 and no material exceptions were noted.

Report on the Audit of the Parent Company Financial Statements

Opinion

We have audited the parent company financial statements of GMA Network, Inc. (the Company), which comprise the parent company statements of financial position as at December 31, 2025 and 2024, and parent company statements of comprehensive income, parent company statements of changes in equity and parent company statements of cash flows for the years then ended, and notes to the parent company financial statements, including material accounting policy information.

In our opinion, the accompanying parent company financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Parent Company Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) as applicable to the audits of the financial statements of public interest entities, together with the ethical requirements that are relevant to our audits of financial statements of public interest entities in the Philippines. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the parent company financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the parent company financial statements, including the disclosures, and whether the parent company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entity or business activities within the Company to express an opinion on the parent company financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on the Supplementary Information Required Under Revenue Regulations No. 15-2010

Our audits were conducted for the purpose of forming an opinion on the parent company financial statements taken as a whole. The supplementary information required under Revenue Regulations No. 15-2010 in Note 34 to the parent company financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of the management of GMA Network, Inc. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The engagement partner on the audit resulting in this independent auditor's report is

GMA NETWORK, INC.

NOTES TO PARENT COMPANY FINANCIAL STATEMENTS

1. Corporate Information

GMA Network, Inc. (the Company) is incorporated in the Philippines. The Company is primarily involved in the business of radio and television broadcasting. The registered office address of the Company is GMA Network Center, Timog Avenue corner EDSA, Quezon City. The Company was registered with the Philippine Securities and Exchange Commission (SEC) on June 14, 1950.

On July 20, 1995, the Board of Directors (BOD) approved the extension of the corporate term of the Company for another 50 years from June 14, 2000. In 1997, the SEC approved the said extension.

The Company's shares of stock are publicly listed and traded in the Philippine Stock Exchange.

The Company is a holder of a legislative franchise to construct, install, operate and maintain, for commercial purposes and in the public interest, radio and television broadcasting stations in the Philippines. The Company is required to make closed captioning available for its programs to assist in the functions of public information and education.

On December 7, 2016, House Bill No. 4631, which seeks to renew GMA's franchise, was filed. The key provisions of the franchise renewal under House Bill No. 4631 are as follows:

1. Allows continued broadcast operations of GMA, maintenance of its radio and TV stations in the Philippines and its expansion, including digital television system;
2. Provides another franchise term of twenty-five (25) years;
3. Requires the grantee to provide government adequate public service time to enable it to reach the population on important public issues and assist in the functions of public information and education;
4. Prohibits the grantee from leasing, transferring, selling nor assigning the franchise or controlling interest thereof without the prior approval of the Congress of the Philippines; and
5. Requires the grantee to submit an annual report to the Congress of the Philippines on its compliance with the terms and conditions of the franchise and its operation on or before April 30 of every year during the term of the franchise.

On March 23, 2017, House Bill 4631 became an Enrolled Bill (the "Enrolled Bill") and was endorsed to the Office of the President for his approval. On April 21, 2017, President Rodrigo Duterte signed Republic Act No. 10925 which grants the renewal of the legislative franchise of GMA for another 25 years.

The accompanying parent company financial statements were approved and authorized for issuance by the BOD on March 25, 2026.

2. Basis of Preparation, Statement of Compliance and Changes in Accounting Policies and Disclosures

Basis of Preparation

The parent company financial statements have been prepared on a historical cost basis, except for financial assets at fair value through other comprehensive income (FVOCI), and land at revalued amounts, which are measured at fair value. The parent company financial statements are presented in Philippine peso, which is the Company's functional and presentation currency. All values are rounded to the nearest peso, except when otherwise indicated.

Statement of Compliance

The parent company financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards as issued by the Philippine Financial and Sustainability Reporting Standards Council.

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective in 2025. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the parent company financial statements.

Effective beginning on or after January 1, 2025

- Amendments to PAS 21, *Lack of exchangeability*

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

The amendments are effective for annual reporting periods beginning on or after January 1, 2025. Earlier adoption is permitted and that fact must be disclosed. When applying the amendments, an entity cannot restate comparative information.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. The Company intends to adopt the following pronouncements when they become effective. Unless otherwise indicated, the Company does not expect that the future adoption of the said pronouncements will have a significant impact on its financial statements.

Effective beginning on or after January 1, 2026

- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*

The amendments clarify that a financial liability is derecognized on the ‘settlement date’, i.e., when the related obligation is discharged, cancelled, expires or the liability otherwise qualifies for derecognition. They also introduce an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system before settlement date if certain conditions are met.

The amendments also clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features. Furthermore, the amendments clarify the treatment of non-recourse assets and contractually linked instruments.

- Amendments to Illustrative Examples on PFRS 7, PFRS 18, PAS 1, PAS 8, PAS 26 and PAS 37, *Disclosures about Uncertainties in the Financial Statements*
- Amendments to PFRS 9 and PFRS 7, *Contracts Referencing Nature-dependent Electricity*
- Annual Improvements to PFRS Accounting Standards—Volume 11
 - Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
 - Amendments to PFRS 7, *Gain or Loss on Derecognition*
 - Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities and Transaction Price*

- Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
- Amendments to PAS 7, *Cost Method*

Effective beginning on or after January 1, 2027

- PFRS 18, *Presentation and Disclosure in Financial Statements*

The standard replaces PAS 1, *Presentation of Financial Statements* and responds to investors' demand for better information about companies' financial performance. The new requirements include:

- Required totals, subtotals and new categories in the statement of profit or loss
 - Disclosure of management-defined performance measures
 - Guidance on aggregation and disaggregation
- PFRS 17, *Insurance Contracts*
 - PFRS 19, *Subsidiaries without Public Accountability*
 - Amendments to PAS 21, *Translation to a Hyperinflationary Presentation Currency*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the FSRSC deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

3. Summary of Material Accounting Policy Information

Fair Value Measurement

The Company measures financial instruments at fair value at each reporting date. Fair value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed, are summarized in the following notes:

- Disclosures for significant estimates and assumptions, see Note 4
- Quantitative disclosures of fair value measurement hierarchy, see Note 32
- Land, see Note 14
- Investment properties, see Note 15
- Financial instruments (including those carried at amortized cost), see Note 32

Fair value is the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Financial Instruments

A financial instrument is any contract that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition and Measurement. Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, FVOCI, and fair value through profit or loss (FVPL).

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value

plus, in the case of a financial asset not at FVPL, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under PFRS 15, *Revenue from Contracts with Customers*.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest' (SPPI) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Subsequent Measurement. For purposes of subsequent measurement, financial assets are classified in four categories:

- financial assets at amortized cost (debt instruments)
- financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- financial assets at FVPL

The Company does not have debt instruments at FVOCI and financial assets at FVPL as at December 31, 2025 and 2024.

Financial Assets at Amortized Cost (Debt Instruments). The Company measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in the parent company statement of comprehensive income when the asset is derecognized, modified or impaired.

The Company's financial assets at amortized cost includes cash and cash equivalents, trade and other receivables and refundable deposits (included under "Other noncurrent assets" account in the parent company statement of financial position) as at December 31, 2025 and 2024 (see Notes 6, 7, 16 and 31).

Financial Assets Designated at FVOCI (Equity Instruments). Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation*, and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as "Dividend income" included under "Others - Net" account in the parent company statement of comprehensive income when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which

case, such gains are recorded in Other Comprehensive Income (OCI). Equity instruments designated at FVOCI are not subject to impairment assessment.

The Company elected to classify irrevocably under this category its listed and non-listed equity instruments and investment in quoted club shares as at December 31, 2025 and 2024 (see Notes 11 and 31).

Derecognition of Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognized (i.e., removed from the Company's statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of Financial Assets

The Company recognizes an allowance for ECLs for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other financial assets such as due from related parties and certain advances to joint venture, the Company applies a general approach which measures ECL on either a 12-month or lifetime basis depending on whether a significant increase in credit risks has occurred since initial recognition or whether an asset is considered to be credit-impaired, adjusted for the effects of collateral, forward-looking factors and time value of money.

For cash and cash equivalents, the Company applies the low credit risk simplification. At every reporting date, the Company evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Company reassesses the external credit rating of the debt instrument or comparable instruments.

The Company, in general, considers a financial asset in default when contractual payments are 360 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off, in whole or in part, when the asset is considered uncollectible, the Company has exhausted all practical recovery efforts and has concluded that it has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

Financial Liabilities

Initial Recognition and Measurement. Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company has not designated any financial liability as at FVPL as at December 31, 2025 and 2024.

Subsequent Measurement - The measurement of financial liabilities depends on their classification, as described below:

Loans and Borrowings. After initial recognition, interest-bearing loans and borrowings and other payables are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as "Interest expense" in the parent company statement of comprehensive income.

This category generally applies to trade payables and other current liabilities (excluding payable to government agencies, customers' deposits and contract liabilities), short-term loans, obligations for program and other rights, dividends payable and lease liabilities (see Notes 17, 18, 19, 20, 28 and 31).

Derecognition of Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the parent company statement of comprehensive income.

Program and Other Rights

Program and other rights are stated at cost less amortization and impairment in value. The estimated useful lives and the amortization method used depend on the manner and pattern of usage of the acquired rights. The cost of program and other rights with multiple number of runs within a specified term is amortized using straight line method up to the date of expiry or upon full airing of the acquired rights, whichever is earlier. The cost of program and other rights with indefinite lives are amortized using straight line method over 10 years.

For series of rights acquired, the cost is charged to profit or loss as each series is aired on a per episode basis.

For rights intended for airing over the international channels, the cost is amortized on a straight-line basis over the number of years indicated in the contract.

Amortization expense is shown as “Program and other rights usage” included under “Production costs” account in the parent company statement of comprehensive income.

Prepaid Production Costs

Prepaid production costs, included under “Prepaid expenses and other current assets” account in the parent company statement of financial position, represent costs paid in advance prior to the airing of the programs or episodes. These costs include talent fees of artists and production staff and other costs directly attributable to production of programs. These are charged to expense under “Production costs” account in the parent company statement of comprehensive income upon airing of the related program or episodes. Costs related to previously taped episodes determined not to be aired are charged to expense.

Inventories

Merchandise inventory and materials and supplies inventory is stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. Net realizable value of inventories that are for sale is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale. Net realizable value of inventories not held for sale is the current replacement cost.

Tax Credits

Tax credits, measured at cost less any impairment in value, represent claims from the government arising from airing of government commercials and advertisements availed under Presidential Decree (PD) No. 1362. Pursuant to PD No. 1362, these will be collected in the form of tax credits which the Company can use in paying for import duties and taxes on imported broadcasting related equipment. The tax credits cannot be used to pay for any other tax obligation to the government.

As at December 31, 2025 and 2024, the Company’s tax credits are classified as current under “Prepaid expenses and other current assets” account in the parent company statement of financial position.

Advances to Suppliers

Advances to suppliers, included under “Prepaid expenses and other current assets” account in the parent company statement of financial position, are measured at cost and are noninterest-bearing and are generally applied to acquisition of inventories, programs and other rights, availments of services and others.

Investments and Advances

This account consists of investments and advances to subsidiaries, joint venture and an associate. The Company’s investments in and advances to subsidiaries, joint venture and associate are carried in the parent company statement of financial position at cost less any impairment value.

A subsidiary is an entity in which the Company has control. Control is achieved when the Company is composed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. An associate is an entity in which the Company has significant influence and which is neither a subsidiary nor a joint venture of the Company. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The ownership interests in subsidiaries, associate and joint venture, which are all incorporated in the Philippines, consist of the following in 2025 and 2024:

Property and Equipment

Property and equipment, except for land, are stated at cost, net of accumulated depreciation and amortization and impairment losses, if any. Such cost includes the cost of replacing part of the property and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property and equipment are required to be replaced at intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. All other repair and maintenance costs are recognized in profit or loss as incurred.

Land is initially measured at cost. After initial recognition, land is carried at revalued amounts, being its fair value at the date of the revaluation, less any subsequent impairment losses. Valuations are generally performed every three to five years or more frequently as deemed necessary to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

Any revaluation surplus is recorded in other comprehensive income and hence, credited to the "Revaluation increment on land - net of tax" account under equity, except to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit or loss, in which case, the increase is recognized in profit or loss. A revaluation deficit is recognized in profit or loss, except to the extent that it offsets an existing surplus on the same asset recognized in the "Revaluation increment on land - net of tax" account.

Depreciation and amortization are computed on a straight-line basis over the following estimated useful lives of the assets:

Buildings, towers and improvements	11-20 years
Antenna and transmitter systems and broadcast equipment	5-10 years
Communication and mechanical equipment	3-5 years
Transportation equipment	4-5 years
Furniture, fixtures and equipment	5 years

An item of property and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss when the asset is derecognized.

The assets' residual values, useful lives and methods of depreciation and amortization are reviewed at each financial year-end and adjusted prospectively, if appropriate.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation and amortization is credited or charged to current operations.

Construction in progress is stated at cost. This includes cost of construction, equipment under installation and other direct costs. Construction in progress is not depreciated until such time as the relevant assets are completed and put into operational use.

Investment Properties

Investment properties consist of real estate held for capital appreciation and rental.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties, except land, are measured at cost less accumulated depreciation and amortization and impairment in value. Land is stated at cost less any impairment in value.

Depreciation and amortization are computed using the straight-line method over 11-20 years.

The remaining useful lives and depreciation and amortization method are reviewed and adjusted, if appropriate, at each financial year-end.

Investment properties are derecognized when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in profit or loss in the period of derecognition.

Investment in Artworks

Investment in artworks, included under “Other noncurrent assets” account in the parent company statement of financial position, is stated at cost less any impairment in value.

Software Costs

Costs incurred in the acquisition and customization of new software, included under “Other noncurrent assets” account in the parent company statement of financial position, are capitalized and amortized on a straight-line basis over three to ten years.

Impairment of Nonfinancial Assets

The carrying values of land at revalued amounts, program and other rights, prepaid production costs, deferred production costs, tax credits, investments and advances, property and equipment, right-of-use assets, investment properties, software costs and investment in artworks are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If any such indication exists, and if the carrying value exceeds the estimated recoverable amount, the assets are considered impaired and are written down to their recoverable amount. The recoverable amount of these nonfinancial assets is the greater of an asset’s or cash-generating unit’s fair value less cost to sell or value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or company of assets. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm’s length transaction less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. Impairment losses, if any, are recognized in profit or loss in the parent company statement of comprehensive income in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting period as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If any such indication exists, the recoverable amount is estimated. A previously recognized impairment loss, except for land at revalued amount where the revaluation is taken to OCI, is reversed only if there has been a change in the estimates used to determine the asset’s recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss. After such a reversal, the depreciation and amortization charges are adjusted in future periods to allocate the asset’s revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. For land at revalued amounts, the reversal of impairment is also recognized in OCI up to the amount of any previous revaluation.

In the case of investments in associate and interests in joint ventures, after application of the equity method, the Company determines whether it is necessary to recognize any additional impairment loss with respect to the Company's investments in associate and interests in joint ventures. The Company determines at each reporting period whether there is any objective evidence that the investments in associate and interests in joint ventures are impaired. If this is the case, the Company calculates the amount of impairment as being the difference between the recoverable amount of investments in associate and interests in joint ventures, and the acquisition cost and recognizes the amount in the parent company statement of comprehensive income.

Investments in an Associate and Joint Ventures

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

The Company's investments in its associate and joint ventures are accounted for using the equity method.

Equity

Capital stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax. Proceeds and/or fair value of considerations received in excess of par value are recognized as additional paid-in capital.

Retained earnings include all current and prior period results of operations as reported in the statement of comprehensive income, net of any dividend declaration, adjusted for the effects of changes in accounting policies as may be required by PFRS Accounting Standards' transitional provisions.

Revenue Recognition

a. *PFRS 15, Revenue from Contracts with Customers*

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Revenue is recognized when the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognized is the amount allocated to the satisfied performance obligation.

The following specific recognition criteria must also be met before revenue is recognized:

Advertising Revenue. Revenue is recognized in the period the advertisements are aired.

Payments received for advertisements before broadcast (pay before broadcast) are recognized as income on the dates the advertisements are aired. Prior to liquidation, these are classified as unearned revenue under "Contract liabilities" under "Trade payables and other current liabilities" account, in the parent company statement of financial position.

Goods received in exchange for airtime usage pursuant to exchange deal contracts executed between the Company and its customers are recorded at fair market values of assets received. Fair market value is the current market price.

Tax credits on aggregate airtime credits from government sales availed of under PD No. 1362 are recognized as revenue when there is reasonable certainty that these can be used to pay duties and taxes on imported broadcasting related equipment.

Subscription Revenue. Subscription fees are recognized over the subscription period in accordance with the terms of the subscription agreements.

Sale of Goods. Sale of goods pertain to sale of set-top boxes and other merchandise. Revenue is recognized at a point in time when delivery has taken place and transfer of control has been completed. These are stated net of sales discounts.

Revenue from Distribution and Content Provisioning. Revenue is recognized upon the license start date or delivery of the licensed content, whichever comes later.

Production Revenue. Production revenue is recognized at a point in time when project-related services are rendered.

Commission from Artists. Revenue is recognized as revenue at a point in time on an accrual basis in accordance with the terms of the related marketing agreements.

b. Revenue Recognition Outside the Scope of PFRS 15

Rental Income. Revenue from lease of property and equipment and investment properties is accounted for on a straight-line basis over the lease term.

Interest Income. Revenue is recognized as the interest accrues, taking into account the effective yield on the asset.

Equity in Net Earnings (Losses) of Joint Ventures. The Company recognizes its share in the net income or loss of joint ventures proportionate to the equity in the economic shares of such joint ventures, in accordance with the equity method.

Other Income. Other income is recognized when there is an incidental economic benefit, other than the usual business operations, that will flow to the Company through an increase in asset or reduction in liability that can be measured reliably.

Contract Balances

Trade Receivables. A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to the accounting policies of Financial Instruments section.

Contract Assets. A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Contract Liabilities. A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due, whichever is earlier. Contract liabilities are recognized as revenue when the Company performs under the contract.

Incremental Costs to Obtain a Contract

The Company pays sales commissions to its account executives for each contract that they obtain for advertising agreements with customers. The Company has elected to apply the optional practical expedient for costs to obtain a contract which allows the Company to immediately expense sales commissions (presented as part of "Marketing expense" under "General and administrative expenses" account in the parent company statement of comprehensive income) because the amortization period of the asset that the Company otherwise would have used is less than one year.

Pension and Other Long-Term Employee Benefits

The Parent Company has a funded, noncontributory defined benefit retirement plan covering permanent employees. Other entities are covered by Republic Act (R.A.) 7641, otherwise known as "The Philippine Retirement Law", which provides for qualified employees to receive an amount equivalent to a certain percentage of monthly salary at normal retirement age. In addition, the Company has agreed to pay the cash equivalent of the accumulated unused vacation leave of the employees upon separation from the Company.

The cost of providing benefits under the defined benefit plans is determined using the projected unit credit method.

Defined Benefit Plans. The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling.

The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the parent company statement of financial position with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation under “Production costs” and “General and administrative expenses” accounts in parent company statements of comprehensive income (by function):

- Service costs comprising current service costs, past service costs, gains and losses on curtailments and non-routine settlements.
- Net interest expense or income

Plan assets are assets that are held by a long-term employee benefit fund. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Company’s right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Leases

Leases. The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as Lessee. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

- *Right-of-use Assets.* The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received and estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. Unless the Company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term as follow:

Land	2 to 25 years
Buildings, studio and office spaces	2 to 15 years

Right-of-use assets are subject to impairment.

- *Lease Liabilities.* At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating a lease, if the lease term reflects the Company exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

- *Short-term Leases.* The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date or initial application of PFRS 16 and do not contain a purchase option). Lease payments on short-term leases are recognized as expense on a straight-line basis over the lease term.

Company as Lessor. Leases where the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Rental income from operating leases are recognized as income in the parent company statement of comprehensive income on a straight-line basis over the lease term. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Foreign Currency-denominated Transactions

Transactions in foreign currencies are initially recorded in the functional currency exchange rate at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing exchange rate at financial reporting period. All differences are taken to profit or loss in the statements of comprehensive income. Nonmonetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Nonmonetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. For income tax purposes, foreign exchange gains and losses are treated as taxable income or deductible expenses when realized.

Taxes

Current Income Tax. Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted at reporting period.

Current income tax relating to items recognized directly in equity is recognized in equity and not in profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation, and establishes provisions where appropriate.

Deferred Tax. Deferred tax is provided using the liability method on temporary differences at reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting period.

Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of excess minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carryforward benefits of excess MCIT over RCIT and unused NOLCO can be utilized, except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting period and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates and tax laws to be enacted or substantially enacted at the reporting period.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Creditable Withholding Taxes. Creditable withholding taxes represent amounts withheld by the Company's customers and is deducted from the Company's income tax payable.

Value-added Tax (VAT). Revenue, expenses and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the parent company statement of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the parent company statement of financial position to the extent of the recoverable amount.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of "Prepaid expenses and other current assets" or "Trade payables and other current liabilities" accounts in the parent company statement of financial position.

Earnings Per Share (EPS)

Basic EPS is computed by dividing the net income for the year attributable to the equity holders of the Parent Company, net of income attributable to preferred shares, by the weighted average number of common shares outstanding during the year, after considering the retroactive adjustments for any stock dividends declared, if any.

Diluted EPS is calculated by dividing the net income for the year attributable to the equity holders of the Parent Company (inclusive of income attributable to preferred shares) by the weighted average number of common shares outstanding during the year, plus the weighted average number of common shares that would be issued upon conversion of all dilutive potential common shares.

Segment Reporting

For management purposes, the Company's operating businesses are organized and managed separately into television and radio airtime, international subscriptions and other business activities. Such business segments are the basis upon which the Company reports its primary segment information. The Company considers television and radio operations as the major business segment. The Company operates in two geographical areas where it derives its revenue. Financial information on business segments is presented in Note 5 to the parent company financial statements.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the parent company statement of comprehensive income, net of any reimbursement.

Contingencies

Contingent liabilities are not recognized in the parent company financial statements. These are disclosed in the notes to parent company financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the parent company financial statements but are disclosed in the notes to parent company financial statements when an inflow of economic benefits is probable.

Events after Reporting Period

Post year-end events that provide additional information about the Company's position at the reporting period (adjusting events) are reflected in the parent company financial statements. Post year-end events that are not adjusting events are disclosed in the notes to parent company financial statements when material.

4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the parent company financial statements requires management to make judgments, estimates and assumptions that affect amounts reported in the parent company financial statements and related notes at the end of the reporting period. However, uncertainty about these judgments, estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the parent company financial statements.

Investment in RGMA. The Company considers that it controls RGMA Network even though it owns less than 50% of the voting rights. This is because the Company is the single largest shareholder of RGMA Network with a 49% equity interest. The remaining 51% of the equity shares in RGMA Network are owned by several parties. Since September 27, 1995, which is the date of incorporation of RGMA Network, there is no history of the other shareholders collaborating to exercise their votes collectively or to outvote the Company.

Investment in RGMA amounted to ₱41.68 million as at December 31, 2025 and 2024 (see Note 12).

Determination of Lease Term of Contracts with Renewal and Termination Options - Company as a Lessee. The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgment in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customization to the leased asset).

The Company did not include the renewal period as part of the lease term for its leases as these are subject to mutual agreement and are not reasonably certain to be exercised. Furthermore, the periods covered by termination options are included as part of the lease term because they are reasonably certain not to be exercised.

Operating Leases - Company as Lessor. The Company has entered into various lease agreements as lessor. The Company had determined that the risks and rewards of ownership of the underlying property were retained by the Company. Accordingly, the leases are classified as an operating lease.

Total rental income amounted to ₱7.79 million and ₱7.15 million in 2025 and 2024, respectively (see Note 27).

Estimating Allowance for ECL. The following information explains the inputs, assumptions and techniques used by the Company in estimating ECL for trade receivables:

- Simplified approach for trade receivables

The Company uses a simplified approach for calculating ECL on trade receivables through the use of provision matrix to calculate ECLs. The provision rates are based on days past due for groupings of customer segments that have similar loss patterns (i.e., by customer type).

The provision matrix is initially based on the Company's historical observed default rates. The Company then calibrates the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (e.g., gross domestic product, inflation rate, unemployment rate) are expected to deteriorate over the next year which can lead to an increased number of defaults in the Company's operating segments, the historical default rates are adjusted. At every reporting date, the historical observed default rates are and changes in the forward-looking factors specific to the debtors and the economic environment are updated.

- Definition of default for trade receivables

The Company defines a trade receivable as in default, when it meets one or more of the following criteria:

- The counterparty is experiencing financial difficulty or is insolvent
- The receivable is more than 360 days past due. The determination of the period is based on the Company's practice and agreement with their customers within the industry.

- Grouping of instruments for losses measured on collective basis

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a segmentation are homogeneous. The Company segmented its receivables based on the type of customer (e.g., corporate and individuals).

- Incorporation of forward-looking information

The Company considers a range of relevant forward-looking macro-economic assumptions for the determination of unbiased general industry adjustments that support the calculation of ECLs. A broad range of forward-looking information are considered as economic inputs such as the gross domestic product, inflation rate, unemployment rates and other economic indicators.

The macroeconomic factors are aligned with information used by the Company for other purposes such as strategic planning and budgeting.

The Company identifies and documents key drivers of credit risk and credit losses of each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

Predicted relationship between the key macro-economic indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data over the past 5 years. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions, the Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

Provision for ECL amounted to ₱100.00 million and nil in 2025 and 2024, respectively. The allowance for ECL amounted to ₱933.34 million and ₱833.34 million as at December 31, 2025 and 2024, respectively. The carrying amounts of trade and other receivables amounted to ₱6,494.74 million and ₱6,893.91 million as at December 31, 2025 and 2024, respectively (see Note 7).

Contingencies. The Company is currently involved in various claims and legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with legal counsel handling the defense in these matters and is based upon an analysis of potential results. The Company currently does not believe that these proceedings will have a material adverse effect on the Company's financial position.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the parent company financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Estimating the Incremental Borrowing Rate. The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the counterparty's stand-alone credit rating).

The Company's lease liabilities amounted to ₱128.80 million and ₱115.24 million as at December 31, 2025 and 2024, respectively (see Note 28).

Classification and Amortization of Program and Other Rights. Portions of program and other rights are classified as current and noncurrent assets. Current portion represents those expected to be aired any time within its normal operating cycle, whereas the noncurrent portion represents those without definite expiration.

The Company estimates the amortization of program and other rights with finite lives using straight line method up to the date of expiry and those with no definite expiration of up to ten years, which is the manner and pattern of usage of the acquired rights.

In addition, estimation of the amortization of program and other rights is based on the Company's experience with such rights. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances.

Program and other rights usage amounted to ₱1,355.73 million and ₱1,372.83 million in 2025 and 2024, respectively (see Notes 8 and 23). Program and other rights, net of accumulated impairment in value of ₱2.70 million, amounted to ₱2,152.44 million and ₱2,336.37 million as at December 31, 2025 and 2024, respectively (see Note 8).

Estimating Allowance for Inventory Losses. The Company provides allowance for inventory losses whenever the net realizable value becomes lower than cost due to damage, physical deterioration, obsolescence, changes in price levels or other causes. The allowance account is reviewed periodically to reflect the accurate valuation of the inventories.

The carrying value of merchandise inventory and materials and supplies inventory in the parent company statement of financial position amounted to ₱804.99 million and ₱925.84 million as at December 31, 2025 and 2024, respectively (see Note 9). There were no provisions for inventory losses in 2025 and 2024.

Estimating Useful Lives of Property and Equipment, Software Costs and Investment Properties. The Company estimates the useful lives of property and equipment, software costs and investment properties based on the period over which the assets are expected to be available for use. The estimated useful lives of property and equipment, software costs and investment properties are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. In addition, estimation of the useful lives of property and equipment, software costs and investment properties are based on collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of property and equipment, software costs and investment properties would increase the recorded general and administrative expenses and decrease noncurrent assets.

There has been no change in the Company's estimate of useful lives of its property and equipment, software costs and investment properties in 2025 and 2024.

Revaluation of Land. The Company engages an accredited appraiser to determine the fair value of the land used in operations. Fair value is determined by reference to market-based evidence adjusted based on certain elements of comparison. The fair value amount would differ if the Company made different judgments and estimates or utilized a different basis for determining fair value.

Valuations from an accredited appraiser are generally performed every three to five years or more frequently as deemed necessary to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

In 2025, the Company assessed those certain parcels of land at revalued amounts, comprising majority of the balance of the account, have significant movements in its current carrying values and obtained updated appraisals as at December 31, 2025. For the land that were not appraised, the Company referred to the published comparable prices for the fair values. Total additional revaluation increment recognized in 2025 amounted to ₱434.29 million, net of tax.

The revalued amount of land, which is classified under “Property and equipment” account in the parent company statements of financial position, amounted to ₱9,392.42 million and ₱8,813.32 million as at December 31, 2025 and 2024, respectively (see Notes 14 and 31).

Impairment of Nonfinancial Assets. For prepaid production costs, tax credits, investments and advances, property and equipment, land at revalued amounts, right-of-use assets, investment properties, program and other rights, software costs, and investment in artworks and software costs, impairment testing is performed whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

The factors that the Company considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business;
- significant negative industry or economic trends; and
- obsolescence or physical damage of an asset.

The Company recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of fair value less costs to sell or asset’s value in use. Recoverable amounts are estimated for individual assets or, if it is not possible, for the CGU to which the asset belongs.

As at December 31, 2025 and 2024, the Company did not identify any indicator of impairment on its nonfinancial assets, hence, no impairment tests were carried out except for the Company’s investment in Scenarios, Inc., for which an impairment loss of ₱16.19 million was recognized in 2025 (see Notes 12 and 24). On the other hand, the Company recorded reversal of impairment amounting to ₱44.51 million on its investment in GMA Network Films, Inc., attributable to the entity’s improved operating performance and profitability (see Note 12).

The carrying values of non-financial assets as at December 31 follows:

	2025	2024
Land at revalued amounts (see Note 14)	₱9,392,416,646	₱8,813,321,240
Property and equipment - at cost (see Note 13)	2,907,507,319	3,437,457,814
Program and other rights (see Note 8)	2,152,441,529	2,336,373,202
Investments and advances (see Note 12)	689,777,549	649,953,838
Prepaid production costs (see Note 10)	284,900,304	565,870,889
Tax credits (see Note 10)	125,645,165	131,853,616
Right-of-use assets (see Note 28)	104,364,665	91,007,759
Investment properties (see Note 15)	18,231,716	19,689,167
Investments in artworks (see Note 16)	9,454,000	9,454,000
Software costs (see Note 16)	8,725,981	20,608,554

Estimating Realizability of Deferred Tax Assets. The Company reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Recognized deferred tax assets amounted to ₱1,831.52 million and ₱1,473.69 million as at December 31, 2025 and 2024, respectively (see Note 29).

Pension and Other Employee Benefits. The determination of the Company's obligation and cost of pension benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 26 and include, among others, discount rate and salary increase rate. Due to the complexity of the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions.

Pension liability amounted to ₱5,985.56 million and ₱4,654.46 million as at December 31, 2025 and 2024, respectively (see Note 26).

Determination of Fair Value of Financial Assets at FVOCI. Financial assets at FVOCI are carried and disclosed at fair value. When the fair values cannot be derived from active markets, they are determined using a variety of valuation techniques, which include net asset value method for equity instruments whose net assets substantially consists of financial instruments measured at fair value or approximates their fair values. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The fair value of financial assets at FVOCI are enumerated in Note 31.

Determination of Fair Value of Investment Properties. PFRS requires disclosure of fair value of investment properties when measured at cost.

The Company used the services of an independent professional appraiser in estimating the fair value of properties. The appraisers conducted an actual inspection of the property and considered the following in the study and analyses in arriving at the estimate of fair value: (a) extent, character and utility of the property; (b) sales and holding prices of similar properties; and (c) highest and best use of the property.

The description of valuation techniques used and key inputs to fair valuation of investment properties are enumerated in Note 15 of the parent company financial statements.

5. Segment Information

Business Segments

For management purposes, the Company is organized into business units based on its products and services and has three reportable segments, as follows:

- The television and radio segment, which engages in television and radio broadcasting activities and which generates revenue from sale of national and regional advertising time.
- The international subscription segment, which engages in subscription arrangements with international cable companies.
- The Company's other businesses which include movie production, consumer products and other services.

The Executive Committee, the chief operating decision maker, and Management monitor the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on net income or loss and is measured consistently with the net income or loss in the parent company financial statements. The Company's performance is evaluated based on net income for the year.

Geographical Segments

The Company operates in two major geographical segments - local and international. Local refers to revenues earned in the Philippines, the home country. Significant portion of the revenues earned locally pertain to television and radio airtime. International refers to revenues earned in United States and in other locations (which include Middle East, Europe, Australia, Canada, Guam, Singapore, Hongkong and Japan). The Company ties up with cable providers to bring local television programming outside the Philippines.

The Company's revenues are mostly generated in the Philippines, which is the Company's country of domicile. Revenues from external customers attributed to foreign countries from which the Company derives revenue are individually and in aggregate immaterial to the parent company financial statements.

Noncurrent assets consisting of property and equipment, land at revalued amounts and investment properties are all located in the Philippines.

The Company does not have a single external customer whose revenue accounts for 10% or more of the Company's revenues.

Inter-segment Transactions

Segment revenues, segment expenses and segment results include transfers among business segments and among geographical segments. The transfers are accounted for at competitive market prices charged to unrelated customers for similar services.

Measurement Basis

The amount of segment assets and liabilities and segment profit or loss are based on measurement principles that are similar to those used in measuring the assets and liabilities and profit or loss in the parent company financial statements, which is in accordance with PFRS.

Cash in banks earn interest at the respective bank deposit rates. Short-term deposits are made for varying periods of up to three months depending on the immediate cash requirements of the Company, and earn interest at the respective short-term deposit rates. Interest rates of peso placements ranged from 0.25% to 6.25% in 2025 and 0.90% to 6.25% in 2024, while interest rates of foreign placements ranged from 3.00% to 4.70% in 2025 and 0.10% to 4.70% in 2024.

Interest income earned from bank deposits and short-term deposits amounted to ₱28.62 million and ₱14.44 million in 2025 and 2024, respectively.

Trade Receivables

Television and Radio Airtime. Television and radio airtime receivables are unsecured, noninterest-bearing and are generally on 60-90 day terms upon receipt of invoice by the customers. The receivables are normally collected within the next reporting period.

Television and radio airtime receivables include unbilled airtime receivables, arising when advertisements have been aired but billing or acceptance by the customer has been delayed due to time lag in completing all required documents. As of December 31, 2025 and 2024, the total unbilled airtime receivables, assessed as contract assets, amounted to ₱50.27 million and ₱45.30 million, respectively.

Subscriptions Receivable. Subscriptions receivable pertain to receivables from international channel subscriptions and advertisements. These are unsecured, noninterest-bearing and normally collected within the next reporting period.

Other Trade Receivables. These are unsecured, noninterest-bearing and are generally on 60-90 day terms upon receipt of invoice by the customers.

Nontrade Receivables

Related Parties. Terms and conditions of receivables from related parties are discussed in Note 21.

Other Nontrade Receivables. Other nontrade receivables include dividends receivable and receivables from insurance. These are noninterest-bearing and are normally collected within the next financial year (see Note 21).

Allowance for ECL on Trade Receivables

The allowance for ECL as at December 31, 2025 and 2024 are as follows:

	2025		
	Corporate	Individual	Total
Balance at beginning of year	₱823,031,332	₱10,309,538	₱833,340,870

As at December 31, 2025 and 2024, no property and equipment have been pledged as collateral or security for any of the Company's liabilities.

14. Land at Revalued Amounts

The movement of the land at revalued amount is shown below:

	2025			2024		
	Cost	Revaluation Increment	Total	Cost	Revaluation Increment	Total
At beginning of year	₱526,065,360	₱8,287,255,880	₱8,813,321,240	₱526,027,255	₱8,287,255,880	₱8,813,283,135

Revaluation increment recognized in 2025 and 2024 based on appraisal reports and management estimates amounted to ₱579.05 million and nil, respectively.

The fair value from the 2025 appraisals were determined using the "Market Data Approach" as determined by independent professionally qualified appraisers and based on its highest and best use. The fair value represents the amount that would be received to sell the property in an orderly transaction between market participants at the date of valuation in accordance with International Valuation Standards. The fair value is categorized under Level 3 of the fair value hierarchy.

As of December 31, 2025 and 2024, the fair value of land is directly proportional to the asking price of the comparable land and adjusted according to the following appraisal considerations:

Significant unobservable input	Range
Asking price per square meter	₱1,500 to ₱361,690
Sales price adjustment	10%
Lot size adjustment	5% to 20%

Significant increases (decreases) in asking price per square meter would result to significantly higher (lower) fair value of the properties. Significant increases (decreases) in the sales price adjustment and lot size adjustment would result in a significantly lower (higher) fair value.

Management believes that the carrying value of certain land acquired on 2021 approximates the fair values as at December 31, 2025 and 2024.

As at December 31, 2025 and 2024, no land has been pledged as collateral or security for any of the Company's liabilities and the Company has no restrictions on the realizability of its land and no contractual obligation to purchase, construct or develop land or for repairs, maintenance and enhancements.

Subscribed and issued	7,500,000,000	₱1,500,000,000

The cumulative preferred shares are of equal rank, preference and priority and are identical in all respect regardless of series. Preferred shares are participating at the rate of one fifth (1/5) of the dividends paid to common shares, the rate of which is adjusted proportionately by the Company's BOD consequent to any stock split or stock dividend declaration affecting the common shares and preferred shares. Preferred shares are convertible at the option of the shareholders at the ratio of five preferred shares to one common share, based on par value.

Preferred shares enjoy priority over common shares in the distribution of assets of the Company in the event of dissolution and liquidation, at such rates, terms and conditions as the BOD may determine. Each preferred share is entitled to one vote and shall have the same voting rights as the common shares.

The Company's BOD may specify other terms and conditions, qualifications, restrictions and privileges of the preferred shares or series/classes thereof, insofar as such terms, conditions, qualifications, restrictions and privileges are not inconsistent with the articles of incorporation and any applicable law or regulation.

The following summarizes the information on the Company's registration of securities with the SEC, which was approved on June 20, 2007, as required by Revised Securities Regulation Code (SRC) Rule 68:

Securities	Authorized and issued shares	Issue/Offer Price

Balance at end of year	₱1,637,660,363	₱1,205,994,140

Remeasurement gain (loss) on retirement plans amounting to (₱1,057.04 million) and ₱262.15 million in 2025 and 2024 respectively, is reported under the parent company statement of comprehensive income, net of deferred tax.

At each reporting period, the Company determines its contribution based on the performance of its retirement fund. The Company expects to contribute ₱1,000.00 million to the fund in 2026.

The funds are managed and supervised by Trustee banks for the benefit of the plan members. However, the general administration of the funds is vested in a Retirement Committee.

The following table presents the carrying amounts and estimated fair values of the plan assets:

	2025	2024
	Carrying Value/ Fair Value	Carrying Value/ Fair Value
Cash and cash equivalents	₱13,101,283	₱50,373,320
Equity instruments (see Note 21):		
GMA Network, Inc.	481,306,490	517,671,188
GMA PDRs	6,225,000	6,225,000
Debt instruments:		
Government securities	345,546,337	98,007,432
Investment in Unit Investment Trust Funds (UITFs)	309,190,277	241,406,587
Others	482,290,976	292,310,613
	₱1,637,660,363	₱1,205,994,140

The plan assets consist of the following:

- Cash and cash equivalents consist of regular savings and time deposits.
- Investments in equity instruments consist of listed shares of GMA Network, Inc. and GMA PDRs (see Note 21). Changes in the fair market value of these investments resulted in a loss of ₱70.33 million and ₱517.67 million in 2025 and 2024, respectively.
- Investments in debt instruments bear interest ranging from 4.8% to 6.8% and have maturities from May 2027 to April 2032. Equity and debt instruments held have quoted prices in active market.
- Investment in UITFs are measured at their net asset value per unit.
- Others consist of loans and receivables which are collectible within the next twelve months.

The person who exercises voting rights over shares is within the powers of the Trustee, who do not have any relationship with the directors or officers of the Company.

The plan assets are primarily exposed to financial risks such as liquidity risk and price risk.

Liquidity risk pertains to the plan's ability to meet its obligation to the employees upon retirement. To effectively manage liquidity risk, the Board of Trustees invests at least the equivalent amount of actuarially computed expected compulsory retirement benefit payments for the year to liquid/semi-liquid assets such as treasury notes, treasury bills, and savings and time deposits with commercial banks.

The Company performs an Asset-Liability Matching Study (ALM) annually. The principal technique of the Company's ALM in order to minimize the portfolio liquidation risk is to ensure the expected return on assets will be sufficient to support the desired level of funding arising from the defined benefit plans.

Price risk pertains mainly to fluctuations in market prices of equity securities listed in the Philippine Stock Exchange. In order to effectively manage price risk, the Board of Trustees continuously assesses these risks by closely monitoring the market value of the securities and implementing prudent investment strategies.

However, in the event a benefit claim arises under the retirement plan and the retirement fund is not sufficient to pay the benefit, the unfunded portion of the claim shall immediately be due and payable to the retirement fund from the Company.

The principal assumptions used in determining pension liability for the Company's plans are shown below:

	2025	2024
Discount rate	6.27%	6.07%
Expected rate of salary increase	4.00%	4.00%
Turn-over rates		
19-24 years old	14.63%	16.84%
25-29 years old	10.50%	15.96%
30-34 years old	8.68%	10.62%
35-39 years old	7.03%	8.02%
40-44 years old	2.42%	4.66%
≥45 years old	4.50%	6.16%

The sensitivity analysis below has been determined by remeasuring the defined benefit obligation at the reporting period after first adjusting one of the current assumption that were reasonably possible at the valuation date while all other assumptions remained unchanged. It should be noted that the changes assumed to be reasonably possible at the valuation date are open to subjectivity, and do not consider more complex scenarios in which changes other than those assumed may be deemed to be more reasonable.

	Increase (Decrease) in Basis Points	Increase (Decrease) in Defined Benefit Obligation	
		2025	2024
Discount rate	50	(P247,838,048)	(P217,786,115)
	(50)	263,245,266	236,761,345
Expected rate of salary increase	50	267,843,865	231,323,432
	(50)	(254,270,241)	(263,635,997)

Shown below is the maturity analysis of the undiscounted benefit payments as at December 31, 2025 and 2024:

	2025	2024
Less than one year	P1,946,931,863	P510,190,684

Merchandising license fees and others include income from mall shows, sale of DVDs and integrated receiver-decoders and income from events. Music royalty represents the remittance received from Filipino Society of Composers, Authors and Publishers (FILSCAP) for the use of the Company's music rights.

28. Agreements

Lease Agreements

Company as a Lessee. The Company entered into various lease agreements for land, building and studio spaces that it presently occupies and uses for periods ranging from two to 25 years. The lease agreements can be renewed subject to mutual agreement. Most of the lease agreements can be terminated at the option of the Company.

The Company also has certain leases with lease terms of 12 months or less. The Company applies the "short-term lease" recognition exemptions for these leases.

The rollforward analysis of right-of-use assets follows:

30. Financial Risk Management Objectives and Policies

The Company's principal financial instruments include cash and cash equivalents. The main purpose of these financial instruments includes raising financing for the Company's operations and managing identified financial risks. The Company has other financial assets and liabilities such as trade and other receivables, refundable deposits, trade payables and other current liabilities (excluding payable to government agencies, customers' deposits, contract liabilities, and advances from customers), short-term loans, obligations for program and other rights, dividends payable, other long-term employee benefits and lease liabilities which arise directly from its operations, and financial assets at FVOCI. The main risks arising from the use of financial instruments are liquidity risk, foreign currency exchange risk and credit risk. The Company is not exposed to interest rate risk as most of its financial assets and financial liabilities have fixed rates. The BOD reviews and approves the Company's objectives and policies.

Liquidity Risk. The Company is exposed to the possibility that adverse changes in the business environment and/or its operations would result in substantially higher working capital requirements and subsequently pose difficulty in financing the additional working capital.

The Company manages liquidity risk by using its cash and cash equivalents from operations to meet its short-term liquidity needs. The Company likewise regularly evaluates other financing instruments and arrangements to broaden the Company's range of financing sources.

The tables below summarize the maturity profile of the Company's financial assets and financial liabilities based on contractual undiscounted payments as at December 31:

Foreign Currency Exchange Risk. Foreign currency exchange risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. The Company's exposure to foreign currency exchange risk results from certain business transactions denominated in foreign currencies. It is the Company's policy to ensure that capabilities exist for active but conservative management of its foreign currency exchange risk.

The Company's foreign currency-denominated monetary assets and liabilities are as follows:

Assets	2025		2024	
	Foreign Currency	Local Currency	Foreign Currency	Local Currency
Cash and cash equivalents	\$12,817,185	₱753,522,319	\$7,275,042	₱420,824,784

In translating the foreign currency-denominated monetary assets and liabilities into Philippine peso amounts, the exchange rates used were ₱58.79 to \$1.00 and ₱57.85 to \$1.00, the Philippine peso to U.S. dollar exchange rate as at December 31, 2025 and 2024, respectively. The exchange rates for Philippine peso to Canadian dollar were ₱43.01 to CAD\$1.00 and ₱40.27 to CAD\$1.00 as at December 31, 2025 and 2024, respectively. The peso equivalents for the Singaporean Dollar, Australian Dollar, Dirham, and Euro were ₱45.82, ₱39.38, ₱16.01, and ₱69.25, and ₱42.69, ₱36.08, ₱15.80, and ₱60.47, as at December 31, 2025 and 2024, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in the exchange rates, with all other variables held constant, of the Company's income before income tax from reporting period up to next reporting period (due to changes in the fair value of monetary assets and liabilities). There is no impact on the Company's equity other than those already affecting profit or loss.

Credit Risk. Credit risk, or the risk of counterparties defaulting, is controlled by the application of credit approvals, limits and monitoring procedures. It is the Company's policy to enter into transactions with a diversity of creditworthy parties to mitigate any significant concentration of credit risk.

The Company ensures that sales of products and services are made to customers with appropriate credit history. The Company has an internal mechanism to monitor the granting of credit and management of credit exposures. The Company has made provisions, where necessary, for potential losses on credits extended. The Company's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of the instruments. The Company does not require any collateral for its financial assets, thus, maximum exposure to credit risk is equal to the carrying value of the financial instruments.

The table below shows the maximum exposure to credit risk for the components of the parent company financial position as at December 31:

	2025	2024

**Included under "Other noncurrent assets" account in the parent company statements of financial position (see Note 16).

The maximum exposure for cash and cash equivalents (excluding cash on hand) is the carrying amount less insured amount by the Philippine Deposit Insurance Corporation equivalent to the actual cash balance to a maximum of ₱0.50 million per depositor per bank. Beginning March 15, 2025, the insured amount has increased to ₱1 million per depositor per bank. The maximum exposure of trade and non-trade receivables and refundable deposits is equal to its carrying amount.

Credit quality of Financial Assets, Other than Trade Receivables

The financial assets of the Company are grouped according to stage whose description is explained as follows:

Stage 1 - Those that are considered current and up to 120 past due and based on change in rating delinquencies and payment history, do not demonstrate significant increase in credit risk.

Stage 2 - Those that, based on change in rating, delinquencies and payment history, demonstrate significant increase in credit risk, and/or are considered more than 120 to 360 days past due but does not demonstrate objective evidence of impairment as of reporting date.

Stage 3 - Those that are considered in default or demonstrate objective evidence of impairment as of reporting date.

The credit quality of the Company's financial assets are as follows:

Credit Quality of Trade Receivables

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segment with similar loss patterns (i.e., by customer type). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure of the Company's trade receivables using provision matrix:

Capital Management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The Company manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, pay off existing debts, return capital to shareholders or issue new shares.

The Company is not subject to externally imposed capital requirements.

No changes were made in the objectives, policies or processes for the years ended December 31, 2025 and 2024.

The Company monitors its capital gearing by measuring the ratio of interest-bearing loan to total equity. The Company's interest-bearing loans, which are the short-term loans, amounted to ₱1,450.00 million and ₱3,700.00 million as at December 31, 2025 and 2024, respectively. The Company's total equity as at December 31, 2025 and 2024 amounted to ₱13,260.38 million and ₱14,142.19 million, respectively.

As at December 31, 2025 and 2024, the fair value of equity instruments in a listed entity is classified under Level 3 due to the investee Company's suspension of trading in the market.

The fair values of equity instruments in listed and non-listed companies classified under Level 3 were determined through asset-based approach. Asset-based approach is based on the value of all the tangible and intangible assets and liabilities of the company. Presented below are the significant unobservable inputs used in the net asset valuation of the Company's financial assets in 2025 and 2024:

Description		Unobservable Inputs	Range	
			2025	2024
Listed equity instrument:				
Casinos and gaming industry	Discount for lack of marketability	10%-30%	10%-30%	
	Discount for lack of control	10%-30%	10%-30%	
Non-listed equity instruments:				
Media and entertainment industry	Discount for lack of marketability	10%-30%	10%-30%	
	Discount for lack of control	10%-30%	10%-30%	

An increase (decrease) in the significant unobservable inputs used in the valuation of the equity investments will decrease (increase) the fair value of the equity investments.

Movements in the fair value of equity investments classified under Level 3 are as follows:

	2025	2024
Balance at beginning of year	₱146,860,740	₱143,159,189
Additions during the year	—	5,757,846
Fair value adjustment recognized under “Net unrealized gain (loss) on financial assets at FVOCI”	2,566,595	(2,056,295)
Disposals during the year	(175,935)	—
Balance at end of year	₱149,251,400	₱146,860,740

Fair Value Determination

The following methods and assumptions are used to estimate the fair value of each asset and liability for which it is practicable to estimate such value:

Cash and Cash Equivalents and Trade and Other Receivables

The carrying values of cash and cash equivalents and trade and nontrade receivables approximate their fair values primarily due to the relatively short-term maturity of these financial instruments.

Refundable Deposits

The fair value of refundable deposits is based on the present value of the future discounted cash flows. Discount rates used range from 3.26% to 4.44% in 2025 and 2024.

Financial assets at FVOCI

The Company’s investments in club shares were based on prices readily available from brokers and other regulatory agencies as at reporting date (Level 2). The fair values of equity investments in listed and non-listed companies have been estimated using the net asset value model. The valuation using adjusted net asset approach requires the management to measure the fair value of the individual assets and liabilities recognized in an investee’s statement of financial position as well as the fair value of any unrecognized assets and liabilities at the measurement date.

Investment Properties and Land at Revalued Amounts

The valuation for the disclosure of the fair value of investment properties and for the recognition land at revalued amounts were derived through market data approach based upon prices paid in actual market transactions. This approach relies on the comparison of recent sale transactions or offerings of similar properties which have occurred and/or offered with close proximity to the subject property adjusted based on certain elements of comparison (e.g. market conditions, location, physical condition and amenities). Significant unobservable valuation input in determining the fair value of investment properties includes adjusted price per square meter that ranges from ₱1,400 to ₱117,000. On the other hand, significant unobservable valuation input in determining the fair value of land at revalued amount includes adjusted price per square meter that ranges from ₱1,500 to ₱361,690.

Significant increases (decreases) in estimated price per square meter would result in a significantly higher (lower) fair value of the properties.

Trade Payables and Other Current Liabilities (excluding Payable to Government Agencies and Advances from Customers), Short-term Loans, Obligations for Program and Other Rights and Dividends Payable

The carrying values of trade payables and other current liabilities, short-term loans, current portion of obligations for program and other rights and dividends payable approximate their fair values due to the relatively short-term maturity of these financial instruments.

Lease Liabilities

The fair value is based on the discounted value of future cash flows using the applicable rates for similar types of loans plus the applicable credit spread. Discount rates used ranged from 4.12% to 7.66% in 2025 and 4.26% to 8.87% in 2024.

Obligations for program and other rights

Estimated fair value is based on the discounted value of future cash flows using the applicable risk-free rates for similar types of loans adjusted for credit risk.

32. EPS

The computation of basic and diluted EPS follows:

	2025	2024
Net income of the Company (a)	₱2,170,836,935	₱2,028,423,743

ANNEX "B"

The background of the cover is a vibrant blue with a complex, low-poly geometric pattern. A large, stylized number '25' is rendered in a light blue, faceted, 3D style, with the '2' and '5' overlapping. The '5' has a circular cutout at its base. The GMA logo, featuring the letters 'GMA' in a bold, blue, sans-serif font with a colorful, multi-colored heart shape above the 'A', is positioned to the left of the '25'. To the right of the '25', the words 'SUSTAINABILITY' and 'REPORT' are stacked vertically in a bold, brown, sans-serif font, separated by a thin vertical line.

25 R E P O R T

GMA Network's 2025 sustainability report, covering the year ended December 31, 2025, was prepared using the Global Reporting Initiative (GRI) standards as guide. This report outlines disclosures about our economic, environmental, social, and governance impacts, specific to the topics deemed material to the Network.

In addition, the report describes how GMA Network supports the 17 United Nations Sustainable Development Goals (UN SDGs).

This report has been prepared in accordance with the GRI Standards: Core option. It should be read in conjunction with GMA Network's 2025 Annual Report. Both reports may be accessed on the GMA Network website (www.gmanetwork.com).

GMA Network welcomes feedback and questions regarding this report or its contents through our Chief Risk Officer (CRO) Regie C. Bautista (sustainability@gmanetwork.com).

FROM THE CEO

Ten years ago, countries convened in Paris and agreed to limit global warming to well below 2°C above pre-industrial levels, with an aspirational target of 1.5°C. However, over time, progress has been tempered by policy reversals and persistent challenges to climate action, slowing momentum.

The science remains clear. Assessments by the Intergovernmental Panel on Climate Change predict that ocean warming and sea level rise will continue for centuries, with consequences unfolding across centennial to millennial timescales. As recorded by the Philippine Atmospheric, Geophysical and Astronomical Services Administration (PAGASA) in 2025, the Philippines experienced overlapping climate and geophysical events, including 23 tropical cyclones and repeated seismic activity with recurring aftershocks, several of which occurred in close succession or simultaneously.

This is the reality of a warming world. Extreme weather patterns are, among others, giving rise to heavier rainfall and severe flooding, while rising temperatures place growing pressure on human health, agriculture, energy, and so on.

In this environment—where climate risks are intensifying and understanding is often fragmented—the role of credible institutions becomes even more critical.

At GMA Network, this responsibility is clear: to uphold accuracy, provide context, and ensure that reliable information reaches the public when it matters most. Marking our 75th year in 2025, we continue to draw on decades of experience in delivering credible news, public service, and programs that resonate with Filipinos across generations.

Our efforts to date have been shaped by partnerships and collaboration. We have worked with organizations to advance environmental awareness, support sustainable livelihoods, and engage our employees in activities that contribute to nature-based solutions. Our artists and platforms have also served as

advocates for these causes—bringing greater visibility to environmental issues and encouraging public participation. Our track record in wildlife, sustainable tourism, and small enterprise storytelling has been well received, reflecting the growing audience interest in content that highlights both environmental stewardship and inclusive growth.

As the first and only broadcast media member of the United Nations Global Compact Network Philippines, we remain committed to supporting the United Nations Sustainable Development Goals. We have translated these commitments into action by producing content aligned with universal principles on human rights, labor, and the environment—contributing to broader societal progress.

At a time of growing uncertainty, the need for credible, trusted voices has never been greater. As the Filipinos' most trusted network, we will continue to uphold truth, strengthen public understanding, and serve with responsibility—because the challenges before us are great and Filipinos deserve nothing less.

Dahil sa huli, ang mga isyung ito ay hindi lamang tungkol sa datos o ulat—kundi sa pang-araw-araw na buhay ng mga taong ating pinaglilingkuran.

Patuloy kaming maninindigan para sa katotohanan, at patuloy na maglilingkod nang may malasakit.

Maraming salamat sa inyong patuloy na pagtitiwala, mga Kapuso.

ABOUT GMA NETWORK

GMA Network was founded by Robert La Rue Stewart in 1950 as Loreto F. de Hemedes, Inc. (later renamed Republic Broadcasting System, Inc. (RBS)) with flagship AM radio station DZBB. RBS ventured into television in 1961 and began broadcasting on Channel 7 in the Greater Manila Area.

In 1974, the triumvirate of Felipe L. Gozon, Menardo R. Jimenez, and Gilberto M. Duavit took over the management of RBS. In 1996, RBS was renamed GMA Network, Inc.

Also known as the Kapuso Network, GMA brings superior Entertainment and responsible, unbiased, and timely delivery of comprehensive and accurate News and Information to Filipinos anywhere in the world—through its TV, radio, online platforms, and wide array of other media-related ventures: program syndication, film production, music publishing and distribution, set design, audio-visual production, and new media.

Based on Nielsen TV Audience Measurement data for January to December 2025, GMA channels (GMA, GTV, and other GMA DTT channels) registered a combined people net reach of 87.5% or approximately 63 million TV viewers reached in Total Philippines. Headquartered in Quezon City, GMA operates a network of 115 TV stations and 21 radio stations throughout the country.

Officially listed on the Philippine Stock Exchange in 2007, GMA Network, Inc. is regarded as one of the most notable organizations that promote sustainability in the country, being the first media and broadcasting company in the Philippines to sign with the United Nations (UN) Global Compact.

REALIZING THE URGENCY OF PROTECTING THE ABILITY OF FUTURE GENERATIONS TO MEET THEIR NEEDS, GMA NETWORK PROMOTES SUSTAINABLE MEASURES IN MANAGING THE RESOURCES WE USE IN OUR DAY-TO-DAY OPERATIONS.

SUSTAINABILITY INITIATIVES

FURTHER, THE NETWORK RECOGNIZES THAT THE SOCIAL, ENVIRONMENTAL, AND ECONOMIC CONCERNS OF OUR STAKEHOLDERS, BOTH INTERNAL AND EXTERNAL, ARE AT TIMES IN TENSION AND WE CONTINUOUSLY SEEK WAYS TO ADDRESS THEM EFFECTIVELY, EFFICIENTLY, AND INNOVATIVELY.

STRATEGY

OUR SUSTAINABILITY STRATEGY IS GROUNDED ON EFFECTIVE CORPORATE GOVERNANCE FOR AN ETHICAL AND RESPONSIBLE NETWORK.

At the heart of our strategic approach is the management of our key economic, environmental, and social impacts. To achieve this, we establish productive and meaningful partnerships with individuals and organizations. GMA's socio-civic arm, the GMA Kapuso Foundation, allows us to extend the reach of our community service by fostering such partnerships with trusted institutions.

We ensure accurate reporting of key impacts not just for compliance purposes but for effective measurement and continuous improvement of our existing efforts.

Ultimately, we strive to create value through sustainable Network operations.

GOVERNANCE

GMA NETWORK, INC. IS COMMITTED TO THE PRINCIPLES OF GOOD GOVERNANCE AND RECOGNIZES THEIR IMPORTANCE IN SAFEGUARDING SHAREHOLDERS' INTERESTS AND IN ENHANCING SHAREHOLDER VALUE.

Compliance with the principles of good governance starts with the Company's Board of Directors. The Board of Directors is responsible for oversight of the business, determination of the Company's long-term strategy and objectives, and management of the Company's risks by ensuring that adequate internal controls and procedures are established and observed. The Board of Directors ensures a high standard of governance, and promotes and protects the interests of the Network, its stockholders, and other stakeholders.

The Board of Directors consists of nine (9) Directors, two (2) of whom are Independent Directors. All 9 Members of the Board have the expertise, professional experience, and background that allow for a thorough discussion and deliberation of all issues and matters affecting the Network.

BOARD COMMITTEES

FIVE (5) COMMITTEES WERE ESTABLISHED TO AID THE COMPANY IN COMPLYING WITH THE PRINCIPLES OF GOOD GOVERNANCE AND ADDRESSING ISSUES REQUIRING THE BOARD'S ATTENTION.

EXECUTIVE COMMITTEE

The Executive Committee (Excom) consists of three (3) members, which include the Chairman of the Board and Adviser Atty. Felipe L. Gozon, President and CEO Mr. Gilberto R. Duavit, Jr., and Director Mr. Joel Marcelo G. Jimenez. Mr. Joel Marcelo G. Jimenez serves as Chairman of the Committee. The Excom acts on matters delegated to it by the Board of Directors, and by a majority vote in accordance with the authority granted by the Board. All actions of the Excom are reported to the Board for ratification at the meeting immediately following such action.

The jurisdiction of the Executive Committee has been expanded to include the functions and responsibilities of the Corporate Governance Committee, except those pertaining to the nomination and election of directors and the procedure for determining the remuneration of directors and officers, which remain vested in the Nomination Committee and the Compensation and Remuneration Committee, respectively, as well as the power to evaluate the performance of the Board of Directors as it pertains to the stockholders and the duly elected Board directors themselves.

NOMINATION COMMITTEE

The Nomination Committee is chaired by Atty. Felipe L. Gozon and composed of four (4) members that include an Independent Director in the person of former Chief Justice Artemio V. Panganiban (Vice Chairman), and Mr. Gilberto R. Duavit, Jr. and Mr. Joel Marcelo G. Jimenez as members thereof. The mission of the Nomination Committee is to provide the shareholders with an independent and objective evaluation and assurance that the membership of the Board of Directors is competent and will foster the long-

term success of the Network and secure its competitiveness. The Nomination Committee assists the Board of Directors in ensuring that all nominees to the Board of Directors are competent and qualified to be nominated as Director based on internal guidelines. This is to ensure that there is a proper mix of competent directors that would continuously improve shareholders value; and that the elected Directors ensure a high standard of best practices for the Network and its stakeholders.

COMPENSATION AND REMUNERATION COMMITTEE

The members of the Compensation and Remuneration Committee are Atty. Felipe L. Gozon (Chairman), former Chief Justice Artemio V. Panganiban (Vice Chairman), with Mr. Gilberto R. Duavit, Jr. and Ms. Laura J. Westfall as members thereof. The Committee recommends a formal and transparent framework of remuneration and evaluation for the members of the Board of Directors and key executives to enable them to run the Network successfully.

AUDIT COMMITTEE*

The Audit Committee is currently composed of the following: Dr. Jaime C. Laya (Chairman), former Chief Justice Artemio V. Panganiban (Vice Chairman), and Ms. Judith R. Duavit-Vazquez, Ms. Laura J. Westfall, and Mr. Joel Marcelo G. Jimenez as members thereof. The Audit Committee assists the Board in its fiduciary responsibilities by providing oversight capability and ensuring that systems and processes are designed to provide assurance in the Company's financial reporting, internal control systems and policies, internal and external audit processes, compliance with applicable laws and regulations, and overseeing management in the establishment and maintenance of an adequate, effective and efficient internal control framework to guide the Company's operations and the safeguarding of its assets.

The Internal Audit Office, which is headed by Officer-in-Charge Atty. Janelle Crystel C. Javier and acts as the Secretariat of the Audit Committee, assists the Audit Committee in monitoring and evaluating the adequacy and effectiveness of the Company's internal control system, the integrity of financial reporting, and the security of physical and information assets, with the end in goal of maintaining a system of checks and balances aimed at: (a) safeguarding the company resources and ensure their effective utilization, (b) preventing occurrence of fraud and other irregularities, (c) protecting the accuracy and reliability of the company's financial data, and (d) ensuring compliance with applicable laws and regulations.

RISK OVERSIGHT COMMITTEE*

The Risk Oversight Committee is currently composed of the following: former Chief Justice Artemio V. Panganiban (Chairman), Ms. Laura J. Westfall (Vice Chairman), and Dr. Jaime C. Laya, Ms. Judith R. Duavit-Vazquez and Atty. Anna-Teresa M. Gozon-Valdes as members thereof. The Risk Oversight Committee assists the Board in its fiduciary responsibilities by providing an independent and objective evaluation of, and assurance to the Network's management and stakeholders on, the utmost functionality and effectiveness the Company's enterprise risk management system, to ensure that risks especially in the areas of managing credit, market liquidity, operational, legal and other relevant risks to the Company, are properly identified, evaluated and managed, that the Board of Directors and top management make well-informed decisions considering risks related to business activities, plans and opportunities, and the continuous improvement in the Company's risk management systems.

The Corporate Strategic Planning and Business Development (CSPBD) Department, headed by Chief Risk Officer Ms. Regie C. Bautista, acts as the Secretariat of the Risk Oversight Committee and provides relevant information to the committee for decision-making on economic, environmental, and social topics.

* Subject to the separation or division of the former Audit and Risk Management Committee into the Audit Committee and the Risk Oversight Committee to be reflected in the Revised Manual of Corporate Governance that is undergoing preparation/review as of April 2026.

REPORTING PRACTICE

GMA NETWORK, INC. ADHERES TO A HIGH LEVEL OF CORPORATE DISCLOSURE AND TRANSPARENCY STANDARD REGARDING THE NETWORK'S FINANCIAL CONDITION AND STATE OF CORPORATE GOVERNANCE.

Through the Investor Relations and Compliance Division (IRCD), shareholders are provided disclosures, announcements, and periodic reports filed with the Securities and Exchange Commission (SEC) and the Philippine Stock Exchange (PSE). These are also available online through the Investor Relations portion of the Network's website www.gmanetwork.com/corporate/ir/.

Through the IRCD and Corporate Affairs and Communications Department, we publish press releases on the performance of the Network. Audited financial statements are submitted to the SEC on or before the prescribed period, and are made available to shareholders.

We process information in accordance with the Data Privacy Act of 2012 and its implementing rules and regulations, and adopt reasonable physical and technical security measures to safeguard the same. Moreover, the Network executes and adheres to non-disclosure/confidentiality agreements, respecting trade secrets and confidential information of parties and business partners we transact with.

GMA'S SUSTAINABILITY REPORTING IS GUIDED BY THE FRAMEWORK ILLUSTRATED HERE IN ORDER TO MAKE THE PROCESS RELEVANT AND VALUE ADDING:

AFTER MEANINGFUL DIALOGUES AMONG KEY STAKEHOLDERS, GMA'S DETERMINED MATERIAL TOPICS FOR REPORTING ARE THE FOLLOWING:

SOCIAL

- Employment
- Occupational health and safety
- Training and education
- Diversity and equal opportunity
- Local communities

ENVIRONMENTAL

- Energy consumption within the organization
- Water consumption
- Waste by type and disposal method
- Environmental compliance

ECONOMIC

- Financial implications and other risks and opportunities due to climate change
- Procurement practices
- Operations assessed for risks related to corruption

SOCIETY IMPACT

OUR COMMITMENT TO A SUSTAINABLE
FUTURE BEGINS WITH BUILDING A STRONG,
PRODUCTIVE, AND RESPONSIBLE WORKFORCE.

Because our people are our best assets, we strive to create a working environment that promotes our vision for the Network to be the employer of choice in the industry. Aligned with our corporate value of striving for excellence in everything we do, we provide opportunities to the most capable and highly qualified who can deliver top notch performance. Equally important is that we embrace those with integrity and values aligned with the Network's and possess the right attitude and appreciation towards hard work.

Joining the Kapuso family entails access to competitive benefits that aim to attract and retain the best people. Just as we focus on quality

and excellence in our operations, we employ the same dedication in making sure that our people achieve their best potential in GMA—through training, meaningful working experience, coaching, mentoring, a culture that allows continuous learning to thrive, equal opportunities for career advancement, and conducting periodic constructive performance evaluations to monitor and guide growth.

With sincere care for our employees, we prioritize the health and safety in the workplace. Beyond the requirements mandated by the government, our enterprise risk management policies and standard practices allow stakeholders to identify, assess, and effectively manage and mitigate significant risks that may compromise the well-being of our people.

EMPLOYMENT

We have teams throughout the Philippines, with the majority stationed at our headquarters in Metro Manila.

To meet our operational and business expansion needs, we are in continuous search for resources and talents. When vacancies open, we first identify qualified and deserving employees within the Network, and recommend their transfer or promotion. In meeting requirements that cannot be addressed internally, we establish strategic partnerships with organizations that allow us to augment our reach, and tap a wider and more diverse pool of candidates.

In accordance with the law, GMA Network recognizes the right of employees to voluntarily resign. Likewise, we may also choose to let go of an employee for just or authorized cause, and upon observance of due process.

In order to mitigate significant negative occupational health and safety impacts directly linked to the Network's operations, and the related hazards and risks, GMA continuously and consistently implements our safety and health programs. Moreover, risk assessment is periodically conducted in compliance with the Network's risk management policy.

TRAINING & EDUCATION

WE HAVE INSTITUTED A TRAINING AND DEVELOPMENT PROGRAM THAT IS ANCHORED IN VALUING OUR EMPLOYEES AS OUR BEST ASSETS.

It is the policy of GMA Network to provide continuous learning opportunities to our people for their growth and empowerment, and with due consideration of their current skills, the requirements of their current jobs, and the requirements of the business. We develop in-house training curricula, and in some circumstances, partner with external organizations and professional institutions in the Philippines and abroad.

We continue to evolve with the changing times by offering training programs through flexible delivery methods—either in-person or online. This adaptability allows us to meet varying needs and preferences while ensuring the quality and effectiveness of our programs.

Our employees are provided with regular performance and career development reviews. Training opportunities are given to employees when there is/are:

- Anticipated changes in technology, which consequently require new knowledge, skills, and behaviors in adapting the new/change of technology
- A need to prepare employees for higher responsibilities or when they are considered as “internal replacements” for key leadership roles
- A need to enhance existing knowledge, skills, and behavior to meet heightened standards of excellence, efficiency, and/or creativity dictated by the market or the industry
- Gaps in knowledge and skills of critical functional areas that affect individual or work group effectiveness
- A need to reinforce awareness and consistent implementation of correct practices and procedures to ensure safety of employees and the proper handling of equipment and use of technical facilities

The Human Resources Development Department (HRDD) or the group/department under which employees belong may initiate the following trainings:

- HRDD-initiated training and development programs
 - Programs that are applicable for employees across the organization. These programs include, but not limited to, the following:
 - o Management development programs
 - o Staff development programs
 - o Work attitudes and values enhancement program
 - o Succession development programs
 - o Competency development programs
 - o Occupational safety and health (OSH) programs (e.g., Safety Officers Training, 8-Hour Mandatory Training on OSH)
- Department-initiated training programs - These are specialized functional and skills trainings identified by the group/department to address developmental requirements (functional, technical, or creative) and to support operational efficiencies in meeting group/department objectives. Examples are:
 - o Learning Session on High-Definition Standards
 - o Cinematography, video editing, camera training, audio training, cinematography, etc.
 - o IT and business enterprise system-related courses
 - o TV production trainings (e.g., news production, news writing, etc.)

Apart from the year-round learning and development programs, the online system application for the Succession Planning Program, developed by HRDD with the support of the ICT Department, continues to be a vital tool on the One Digital HR website. This ODHR App enables the online enrollment of potential candidates from within for key or critical positions that may become vacant due to compulsory retirement.

Additionally, the Network has developed its own Learning Management System (LMS), where in-house courses and training programs are made available to employees. Among these courses is the 8-Hour Mandatory Training for Occupational Safety and Health, which all employees are required to complete.

Another recent initiative of HRDD is the development of the Artificial Intelligence HR Bot, which allows employees to conveniently inquire about HRDD policies and procedures. Through this tool, employees can quickly access HR-related information, provide faster guidance, and enhance employee support services.

Moreover, GMA Network provides transition assistance programs for soon-to- retire employees through the Pre-Retirement Program. This program has modules on Preparing Self for Retirement and Financial Literacy. Additionally, we continue to assist retired employees through the GMA Employees' Multi-Purpose Cooperative (GEMPC). The GEMPC is a closed-type cooperative organization that is exclusive to employees of GMA Network and its subsidiaries, including those who have retired.

A transition assistance program is also provided to resigned employees to facilitate their continued employability. On a per request basis, we issue Certificate of Employment and/or Certificate of Training.

DIVERSITY & EQUAL OPPORTUNITY

THE NETWORK PROVIDES OPPORTUNITIES TO INTERESTED, QUALIFIED, AND DESERVING APPLICANTS REGARDLESS OF GENDER, AND WITHOUT PREJUDICE TO THOSE BELONGING TO THE VULNERABLE SECTOR (E.G., THE ELDERLY, PERSONS WHO ARE DIFFERENTLY ABLED, SOLO PARENTS, ETC).

We believe that by embracing diversity and equal opportunity in our workforce, we are supporting a progressive culture that is optimal and conducive to achieving the best results in our operations. Our inclusiveness is key in advancing our goal to attract and retain the best people.

LOCAL COMMUNITIES

GMA REGIONAL TV (RTV) REMAINS TRUE TO ITS "LOCAL NEWS MATTERS" CAMPAIGN.

With stations strategically located across the country, GMA Regional TV (RTV) consistently provides viewers access to local regional news across the Philippines.

Our commitment to producing local news programs and specials that are primarily geared to stories, voices, and viewership in the regions has earned the trust of Filipino viewers all over the country.

In 2025, the combined net reach of GMA Regional TV newscasts is at 28% of TV households nationwide, with an estimated 17 million TV viewers. Across regions, RTV's newscasts in Total Visayas logged the highest net reach at approximately 69%, with an estimated 7.7 million TV viewers. (Source: Nielsen Philippines TAM [Arianna] Official Data)

FLAGSHIP UNIFIED NEWS PROGRAMS ON REGIONAL CHANNELS

- Balitang Bisdak (aired via GMA Cebu and broadcasted in Central and Eastern Visayas)
- One Mindanao (aired via GMA Davao, GMA General Santos and GMA Cagayan de Oro and broadcasted in Northern, Eastern, South Central, Western, and Southern Mindanao)
- One Western Visayas (aired via GMA Iloilo and GMA Bacolod and broadcasted in Western Visayas)

- One North Central Luzon (aired via GMA Dagupan and broadcasted in North Central Luzon)

BALITANG BARANGAY SEGMENT

RTV's local news programs have public service segments customized for each region. The segments feature a wide array of relevant issues within the community, such as:

- Complaints culled from phone calls, emails, texts, and messages through our social media accounts from concerned citizens asking intervention for immediate action from local government units (LGUs) and government offices for community issues such as garbage collection, leaks in water pipes, potholes on roads, and unfinished government-funded road projects and other infrastructure.
- Best practices of barangays worth emulating by other communities.

KAPUSO FIESTAS AND EVENTS

RTV and Synergy continue to entertain and bring the Kapuso brand all over the nation through fiestas, festival participations, mall shows, and other on-ground events.

In 2025, RTV and Synergy participated in and/or mounted 28 Kapuso Fiestas, 36 Kapuso Artist Spotlights, 23 Kapuso Mall Shows, and 13 Masterclasses, totaling to 100 events.

RTV AND SYNERGY PARTNERSHIPS

RTV and Synergy organized a Bloodletting Day in February 2025, in 11 areas all over the country, collecting a total of 605 bags of blood donated to the Philippine Red Cross.

RTV and Synergy partnered with local universities and colleges for the award-winning GMA Masterclass Series conducted nationwide in 2025. A total of 13,862 attendees with students, the academe, and even professionals, were inspired and learned from esteemed GMA resource speakers who are regarded as among the best in their fields.

OTHER FEATURE SEGMENTS

In addition to public service segments, RTV's local programs also feature other stories that shine the spotlight on the rich culture and various interesting discoveries and treasures of the Philippine regions:

- GMA Regional TV Presents - A platform for Filipinos in the regions, including minority and tribal groups, through mini-documentaries on personalities and issues

- Kwento ng Pilipino - Stories of triumph about ordinary Filipinos told from their own perspective and stories highlighting the uniqueness and diversity of Filipino minority and tribal groups
- #SpreadKindness - Acts of kindness done by and for ordinary Filipinos
- Suroy Ta! / Lagaw Ta / My Western Visayas / Manlaag Ta / Trip Natin - Travel features on local scenic spots, whether established or newly discovered or on the off-beat tracks, within the local news programs' areas of responsibility
- Namit Guid / Mangan! / Kumbira / Lami Sya - Features on unique and popular dishes and delicacies
- May Trabaho Ka, Kapuso! - Job listings from DOLE Public Employment Service Offices (Provincial PESO); with emphasis that job opportunities are available locally in the regions
- Kapuso sa Kalikasan (all areas) - Regional stories and issues on the environment and its protection, as well as initiatives of local communities for sustainable development

ENVIRONMENT IMPACT

OUR OPERATIONS ALL OVER THE PHILIPPINES CONTRIBUTE TO OUR CARBON FOOTPRINT, WHICH WE CONTINUOUSLY AIM TO REDUCE EFFICIENTLY AND EFFECTIVELY.

In addition to the GMA Network Center (our headquarters located in Metro Manila), we have regional offices and TV/radio studios in 7 other cities and provinces—Dagupan, Iloilo, Bacolod, Cebu, Cagayan De Oro (Northern Mindanao), Davao (Southern Mindanao), and General Santos.

For wider broadcast coverage, we operate 115 TV and 21 radio transmitters throughout the archipelago, usually in remote areas with vegetation. Optimal locations are strategically identified, and deployments are carefully planned to ensure that we maximize the coverage of every single transmitter site. In the process, among our priorities is compliance with applicable laws and regulations, such as the Presidential Decree No. 1586 Establishing An Environmental Impact Statement System, Including Other

Environmental Management Related Measures And For Other Purposes. We secure Environmental Compliance Certificates (ECC) from the Department of Environment and Natural Resources (DENR), as mandated by the government.

Through our Kapuso ng Kalikasan (KNK) program, we partner with various environmental organizations with advocacies that are aligned with our commitment to protect Mother Earth. Within GMA premises, we adopt green practices that promote environmental conservation in every way we can.

ENERGY CONSUMPTION

AS PART OF ADVANCING OUR SUSTAINABILITY GOALS, THE ENERGY WE CONSUME WITHIN THE GMA COMPLEX AND IN THE REGIONS IS PERIODICALLY MONITORED.

We are constantly in the lookout for new technology to increase the efficiency of our energy utilization or to reduce our energy requirements.

Over the years, we have successfully implemented energy-saving measures and projects that resulted in an estimated electricity savings of up to 300,000 KWH per month. Some of these initiatives include designating operating hours for the use of lighting and air-conditioning units in the studios, the replacement of chillers from centrifugal type to screw type and magnetic type, phase-out of conventional fluorescent lighting to light-emitting diodes (LEDs), deployment of Variable Frequency Drives for the Air-Handling Units, and phasing out of conventional air-conditioning units to inverter-type. We have completed our first solar plant with a 10KW peak production at the GMA Fleet Center and started to use solar-powered perimeter lights in our Dagupan Station and Tagaytay property.

Our main source of energy is electricity from power distribution companies, and electric distribution utilities or electric cooperatives situated in different cities and regions.

We consume diesel for most of our company vehicles and for the generator sets we use as back-up power supply in case of power interruptions and outages in the GMA Network Center, regional offices, and transmitter sites. Generator sets are also the main power source to operate our remote facilities during electronic and news gathering, satellite news gathering, and outside broadcast vans for live news reporting and field production taping. The installation and commissioning of new transmitters results in consumption of electricity as well.

In compliance with the Philippine Clean Air Act of 1999 (Republic Act No. 8749), a comprehensive air quality management policy and program that aims to achieve and maintain healthy air for all Filipinos, we secure the necessary permits from the DENR to operate our generator sets. Quarterly, we submit self-monitoring reports on the fuel we consume. All generator sets undergo strict preventive maintenance and annual emission tests conducted by a third-party accredited by the DENR.

IN 2025, OUR CONSOLIDATED ENERGY CONSUMPTION BASED ON OUR MONITORING AND ON MONTHLY METER READINGS IS AS FOLLOWS:

	2025 (in GJ)
Total fuel consumption within the organization from non-renewable sources	46,704
Total fuel consumption within the organization from renewable sources	129
Total electricity consumption	127,698
Total electricity sold	0
Total energy consumption within the organization	174,532

WATER CONSERVATION

The treated wastewater from the plant is recycled for sanitation purposes within the headquarters. Through this system, we save at least 2,250.20 cubic meters or 2,250,200 liters of potable water every year, and we continue to explore ways to expand the use and benefits of the facility.

TO REDUCE OUR WATER SUPPLY REQUIREMENTS, THE SEWAGE TREATMENT PLANT (STP) AT THE GMA COMPLEX WAS USED TO TREAT DOMESTIC WASTEWATER.

Our supply comes from water service providers in locations where we operate, except in Cebu where we have our own water pump that meets the needs of the entire station.

	2025 (in MEGALITER)
Total water consumption from all areas	58.56
Total water consumption from all areas with water stress	0.00

RESPONSIBLE DISPOSAL OF WASTES

FOR THE HEALTH AND SAFETY OF OUR PEOPLE
AND TO MITIGATE ANY HARMFUL IMPACT ON THE
ENVIRONMENT, WE ARE COMMITTED TO ENSURE THAT
WASTES GATHERED AND COLLECTED IN OUR STATIONS
ARE PROPERLY HANDLED AND DISPOSED.

We have instituted strict housekeeping rules and sanitary practices in our offices and transmitter sites, and encourage recycling by segregating wastes.

One of our approaches is the appointment of Pollution Control Officers (PCO) in our main headquarters and transmitter sites, as required by the DENR. According to the guidelines under DENR's Department Administrative Order (DAO) 2014-02, the PCO is a technical person competent in pollution control and environmental management, performs the duties and responsibilities in a particular establishment, and is officially accredited by the Environmental Management Bureau (EMB) Regional Office to perform such responsibilities.

To comply with the Philippine Clean Water Act (Republic Act No. 9275), which aims to protect the country's water bodies from pollution from land-based sources, we have a discharge permit from the Laguna Lake Development Authority (LLDA) for the operation of our STP. We periodically check the wastewater discharge of the system and conduct laboratory testing as a requirement for self-monitoring and compliance monitoring.

With the issuance of DENR's DAO 2016-08 Water Quality Guidelines and General Effluent Standards of 2016, we submitted a Compliance Action Plan to the LLDA office for the improvement of our STP. The DAO 2016-08 provides guidelines for the classification of water bodies in the country, determination of time trends and the evaluation of stages of deterioration/enhancement in water quality, evaluation of the need for taking actions in preventing, controlling, or abating water pollution. To strictly comply with the standards set by this DAO, we have also contracted the services of a third-party laboratory to test in-house wastewater parameters.

The Toxic Substance and Hazardous Wastes (Republic Act No. 6969) under the DENR covers the import, manufacture, processing, handling, storage, transportation, sale, distribution, use, and disposal of unregulated chemical substances and mixtures in the Philippines. As required by this law, the hazardous wastes that we generate—such as tapes, used engine oils, busted fluorescent lamp (BFL), empty paint cans, contaminated rags, grease, defective LED, and others—are treated, recycled, and appropriately disposed through a third-party hazardous waste treatment group accredited by the DENR.

The Ecological Solid Waste Management Act (Republic Act No. 9003) provides for a comprehensive ecological solid waste management program by creating the necessary institutional mechanisms and incentives, appropriating funds, declaring certain acts prohibited, and providing penalties. GMA applied for an Environmental Permit to Operate (Environmental Clearance) to the Quezon City Environmental Protection and Waste Management Department pursuant to City Ordinance No. 1729 Series of 2006.

IN 2025, THE TOTAL WASTE WE GENERATED BASED ON OUR MONITORING IS AS FOLLOWS

	2025 (in KG)
a. Total weight of hazardous waste	3,792
b. Total weight of non-hazardous waste, with a breakdown by the following disposal methods:	155,480
i. Reuse	484
ii. Recycling	11,892
iii. Composting	2,373
iv. Landfill	140,731

ECONOMY IMPACT

STRENGTHENING GROWTH THROUGH STRATEGIC PARTNERSHIPS AND INVESTMENTS, SOUND FINANCIAL MANAGEMENT, AND SOCIAL RESPONSIBILITY

To broaden our business and sustain long-term growth, we stay attuned to market developments and strategically maximize our existing content to generate favorable economic results.

Our capital investments are carefully planned to expand reach and enhance coverage while ensuring cost-efficiency for our stakeholders. Each project undergoes regular performance evaluations to deliver net positive outcomes without compromising the value we provide to our customers and viewers. In terms of content production, we've adopted a business model that allows stakeholders to forecast potential returns, leading to smarter and more efficient resource allocation.

One of GMA Network's greatest strengths lies in our disciplined financial management, consistently achieving profitability margins above industry averages. As a publicly listed company, we prioritize delivering strong, healthy returns to our investors while upholding our responsibilities to all stakeholders.

Since our Initial Public Offering (IPO) in 2007, we have upheld our commitment to distribute at least 50% of the previous year's net income after tax as dividends. In fact, we have consistently exceeded this benchmark, with annual dividend payouts averaging over 90% of net income after tax. Over the past 18 years, the average dividend yield based on IPO price has reached 8% annually. In the last five years alone, yields based on year-end closing prices have averaged 9%—outperforming money market instruments and blue-chip investments.

Our ability to manage costs and funds prudently is a key competitive advantage. We maintain modest reliance on external borrowings, instead, we aim to support our operations and expansion efforts with internally generated cash flows. This financial discipline enables us to continuously invest in infrastructure nationwide and diversify our business, all while preserving a strong balance sheet and robust financial performance.

Recognizing that our employees are integral to the Network's continued success, we offer compensation and benefits that exceed legal standards. This commitment helps promote the socio-economic well-being of our people and reflects the value we place on our most important asset—our workforce.

As responsible corporate citizens, we contribute significantly to government revenues by fulfilling our tax obligations at both national and local levels. We also partner exclusively with reputable and trustworthy suppliers and service providers, ensuring we deliver value and foster synergies across our network.

Finally, giving back is embedded in our corporate philosophy. Through our social responsibility programs and advocacy-driven initiatives, we actively support national causes and promote the public's welfare—underscoring our role as a true partner in nation-building.

DIRECT ECONOMIC VALUE GENERATED & DISTRIBUTED

DIRECT ECONOMIC VALUE GENERATED & DISTRIBUTED GMA'S DIRECT ECONOMIC VALUE GENERATED (EVG) FOR THE FULL YEAR 2025 REACHED P18.6 BILLION, UP P772 MILLION OR 4% FROM A YEAR AGO.

Direct Economic Value Generated and Distributed

	2025 (in PHP)
Direct economic value generated (revenue)	18,581,683,176
Direct economic value distributed:	
Operating costs	11,136,959,111
Employees' wages and benefits	4,011,279,182
Dividends given to stockholders and interest payments to loan providers	2,089,286,189
Taxes given to government	994,866,648
Investments to community (e.g. donations, CSR)	74,249,354
Economic value retained	275,042,692

GMA Network's Direct Economic Value Generated (EVG) for the full year 2025 reached P18.6 billion, representing a P772 Million or 4% increase compared to the previous year. Airtime revenue from the Company's broadcast operations was the main source of the growth. This was supported by the contributions coming from online/digital revenues, which grew by a double-digit percentage in between periods following the strong presence of the Company in this platform. Higher commission from artists also contributed to the increase.

In terms of Economic Value Distributed, the Company allocated P18.3 billion in 2025, a climb of P207 million from the previous year. Comprising bulk of distributed economic value are the payments in 2025 to providers of capital, specifically, shareholders.

Employee wages and benefits totaled P4.0 billion, a 6% increase compared to last year. Meanwhile, taxes paid to the government amounted to P994.9 million, reflecting a 3% hike due to subsequent increase in both revenue and net income for the year.

From the EVG, P2.1 billion was distributed to capital providers, primarily in the form of cash dividends to shareholders. Additionally, the Network invested P74.2 million in community initiatives, including donations, CSR efforts, public service programs, and sponsorships that support awareness and advocacy campaigns nationwide. After all distributions, Economic Value Retained for 2025 stood at P275.0 million, indicating the impact of a year marked by strategic shifts and ongoing adaptation to market conditions.

IMPACT OF CLIMATE CHANGE

GMA NETWORK IS NOT IMMUNE TO THE WORSENING CLIMATE CHANGE.

The growing frequency and severity of extreme weather events, together with evolving climate-related regulations, may adversely affect the Company's operations, production schedules, and business continuity.

From a financial standpoint, climate-related risks may result in business interruptions, higher operating and recovery costs, damage to physical assets, and delays in program and content delivery. These may, in turn, affect the Company's profitability and operational efficiency.

In line with GMA's enterprise-wide risk management policy, the Company regularly assesses climate-related risks across its operations and implements appropriate mitigation and adaptation measures. Management continues to evaluate the potential impact of these risks on the Company's operations, assets, and long-term business plans, while pursuing resilience measures to support business continuity.

As a step toward promoting environmental sustainability, GMA Network invested over P3 million for the installation of solar panels within the vicinity of the GMA compound. The project underscores the Company's commitment to cleaner energy solutions, operational efficiency, and responsible resource management, while supporting its broader efforts to address climate-related risks and reduce environmental impact.

PROCUREMENT PRACTICES

EIGHTY ONE PERCENT (81%) OF GMA NETWORK'S ACCREDITED SUPPLIERS ARE PHILIPPINE-BASED (LOCAL), WITH HEADQUARTERS LOCATED ACROSS THE ARCHIPELAGO.

In 2025, the majority of our budget (86%) was spent on local suppliers. Purchases from our local suppliers are mostly for production tapings, supplies requirements, repairs and maintenance, and construction projects.

Foreign transactions (14% of budget) comprised of the acquisition of digital multiplexer, renewal of Adobe licenses and maintenance agreement for existing broadcast systems. All foreign purchases were in accordance with Presidential Decree 1362 allowing radio broadcasting and television stations to import radio or television equipment, spare parts and allied technical and program materials to be used exclusively in their broadcast operations subject to certain conditions.

ANTI-CORRUPTION

AS PART OF GMA NETWORK'S ENTERPRISE-WIDE RISK MANAGEMENT, STAKEHOLDERS PERIODICALLY RE-ASSESS THE ORGANIZATION'S RISK PROFILE TO IDENTIFY VULNERABILITIES ACROSS ALL AREAS OF OUR OPERATIONS FOR POTENTIAL ISSUES SUCH AS CORRUPTION.

We have formalized business principles that prohibit employees to gain in any way (e.g., through gifts, favors, solicitations, monetary benefits) from third parties, including suppliers, clients, or competitors.

As a standard practice, we prioritize and support our local suppliers. Some of the benefits from patronizing local suppliers include shorter procurement lead time, lower logistics cost, readily available customer support, stronger relationship with the local business community, and creation of more local job opportunities.

Due to effective policies and mitigating controls, and consistent integration of our corporate values in our day-to-day activities, no significant risks identified by stakeholders relate to corruption.

Global Compact Network Philippines

In 2015, 193 United Nations member states gathered and agreed to promote 17 shared goals—known as UN Sustainable Development Goals (SDGs)—aimed at ending poverty, protecting the planet, and ensuring prosperity for all. The responsibility for the achievement of these goals lies with the governments, corporations, municipalities, educational institutions, and individual citizens of these member states. But because of its extensive impact and effective ways, the business sector takes on a significant portion of this responsibility to advancing the goals.

GMA Network is among those dedicated to promoting the achievement of the SDGs. As tangible evidence of our pledge, we are the first media and entertainment company in the Philippines to sign with the UN Global Compact, a voluntary initiative based on commitments to implement universal sustainability principles and to take steps to support UN goals.
